My Word! Susan D. Blum,2011-06-15 Classroom Cheats Turn to Computers. Student Essays on Internet Offer Challenge to Teachers. Faking the Grade. Headlines such as these have been blaring the alarming news of an epidemic of plagiarism and cheating in American colleges: more than 75 percent of students admit to having cheated; 68 percent admit to cutting and pasting material from the Internet without citation. Professors are reminded almost daily that many of today's college students operate under an entirely new set of assumptions about originality and ethics. Practices that even a decade ago would have been regarded almost universally as academically dishonest are now commonplace. Is this development an indication of dramatic shifts in education and the larger culture? In a book that dismisses hand-wringing in favor of a rich account of how students actually think and act, Susan D. Blum discovers two cultures that exist, often uneasily, side by side in the classroom. Relying extensively on interviews conducted by students with students, My Word! presents the voices of today's young adults as they muse about their daily activities, their challenges, and the meanings of their college lives. Outcomes-based secondary education, the steeply rising cost of college tuition, and an economic climate in which higher education is valued for its effect on future earnings above all else: These factors each have a role to play in explaining why students might pursue good grades by any means necessary. These incentives have arisen in the same

era as easily accessible ways to cheat electronically and with almost intolerable pressures that result in many students being diagnosed as clinically depressed during their transition from childhood to adulthood. However, Blum suggests, the real problem of academic dishonesty arises primarily from a lack of communication between two distinct cultures within the university setting. On one hand, professors and administrators regard plagiarism as a serious academic crime, an ethical transgression, even a sin against an ethos of individualism and originality. Students, on the other hand, revel in sharing, in multiplicity, in accomplishment at any cost. Although this book is unlikely to reassure readers who hope that increasing rates of plagiarism can be reversed with strongly worded warnings on the first day of class, *My Word!* opens a dialogue between professors and their students that may lead to true mutual comprehension and serve as the basis for an alignment between student practices and their professors' expectations.

I Love to Collage! Jennifer Lipsey, 2006 Sometimes art can seem intimidating to kids--but collage, with its layering of already-existing images and materials, feels like something they can master. With this exciting new entry in Lark's *My Very Favorite Art Book* series, readers aged five and up will have a blast learning basic techniques and producing fabulous finished pieces. Young artists will get creative as they cut out facial features from magazines and rearrange them in whimsical portraits; weave strips of paper together to form interesting visual patterns; and design a cityscape from geometric shapes. They can even make personalized greeting cards for friends and family. Each finished project is showcased in a full-page photo or illustration--and because the text is kept to a minimum, even pre-readers can follow along.

My First Painting and Collage Book Clare Youngs, 2018-06-12 35 step-by-step art projects using paint and paper, for children aged 7+. *My First Painting and Collage Book* shows you different

Then have fun trying out the projects in Chapter 2, Ink, Paint, and Pastels, where you can get messy with the ink blot lion project, make striking 3-D cards, and create fabulous pictures such as the oil pastel owl. In Chapter 3, Beach and Vacation Art, you can make use of natural materials that you find while you're playing, such as driftwood and shells, plus have a go at the postcard project to send to your friends. Finally, use scraps of paper, photos, and magazine pages in Chapter 4, Collages and Paper Pictures, for super creations, including a tissue paper peacock, robots, and an impressive cityscape collage. To My Professor: Student Voices for Great College Teaching Michigan State University School of Journalism, 2016-08-23 "To My Professor: Student Voices for Great College Teaching" begins with remarks by students about their professors. More than 50 chapters cover situations including expectations, communication, technology, race, gender and religion, mental and physical health.

Right My College Application Essay Christine

Gacharna, 2023-05-12 The college application essay uses a completely different rhetorical mode from the typical five-point essays high schoolers are used to writing, and that's the catch-22: most students won't learn about rhetorical modes and organizational methods until their undergraduate English courses--only first, you have to get in! In this post-COVID era, many colleges and universities have made standardized test scores optional for admission--which puts even more pressure on students to write an essay that separates them from others in a sea of highly qualified applicants. Right My College Application Essay bridges the gap between high school English lit and academic writing at the undergraduate level, starting with the college application essay. This step-by-step guide uses powerful visuals, easy-to-follow instructions, and sample student essays to guide students in writing, organizing, and polishing a college application essay that weaves in personal variables to help make them jump off the page. Award-winning writer, newspaper editor, former lead faculty, and English/communications instructor Christine Gacharna spent six years teaching undergraduate writing courses and streamlining the evaluation and assessment of student writing for her faculty peers. In this workbook, she shares her radically effective trademarked system of Communicate. Navigate. Punctuate to transform anxiety into a stress-free path to crafting a college application essay that helps high school seniors sell themselves to admissions officers, land acceptance letters, and earn scholarship offers to help them achieve their undergraduate dreams.
