Ferdinand II, Counter-Reformation Emperor, 1578-1637 Robert Bireley,2014-11-17 Emperor Ferdinand II (1619-37) stands out as a crucial figure in the Counter-Reformation in central Europe, a leading player in the Thirty Years War, the most important ruler in the consolidation of the Habsburg monarchy, and the emperor who reinvigorated the office after its decline under his two predecessors. This is the first biography since a long-outdated one written in German in 1978, and the first ever in English. It looks at his reign as territorial ruler of Inner Austria from 1598 until his election as emperor and especially at the influence of his mother, the formidable Archduchess Maria, in order to understand his later policies as emperor. This book focuses on the consistency of his policies and the profound influence of religion throughout his career, and follows the contest at court between those who favored consolidation of the Habsburg lands and those who aimed for expansion in the empire.

Rise of the Dutch Republic, the Volume 29: 1578 John Lothrop Motley, 2010-01

The Collected Letters of St. Teresa of Avila, vol 2: 1578-1582 Teresa of Avila, 2001 Contains Letters from 1578 to 1582 Includes Biographical Sketches, Sources for the Biographical Sketches and Index. More Information This second and final volume of St. Teresa's correspondence begins with the year 1578, a most troubling time for Teresa. A keen observer of the reality around her as well as within, Teresa in these letters focuses light on many of the struggles in both the Carmelite order and the church of sixteenth-century Spain. She introduces us to major personalities who have left their mark on history. Through her letters historians gain a better knowledge of the chronology of events in Teresa's life and how she related to the diverse people she had dealings with. A number of everyday particulars that compilers and editors of those times considered unimportant are today prized. Her worries, her troubles and triumphs, her expressions of sadness and joy, are all present here. With a compelling spontaneity, these letters disclose a Teresa in a complex variety of circumstances. The extraordinary gifts of grace bestowed by God on this Spanish Madre fortified her for a demanding ministry of service which entailed heavy responsibilities and that drew her contemplative soul into a whirl of activities. Because of the limited means of travel and communication in the sixteenth century, the organization of a reform like hers, with its unavoidable business matters, had to be dealt with chiefly through correspondence, a chafing duty that became one of Teresa's greatest trials. She often repeated that letter-writing was her biggest burden, a wearisome task that cost her more than all the miserable roads and bad weather experienced on her journeys through Spain. With its endnotes, biographical sketches, and above all, fresh translation, this second volume of Teresa's Collected Letters opens again another door into the fascinating world of this saint, one of the greatest women history has known.

James VI and Noble Power in Scotland 1578-1603 Miles Kerr-Peterson, Steven J. Reid, 2016-12-19 James VI and Noble Power in Scotland explores how Scotland was governed in the late sixteenth century by examining the dynamic between King James and his nobles from the end of his formal minority in 1578 until his accession to the English throne in 1603. The collection assesses James' relationship with his nobility, detailing how he interacted with them, and how they fought, co-operated with and understood each other. It includes case studies from across Scotland from the Highlands to the Borders and burghs, and on major individual events such as the famous Gowrie conspiracy. Themes such as the nature of government in Scotland and religion as a shaper of policy and faction are addressed, as well as broader perspectives on the British and European nobility, bloodfeuds, and state-building in the early modern period. The ten chapters together challenge well-established notions that James aimed to be a modern, centralising monarch seeking to curb the traditional structures of power, and that the period represented a period of crisis for the traditional and unrestrained culture of feuding nobility. It is demonstrated that King James was a competent and successful manager of his kingdom who demanded a new level of obedience as a 'universal king'. This volume offers students of Stuart Britain a fresh and valuable perspective on James and his reign.

Europe Through Arab Eyes, 1578-1727 Nabil I. Matar, 2009 and Malta. From the first non-European description of Queen Elizabeth I to early accounts of Florence and Pisa in Arabic, from Tunisian descriptions of the Morisco expulsion in 1609 to the letters of a Moroccan Armenian ambassador in London, the translations of the book's second half draw on the popular and elite sources that were available to Arabs in the early modern period. Matar notes that the Arabs of the Maghrib and the Mashriq were eager to engage Christendom, despite wars and rivalries, and hoped to establish routes of trade and alliances through treaties and royal marriages. However, the rise of an intolerant and exclusionary Christianity and the explosion of European military technology brought these advances to an end. In conclusion, Matar details the decline of Arab-Islamic power and the rise of Britain and France. -- Book Jacket.
