Many people ask the question why invest in sports in developing countries for which water supply, health service and agriculture projects are much better suited? An apt reply to this question may be for many of the people of a developing country, Sports is the only Sweaty Leisure-time activity. Sports represents a moment of joy in the midst of hard poverty-stricken and dirty everyday life. Doing sports even makes one's work go more smoothly the next day.

Everything You Know Is Pong Roger Bennett, Eli Horowitz, 2010-11-02 One billion Chinese pong fans can't be wrong. With an all-star team of contributing writers—including Nick Hornby, Will Shortz, Davy Rothbart, Harold Evans, and Jonathan Safran Foer—and quirky, fascinating images of table tennis from around the world, editors Eli Horowitz (McSweeney's) and Roger Bennet (creator of Bar Mitzvah Disco and Camp Camp) deliver a humorous but heartfelt paean to ping pong, the world's most popular, yet least appreciated sport. Everything You Know Is Pong is a beautifully designed literary tribute to every aspect of table tennis, the true global pastime.

Table Tennis Triples Guenter Arndt, 2007-10-31 Most existing table tennis teams never play each other as a team. Triples for the first time allows three-person teams to play serious table tennis. The book explains its rationale, equipment and its manufacture, its rules, and its integration into existing table tennis events. It strives to enhance the already popular image of table tennis by adding a true team sport to its repertoire, thereby increasing its player, spectator and media appeal. Part 1 establishes the theoretical basis of Triples and provides detailed information on the design and manufacture of its hardware. In analysing its geometrical and physical aspects, it shows that playing conditions in Triples are equivalent to or better than in the conventional game - e.g. a greater action space

and shot variety. Hence various novel table and net designs are described, including a reversible rectangular-to-round retrofit table tennis table system. Part 2 contains everything one needs to know to play the game, presenting a detailed account of the Triples rules and their reasoning. These include some concepts new to table tennis, such as Tie Break, Shoot-Out, and Draw game outcomes. Details on scoring, umpiring, match progress displays and possible team strategies are presented, including point-by-point score sheets and team events involving singles, doubles and Triples matches. Part 3 provides a glimpse into the future. It describes how Triples equipment can be used to create interesting new practice and recreational games, including 4-player Quadruples, and how electronic sensors and computerised displays will soon lead to the intelligent table tennis table. With its 60 figures, 12 tables, 45 references and 3 new terms registers the book is lucid and user-friendly. Collectively it invites table tennis players, coaches, organisers and administrators alike to try out the new game - and in this has the support of the International Table Tennis Federation.
