*CLOCK STRIKER* Issaka Galadima,Frederick L. Jones,2023-03-19

Clock Striker, now in graphic novel format, follows Shonen manga's first Black female lead hero, Cast, in her quest to become a member of the SMITHS, the legendary warrior engineers.

Cast dreams of being a SMITH, and though she's rather handy with her tools, no one in her small town ever realizes their dreams. Besides, these legendary warrior engineers haven't been seen in years and were never known for having female members. Fortunately, Cast meets one surviving member named Ms. Philomena Clock, who agrees to take her on as her apprentice, or striker.

Now Cast is thrust into one deadly adventure after another! From cybernetic desperadoes to technology thieves and more, Cast has to use her mind and her remodeled robotics-lab prosthetic hand, which offers unfathomable offensive power in the form of scientific experiments. Need lightning? Cast can generate it from her hand! Cast's mentor seeks to uncover an ominous mystery that explains what happened to the SMITHS and shines a light on a hidden power that may be within Cast herself.

Can Cast become a new member of the SMITHS? More importantly, can Cast survive the process to become a SMITH?

**The Last Lecture** Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our

last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

*My Clock Won't Run* D. Rod Lloyd, 2016-01-01 Mechanical clocks are now considered works of art, a part of history, a member of the family and they need love. Sooner or later, your treasured timepiece will stop. Your choice is to either live with it in silence or go to a hard to find repair shop, leave it for weeks and pay perhaps hundreds of dollars to get it back, hopefully working. The fact is, you can more than likely do the same thing they do, yourself. There are little-known items that stop a clock that you can easily do yourself for very little money. You can even oil your clock for just a few dollars' worth of oil. You can service: Grandfather Clocks, Mantel Clocks, Wall Clocks, Kitchen Clocks, French Clocks, Cuckoo Clocks, etc. No expensive tools needed besides oil which I will tell you where to buy it very inexpensively. I will teach you how to service your own clock.
