**Neo-noir** Douglas Keesey,2010-12-01 Directors discussed include the Coen Brothers, David Lynch, Michael Mann, Christopher Nolan, Steven Soderbergh, and Quentin Tarantino A world-weary detective, a seductive femme fatale, a mysterious murder—these elements of classic film noir live again in more recent hardboiled detective films from Chinatown to Sin City. But the themes and styles of noir have also spilled over into contemporary films about gangsters, cops, and serial killers, such as Reservoir Dogs, The Departed, and Se7en. New hybrid genres have been created, including psycho-noirs such as Memento, techno-noirs such as The Matrix, and superhero noirs like The Dark Knight. Beginning by showing how neo-noirs have drawn upon contemporary social and historical events as well as the latest technological advances in filmmaking, this book then discusses the landmark neo-noirs, the cult auteur figures of neo-noir, international films, and the remakes that put a new spin on past noirs. The main credits and a plot summary are given for each movies—including Fargo, Get Carter, L.A. Confidential, Mulholland Drive, Oldboy, and Pulp Fiction—followed by an in-depth analysis containing original insights into the film's meaning. Also included are fascinating facts, behind-the-scenes anecdotes, and lively quotes from the cast and crew.

Attachment in Religion and Spirituality Pehr Granqvist,2020-01-21 Synthesizing diverse strands of theory and research, this compelling book explores the psychology of religion and spirituality through an innovative attachment lens. Pehr Granqvist examines the connections between early caregiving experiences, attachment patterns, and individual differences in religious cognition, experience, and behavior. The function of a deity as an attachment figure is analyzed, as are ways in which attachment facilitates the intergenerational transmission of religion. The book also shows how the attachment perspective can aid in understanding mystical experiences, connections between religion and mental health, and cultural differences between more and less religious societies. Granqvist's conversational writing style, concrete examples, and references to popular culture render complex concepts accessible.

The House Where God Lives Vernell Everett,2018-09-22 The Smith family was a family of law-abiding individuals who tried their best to follow the normal social rules. A few members found it difficult to believe wholeheartedly in the logic of their ways of doing what was required to be compatible with the norm. This was especially true for Buck. Buck went in search of higher answers to unasked questions relating to what was the meaning of all existences. He asked questions which man

had no logical answer to. Buck's questioning everything that man took for granted polluted his comrades' zones. Buck continued searching for himself and what part of the whole was he. Read the story of Buck's journey and share his experiences.

**Word of Mouth and Social Media** Allan J. Kimmel, Philip J. Kitchen, 2016-12-19 This collection examines a key new development in the contemporary marketing landscape, the relationship between the informal exchange of information and advice among consumers – known as word of mouth (WOM) – and emerging social media. Whereas WOM has been around since as long as people have engaged in conversations, its transmission is no longer limited to face-to-face interactions over the clothesline and across backyard fences. Today, the dissemination of WOM through online channels such as Facebook, Twitter, LinkedIn, YouTube channels, blogs, and consumer forums has significantly altered the alacrity by which product and service messages are spread across a dramatically expanded consumer audience. As marketing practitioners have come to recognize the power of online WOM in terms of its impact on consumer beliefs, attitudes, and purchasing behavior, effective strategies for leveraging the consumer conversation require greater insight and understanding of WOM and social media. Towards that end, this book offers ground-breaking research from an impressive array of internationally renowned marketing researchers on the nature and dynamics of WOM transmitted through social media channels, advancing our understanding of consumer influence, which to date has largely focused on offline WOM. Among the topical issues covered are best practices for marketing practitioners, the conversational nature of online WOM, the dynamic interplay between online and offline WOM, WOM measurement and monitoring, and cross-cultural influences on WOM. This book was originally published as a special issue of the Journal of Marketing Communications.

**Film Studies** Andrew M. Butler, 2002-09-01 Pocket Essentials is a dynamic series of books that are concise, lively, and easy to read. Packed with facts as well as expert opinions, each book has all the key information you need to know about such popular topics as film, television, cult fiction, history, and more. This book offers a concise introduction to the appreciation and study of film. It begins with the nuts and bolts, an examination of how films are put together—framing, performance, setting, costume and editing—and then examines a number of approaches taken to film over the last half century, such as the auteur theory, structuralism, psychoanalysis, feminism, queer theory, and more. Applying these theories to films everyone will have seen, such as *The Usual Suspects* and *Seven*, the book also includes an overview of genres, national cinemas, and film movements worldwide.

*Pancha Forkers and the Egghead Robots* Jp Vishnu Vardhan, 2016-08-17 Xobo the Robo, possessed by the evil soul of Mr. God, plans the destruction of Mother Nature to reestablish its fictional alien ancestors system of Fathers and Sons. It raised a Robo Family and demonic Army; they run amok and cause devastation.. Militaries fail against Metal Monsters.. Ultimately, five children with Pure Hearts were chosen to stop Lord Xobo. At last, the War begins. Quotes from the book: Lord Xobo - If there are no plants, no animals, no women, and only reanimated corpses of Fathers and Sons - The Brutons and Kreaks, then a better world, a New World could be created. The human race would have every opportunity to survive without plants, animals and women. Who knows, we may even go to other galaxies and annihilate plants, animals and women everywhere, until only Fathers and Sons remain in the whole universe. We would sing the glorious smell of putrefied corpses forever and ever. Uncle Jumbo - Master Bodhitaran, I'm sorry to say this, but I have no other choice. I could guess what you are going to ask. I shudder to think about those creatures - Brutons and Kreaks. What little children could do against them? Please don't expect me to send these kids to do war against murderous Robots. Monk Bodhitaran - No government on Earth has the tech to stand against Xobo and his United Family. Except us. These five children could beat them with the help of these formidable Purple Forks and few of my own magical devices. I'll guide them to victory. Leave them to me, I pledge my life to

protect them!

Perplexing Plots David Bordwell, 2023-01-17 Narrative innovation is typically seen as the domain of the avant-garde. However, techniques such as nonlinear timelines, multiple points of view, and unreliable narration have long been part of American popular culture. How did forms and styles once regarded as "difficult" become familiar to audiences? In *Perplexing Plots*, David Bordwell reveals how crime fiction, plays, and films made unconventional narrative mainstream. He shows that since the nineteenth century, detective stories and suspense thrillers have allowed ambitious storytellers to experiment with narrative. Tales of crime and mystery became a training ground where audiences learned to appreciate artifice. These genres demand a sophisticated awareness of storytelling conventions: they play games with narrative form and toy with audience expectations. Bordwell examines how writers and directors have pushed, pulled, and collaborated with their audiences to change popular storytelling. He explores the plot engineering of figures such as Raymond Chandler, Agatha Christie, Dashiell Hammett, Patricia Highsmith, Alfred Hitchcock, Dorothy Sayers, and Quentin Tarantino, and traces how mainstream storytellers and modernist experimenters influenced one another's work. A sweeping, kaleidoscopic account written in a lively, conversational style, *Perplexing Plots* offers an ambitious new understanding of how movies, literature, theater, and popular culture have evolved over the past century.

*Language and Style* Dan McIntyre, Beatrix Busse, 2020-09-03 Inspired by *Exploring the Language of Poems, Plays and Prose*, Mick Short's classic introduction to stylistics, *Language and Style* represents the state-of-the-art in literary stylistics and encompasses the full breadth of current research in the discipline. Written by leading scholars in the field, chapters cover a variety of methodological and analytical approaches, from traditional qualitative analysis to more recent developments in cognitive and corpus stylistics. Addressing the three, key literary genres of poetry, drama and narrative, *Language and Style* is divided into carefully balanced sections. Based on original research, each chapter demonstrates a particular analytic technique and explains how this might be applied to a text from one of the literary genres. Framed by helpful introductory material covering the foundational principles of stylistics, the chapters act as practical exemplars of how to carry out stylistic analysis. Comprehensive and engaging, this invaluable resource is essential reading for anyone interested in stylistics.

The Prison of Time Elisa Pezzotta, 2022-08-25 We are imprisoned in circadian rhythms, as well as in our life reviews that follow chronological and causal links. For the majority of us our lives are vectors directed toward aims that we strive to reach and delimited by our birth and death. Nevertheless, we can still experience fleeting moments during which we forget the past and the future, as well as the very flow of time. During these intense emotions, we burst out laughing or crying, or we scream with pleasure, or we are mesmerized by a work of art or just by eyes staring at us. Similarly, when we watch a film, the screening time has a well defined beginning and end, and screening and diegetic time and their relations, together with narrative and stylistic techniques, determine a time within the time of our life with its own rules and exceptions. Through the close analysis of Stanley Kubrick's, Adrian Lyne's, Michael Bay's and Quentin Tarantino's oeuvres, this book discusses the overall 'dominating' time of their films and the moments during which this 'ruling' time is disrupted and we momentarily forget the run toward the diegetic future – suspense – or the past – curiosity and surprise. It is in these very moments, as well as in our own lives, that the prison of time, through which the film is constructed and that is constructed by the film itself, crumbles displaying

our role as spectators, our deepest relations with the film.
