Moon Hoax: Debunked! Paolo Attivissimo, 2013-10-13 A no-nonsense, fact-filled debunking of all the main Moon hoax conspiracy theories, collected in a single book. If you're an open-minded doubter, you'll find technically accurate but plain-English answers to your questions; if you're a space enthusiast or professional, you'll find a handy reference for dealing with the most obstinate hoax believers and for clarifying popular objections and misconceptions about the Moon landings. Moon Hoax: Debunked! is also an opportunity to rediscover and celebrate one of mankind's greatest voyages, which doesn't need conspiracy theories to be a fascinating adventure. For example, did you know how close to failure each flight actually came? Did you know that pictures of Playmates were smuggled to the Moon to prank the astronauts? Or that there was a secret Soviet plan to land a

Russian on the Moon before the US? Paolo Attivissimo is a British-Italian science journalist, lifelong space enthusiast and contributor to NASA's Apollo Lunar Surface Journal.

One Small Step? Gerhard Wisnewski, 2012-12-17 Is it possible that the famous American moon landings were nothing but an illusion - a fabrication? Could NASA have fooled the world by broadcasting simulations that had been filmed for training purposes? From the very first manned flight into orbit right up to the present day there have been serious anomalies in the official narrative of the conquest of space. Bestselling author Gerhard Wisnewski dissects the history in minute detail - from the first Russian missions to the final American moon project of Apollo 17 - looking at films, photos, radio communications, personal statements and any other available material. Using forensic methods of investigation, he pieces together a complex jigsaw depicting a disturbing picture of falsifications, lies and fakery in the Cold War struggle for supremacy between the Soviet Union and the USA. The evidence he presents casts serious doubt on the possibility of humans ever having walked on the moon. Wisnewski's research calls for a reassessment of the received wisdom that has entered the fabric of our culture. The true story of space exploration has a more sinister undertone, he argues. Beneath the guise of civilian space travel the US military has been developing fearsome new equipment and weapons to be secretly stationed in space with the aim of militarizing the orbit around the earth. The potential targets: every human being on the planet. Profusely illustrated with over 200 photos and diagrams.

In Light-Years There's No Hurry: Cosmic Perspectives on Everyday Life Marjolijn van

Heemstra,2023-06-20 How seeing Earth through the eyes of an astronaut brings new wonder and meaning to life on our planet. One stifling summer night, the poet and journalist Marjolijn van Heemstra lay awake, unable to sleep—like so many of us feeling anxious and alienated, deeply exhausted yet restless. Amid the suffocating stream of daily obligations, the clamor of notifications and increasingly dismal headlines, she longed for a way to rise above the frenzy, for a renewed sense of meaning and connection. Then she learned about the overview effect—a permanent shift in consciousness many astronauts experience when beholding Earth from outside the atmosphere—and wondered: could the perspective of outer space offer the internal space she sought? The lyrical account of van Heemstra's yearlong quest to experience the overview effect on Earth, *In Light-Years There's No Hurry* invites us to lift our gaze above eye level and discover our connections with the cosmos, our planet, and each other. We follow as van Heemstra's cosmic awareness expands and she finds herself feeling simultaneously lighter and more grounded. Compared with the complexity of the universe, daily life on Earth begins to seem more manageable, while understanding the improbability of our collective existence gives her new patience and tenderness for her neighbors. The grand rhythms of light-years and eons become a source of restoration and relief—a comforting, necessary reminder to slow down and zoom out. Contemplating the solace a cosmic perspective offers in our chaotic, divided world, *In Light-Years There's No Hurry* is a moving meditation on what it is to be human amid the vastness of the universe.

Blood Moon Redemption Judy DuCharme,2018-10-31 An ancient relic, a puzzling prophecy, and a young woman tied together through the ages . . . Throughout history, blood moons have always been surrounded by persecution and provision, great trials and triumphs. The blood moons of 1493-1494 provided a new world for the Jewish people. In 1949-1950, the blood moons gave them Israel, and the following eclipses presented the Jewish people Jerusalem in 1967-1968. Now a new set of blood moons is on the horizon, and Tassie's family is certain they will bring about great change. Tassie, named for a lost

religious relic, has her sights set on her career and love, and she doesn't have time for silly children's stories. Dismissing the blood moons as circumstance, her unbelief threatens to keep her from her destiny. When Tassie finds herself in the center of worldwide turmoil and a terrorist plot, can she accept her family history and fulfill her place in the future of Israel? Or will the country of her heritage finally fall to its many enemies? Blood Moon Redemption is an end-times thriller that will keep you riveted until the very last moonrise.
