The Music of the Arabs Habib Hassan Touma, Habib Touma, 2003-01-01 (Amadeus). Encompassing a history of more than 2000 years, the music of the Arabs is unique among the world's various musical cultures. This book presents an overview of Arabic music throughout history and examines the artistic output of contemporary musicians, covering secular and sacred, instrumental and vocal, improvised and composed music. Typical musical structures are elucidated, and a detailed bibliography, a discography (mainly covering the last 50 years) and a guide to the Arabic alphabet for English speakers are also provided. The paperback edition (00331635) includes a CD of seven traditional Arabic pieces performed by contemporary Arab musicians.

"The Voice of Egypt" Virginia Danielson, 2008-11-10 Umm Kulthum, the voice of Egypt, was the most celebrated musical performer of the century in the Arab world. More than twenty years after her death, her devoted audience, drawn from all strata of Arab society, still numbers in the millions. Thanks to her skillful and pioneering use of mass media, her songs still permeate the international airwaves. In the first English-language biography of Umm Kulthum, Virginia Danielson chronicles the life of a major musical figure and the confluence of artistry, society, and creativity that characterized her remarkable career. Danielson examines the careful construction of Umm Kulthum's phenomenal popularity and success in a society that discouraged women from public performance. From childhood, her mentors honed her exceptional abilities to accord with Arab and Muslim practice, and as her stature grew, she remained attentive to her audience and the public reception of her work. Ultimately, she created from local precedents and traditions her own unique idiom and developed original song styles from both populist and neo-classical inspirations. These were enthusiastically received, heralded as crowning examples of a new, yet authentically Arab-Egyptian, culture. Danielson shows how Umm Kulthum's music and public personality helped form popular culture and contributed to the broader artistic, societal, and political forces that surrounded her. This richly descriptive account joins biography with social theory to explore the impact of the individual virtuoso on both music and society at large while telling the compelling story of one of the most famous musicians of all time. She is born again every morning in the heart of 120 million beings. In the East a day without Umm Kulthum would have no color.—Omar Sharif

Arabic Musical Scales Cameron Powers, 2006-03 How to play Arabic music. Maqam structures with traditional quarter-tone intervals presented in easy-to-read formats. This book has become a widely-used standard for instrumentalists and singers who wish to enter the magical world of Arabic music.

Making Music in the Arab World Ali Jihad Racy, 2003 A.J. Racy, a scholar of ethnomusicology, provides an intimate portrayal of the Arab musical experience in this pioneering book. Racy focuses on tarab, a multifaceted concept that has no exact equivalent in English and refers to the indigenous music and the ecstasy associated with it. His book examines aspects of musical craft, including basic skills, musician's inspiration, love lyrics as tools of ecstasy, and the relationship between performers and listeners.

Making the Great Book of Songs Hilary Kilpatrick, 2003-09-02 This is the first systematic literary study of one of the masterpieces of classical Arabic literature, the fourth/tenth century Kitâb al-aghânî (The Book of Songs) by Abû I-Faraj al-Isbahânî. Until now the twenty-four volume Book of Songs has been regarded as a rather chaotic but priceless mine of information about classical Arabic music, literature and culture. This book approaches it as a work of literature in its own right, with its own internal logic and coherence. The study also consistently integrates the musical component into the analysis and proposes a reading of the work in which individual anecdotes and poems are related to the wider context, enhancing their meaning.

The Ma'luf in Contemporary Libya Philip Ciantar, 2016-03-03 The musical tradition of Ma'luf is believed to have come to North Africa with Muslim and Jewish refugees escaping the Christian reconquista of Spain between the tenth and seventeenth centuries. Although this Arab Andalusian music tradition has been studied in other parts of the region, until now, the Libyan version has not received Western scholarly attention. This book investigates the place of this orally-transmitted music tradition in contemporary Libyan life and culture. It investigates the people that make it and the institutions that nurture it as much as the tradition itself. Patronage, music making, discourse both about life and music, history, and ideology all unite in a music tradition which looks innocent from the outside but appears quite intriguing and intricate the more one explores it.

Inside Arabic Music Johnny Farraj, Sami Abu Shumays, 2019-05-21 What makes hundreds of listeners cheer ecstatically at the same instant during a live concert by Egyptian diva Umm Kulthum? What is the unspoken language behind a taqsim (traditional instrumental improvisation) that performers and listeners implicitly know? How can Arabic music be so rich and diverse without resorting to harmony? Why is it so challenging to transcribe Arabic music from a recording? Inside Arabic Music answers these and many other questions from the perspective of two insiders to the practice of Arabic music, by documenting a performance culture and a know-how that is largely passed on orally. Arabic music has spread across the globe, influencing music from Greece all the way to India in the mid-20th century through radio and musical cinema, and global popular culture through Raqs Sharqi, known as Bellydance in the West. Yet despite its popularity and influence, Arabic music, and the maqam scale system at its heart, remain widely misunderstood. Inside Arabic Music de-mystifies maqam with an approach that draws theory directly from practice, and presents theoretical insights that will be useful to practitioners, from the beginner to the expert - as well as those interested in the related Persian, Central Asian, and Turkish makam traditions. Inside Arabic Music's discussion of maqam and improvisation widens general understanding of music as well, by bringing in ideas from Saussurean linguistics, network theory, and Lakoff and Johnson's theory of cognition as metaphor, with an approach parallel to Gjerdingen's analysis of Galant-period music - offering a lens into the deeper relationships among music, culture, and human community.
