One Helluva Ride Liz Clarke, 2008-02-12 From its raw beginnings on Southern dirt tracks, NASCAR smacked of a slightly depraved spectacle, as if nothing but trouble could come from the unbridled locomotion of a V8 engine. By the time NASCAR roared into the twenty-first century, it had grown into a billion-dollar sports and marketing colossus, its races attended by hundreds of thousands of fans on any given weekend from mid-February through mid-November, watched on television by the second-largest viewing audience in sports, and bankrolled by the marketing largesse of the Fortune 500's elite. *One Helluva Ride*, a full-throttle account of the rise and reign of NASCAR nation, is award-winning motorsports reporter Liz Clarke's chronicle of how stock car racing exploded from regional obsession to national phenomenon. In covering the sport for more than fifteen years, Clarke has developed a strong rapport with NASCAR's drivers, team owners, and hard-core fans. Through her reporting and analysis, we get to know the public and private sides of NASCAR's most iconic figures, including seven-time champion Richard Petty, who set the standard for treating fans with respect, and the late Dale Earnhardt, whose brazen, bullying tactics wreaked havoc on the track, but whose heart was as big as Daytona's infield. The sports world stopped in its tracks the day Earnhardt was killed on the last lap of the 2001 Daytona 500. Some feared that NASCAR's soul would die with him. But it has raced on, steered by visionary promoters, the all-controlling France family (who founded the sport), and, above all, the next generation of drivers to stir fans' passions: Dale Earnhardt, Jr., son of the NASCAR legend and now, like his father before him, the circuit's most popular driver; Jeff Gordon, the beloved but oft-maligned outsider, bred from the cradle to be NASCAR's winningest modern champion; and Kasey Kahne, a reluctant heartthrob whose confidence derives entirely from an accelerator pedal. Clarke also brings us inside NASCAR's most triumphant and tragic dynasties: the Pettys, the Earnhardts, and the Allisons--and reveals how faith, family, and a deep-seated love of their sport helps them cope with grief and loss. Clarke shows NASCAR to be at a crossroads. In pursuit of a broader audience, NASCAR has severed its sponsorship ties to Big Tobacco, abandoned racetracks in small markets in favor of speedways near glitzy major cities, and welcomed Japan's Toyota

into a sport traditionally restricted to American-made sedans. As NASCAR races toward mass appeal, some suggest it is leaving its roots behind. To others, it is boldly extending its reach from the Southern workingman to every man, woman, and child in the world. Whether you're one of the die-hard NASCAR faithful or just a casual follower, nobody brings you closer to the sport and business of big-time stock car racing than Liz Clarke. This book, like the phenomenon it profiles, really is One Helluva Ride.

Great NASCAR Champions Jim Francis, 2008 Profiles of several NASCAR legends, including Jeff Gordon and Richard Petty.

Dale Earnhardt Jr. Mike Hembree, 2013-06-01 Dale Earnhardt Jr.'s name virtually assured that his life would not be ordinary. Over the past decade, he has fulfilled that destiny. His father, one of the most successful drivers in the history of international motorsports, gave his son more than his name. Dale Earnhardt Sr. placed Dale Jr. in position to follow the footsteps and tire tracks he had left from Darlington to Daytona, from coast to coast, from one championship to the next. Entering 2001, Junior was set to turn the sport on its ear. Instead, his world was rocked in the first race of the season when Dale Sr., racing behind him in a wild finish to the Daytona 500, crashed into the outside wall and was killed. The racing world mourned, and Junior's life changed in many ways. Dale Earnhardt Jr.: Out of the Shadow of Greatness tells the story of this remarkable young man's journey from teenage dreamer to Winston Cup winner, from Street Stock racer to 200 mph superstar, from son of the greatest to a champion in his own right. Against the backdrop of one of sport's biggest tragedies, he continues to carry the Earnhardt name to new heights. This newly revised edition is a must for any NASCAR fan.

Richard Petty J. Chris Roselius, 2009-01-01 A biography of American NASCAR driver Richard Petty--Provided by publisher.

The 200-MPH Billboard Mark Yost, 2007-08-15 Demystifies the economics and politics behind NASCAR sponsorship--and shows how corporate deals have transformed NASCAR itself.

50 First Victories Mike Hembree, Al Pearce, 2022-08 The careers of all successful auto racers start with their first win--Richard Petty at Charlotte, Dale Earnhardt at Bristol, Jimmie Johnson at Fontana, Chase Elliott at Watkins Glen. Some wait years to finally take that first checkered flag, and the emotion is often more relief than joy. It's a crossroads reached after miles of struggle and work, lap after lap of learning, going faster and

faster until that first trophy is realized. *50 First Victories* chronicles the journey of NASCAR's best as they drive their way to that landmark first victory. For some, it came on an out-of-the-way dirt bullring now lost to all but memory; for others the breakthrough win was scored on one of auto racing's giant superspeedways before thousands of fans and the all-seeing eye of television. Journalists Al Pearce and Mike Hembree have been along for the ride for much of NASCAR's long history. With a combined ninety years of coverage of one of America's grassroots sports, they bring a wealth of knowledge and experience to the stories of these fast-and-furious heroes, drivers who ran to the ragged edge--and often past it--in pursuit of the checkered flag that waits at the end of the road. On these pages we meet Mario Andretti, winner of the Daytona 500, who later described that moment as one that stays with you forever. And Ned Jarrett, who won for the first time at tiny Myrtle Beach Speedway but couldn't fully celebrate because fighting the steering wheel all race left his right hand bloody. And Fireball Roberts, who won in only his third race, outrunning the rest of the field at Occoneechee Speedway, one of the sport's fastest dirt tracks. Here are all the sport's stars--Richard Petty, Dale Earnhardt Sr., Dale Earnhardt Jr., Cale Yarborough, Darrell Waltrip, Jeff Gordon, David Pearson, Jimmie Johnson, Junior Johnson--and the stories of their earliest success. Come along for the trip.

Jeff Gordon Laurie Collier Hillstrom, 2011-06-13 NASCAR driver Jeff Gordon has been a key figure in the stock car racing industry since his first Winston Cup victory in 1995. With ninety-three wins, Gordon maintains a record career streak in modern era NASCAR racing. This captivating volume provides a balanced biography of Jeff Gordon. Students will learn about how Gordon helped changed the face of NASCAR, how he broke into the sport and became a champion, and how he matured as a driver and team owner.

The Physics of NASCAR Diandra L. Leslie-Pelecky, 2008 Draws on the author's expertise in physics, as well as interviews with mechanics, pit crews, and other insiders, to trace the life cycle of a race car and offer insight into the scientific aspects of high-speed racing, in an account that also explains how drivers survive dangerous accidents. 35,000 first printing.

The Physics of Nascar Diandra Leslie-Pelecky, 2008-02-14 A physicist explores the science of speed racing and the #1 spectator sport in America in the perfect gift for both NASCAR and science fans. Every NASCAR fan--at one time or another--asks the same question: Why isn't my favorite driver winning? This is your chance to discover how much more there is to NASCAR than "Go fast, turn left and don't crash." If you've ever wondered why racecars don't have mufflers, how "bump drafting" works, or what in the world "Let's go up a pound on the right rear and add half a

round of wedge” means, The Physics of NASCAR is for you. In this fast-paced investigation into the adrenaline-pumping world of NASCAR, a physicist with a passion uncovers what happens when the rubber hits the road and 800-horsepower vehicles compete at 190 miles per hour only inches from one another. Diandra Leslie-Pelecky tells her story in terms anyone who drives a car—and maybe occasionally looks under the hood—can understand. How do drivers walk away from serious crashes? How can two cars travel faster together than either car can on its own? How do you dress for a 1800°F gasoline fire? In simple yet detailed, high-octane prose, this is the ultimate thrill ride for armchair speed demons, auto science buffs, and NASCAR fans at every level of interest. Readers, start your engines.

Taking Stock Monte Dutton, 2011-07 NASCAR's Winston Cup Series has become one of America's fastest-growing spectator sports, with nationwide television coverage, custom-built race cars, and superstar drivers. Yet the sport's roots are grounded in the moonshiners and farm boys who raced souped-up family cars every weekend on the dirt tracks of the Southeast. The evolution of stock car racing from a band of regional weekend warriors into a billion-dollar industry sponsored by some of the nation's largest corporations is explored by eight of the sport's most respected and experienced chroniclers. Taking Stock includes previously unpublished stories about the past and present of racing, and it provides a close-up look at the characters, rich and poor, prominent and obscure, who possess the stuff of legends. This collection features racing stories by award-winning motorsports journalists Monte Dutton of the Gaston (GASTONIA, N.C.) Gazette, Kenny Bruce of NASCAR Winston Cup Scene, Mike Hembree of the Greenville (S.C.) News, Jim McLaurin of the State (Columbia, S.C.), Jeff Owens of NASCAR Winston Cup Scene, David Poole of the Charlotte (N.C.) Observer, Thomas Pope of the Fayetteville (N.C.) Observer, and Larry Woody of the Tennessean (Nashville).
