*Global Mining and Mineral Industry Government Agencies and Organizations
Directory Volume 1 Government Agencies, Organizations, Companies IBP USA,
Official Gazette Philippines,1977*

*Italy Mining Laws and Regulations Handbook Volume 1 Strategic Information and
Regulations IBP, Inc.,2016-05-06* Sure, everyone gets sick sometimes, but do you realize that plenty of those folks also die slow, unpleasant deaths from diseases that stumped even the experts at top-notch (still privately run) hospitals? That's right: There are plenty of illnesses that even physicians have never heard about. Nodding Disease, Alice in Wonderland Syndrome, and Cutaneous Horn (yes, you grow a horn) are all featured here in pithy, energetic entries. You won't have to worry about socialized medicine if you have this book—even if your doc could see you within a month, you might die due to his ignorance. Lucky for you and your loved ones, Ian Landau (who has no medical training but is a hell of a researcher) includes: Descriptions of each disease Background and history How to diagnose yourself and others Suggested treatments Prevention methods The book is not for the faint of heart, as it probably could cause cardiac arrest. (And you ain't coming back from that without Ian's help.)

The discursive role of adjectives in the translation of Metropolitan Anthony Bloom's religious texts Mona-Ancuța IONESCU,2023-01-01 The book examines the ways in which adjectives contribute to the realization of the various language functions in several of Metropolitan Anthony Bloom's (1914–2003) spirituality works and transcribed talks, as well as in their Romanian translated versions. In particular, it aims at offering an application of the communication theory (cf. Jakobson 1960/1987, Kinneavy 1980) to Metropolitan Anthony's contemporary religious discourse and an investigation of the underlying lexical-semantic and pragmatic relations carried out by the adjectival class in order for discourse aim to be achieved. It also seeks to reveal the role of adjectives in the process of translation from English into Romanian, more specifically in preserving the source text functions in the target language. To this end, the study engages in an analysis

of the hierarchical communicative functions in the corpus, as well as of the role played by adjectives both in the realization and transfer of the respective language functions. The present book, which may be of equal interest to researchers in linguistics and to theologians, demonstrates not only the pivotal role of adjectives in fulfilling communicative purposes specific to religious communication, but also their cohesive discourse role in Metropolitan Anthony's legacy. At the same time, it highlights the outstanding status of the adjectival class in establishing the functional-cognitive correspondence between the source text and the target text in translation.
