Finding My Status Allison Levine,2011-02-28 In my seventh week of graduate school (having gone back 18 years after I graduated from college) I packed up my minivan with the red flames on it, took my kids and left my not-so-nice husband. I then spent the next year becoming a single mom, a teacher, a size six and a cougar. This is my memoir. Yes, unfortunately, it's a common story that way too many women have gone through; but here's the twist: my story is written in facebook status updates only. One line for each triumph, each failure, each heartbreak and each exhausting, overwhelming, non-sleeping, anxiety crammed, toddler filled, student teaching, boy crazy, wonderful moment of that year. I realize now, that year, was not only my most challenging year but my favorite as well. FINDING MY STATUS is a fresh and original look at an all too common predicament. It's funny, engaging, and topical. My friends and family log in to facebook each day to check my status. The book was created primarily from the actual status updates from my facebook page. And the rest...went through my mind as I narrated that first year where I found myself again. I think I was lost between the cushions of my sofa where all of the loose change goes...

Rethinking Disaster Recovery Jeannie Haubert,2015-02-05 Rethinking Disaster Recovery focuses attention on the social inequalities that existed on the Gulf Coast before Hurricane Katrina and how they have been magnified or altered since the storm. With a focus on social axes of power such as gender, sexuality, race, and class, this book tells new and personalized stories of recovery that help to deepen our understanding of the disaster. Specifically, the volume examines ways in which gender and sexuality issues have been largely ignored in the emerging post-Katrina literature. The voices of young racial and ethnic minorities growing up in post-Katrina New Orleans also rise to the surface as they discuss their outlook on future employment. Environmental inequities and the slow pace of recovery for many parts of the city are revealed through narrative accounts from volunteers helping to rebuild. Scholars, who were themselves impacted, tell personal stories of trauma, displacement, and recovery as they connect their biographies to a larger social context. These insights into the day-to-day lives of survivors over the past ten years help illuminate the complex disaster recovery process and provide key lessons for all-too-likely future disasters. How do experiences of recovery vary along several axes of difference? Why are some able to recover quickly while others struggle? What is it like to live in a city recovering from catastrophe and what are the prospects for the future? Through on-the-ground observation and keen sociological analysis, Rethinking Disaster Recovery answers some of these questions and suggests interesting new avenues for research.
