Astrology: Understanding the Birth Chart is designed to be useful to all students of astrology, from beginners to more advanced practitioners, and will help you develop an integrated, synthesized approach to understanding the birth chart. Understanding the natal chart is recommended to complete beginners, those wishing to structure patchy knowledge, and those already competent in horoscopy who are in search of a more esoteric approach to see the way forward.

The Reading of the Natal Chart Ciro Discepolo, 2012-06-13 The interpretation of the natal charts (that is to say, of the drawing representing the celestial positions of our solar system at the moment of one's birth) is probably the milestone of all Astrological Knowledge. It is the point of confluence of the science in which - in a mass of fascinating synergies - disciplines such as astronomy, astrology, mythology, psychology, and a hundred other forms of Knowledge converge that together form what should be understood for Holistic Knowledge. The master of astrology, enriched by multi-decennial experiences, has the gift of synthesis, the ability of photographing in a moment all the Microcosm-Macrocosm that encloses past, present and future of every human being through the glyphs of planets, the Houses, and the angular aspects among the elements of the chart. This volume represents the University of Astrology. It is not coincidental that its Author, who is one of the most accomplished astrologer of the world, sought to engage in the writing of this short treatise, about the same time of the turning point of his own professional jubilee (defined by the number of works

that he has published so far). With the simplicity that distinguishes him, on this occasion too, Ciro Discepolo has been able to present to both neophytes and the more experienced readers the most difficult concepts in a direct, simple, immediately usable way, revealing previously unpublished details, new knowledge that he has meditated for long before writing about it, and even small secrets of what must necessarily be called the Interpretative Art of Astrology. As is his custom, the Author offers over fifty examples to support the explained theories. They consist mainly in the natal charts of celebrities, completely revised compared to past editions, or interpreted now for the first time for the delight of his students.

Astrological Insights into Personality Betty Lundsted, 2004-09-01 This down-

to-earth exploration of natal chart interpretation shows the familial, male-female patterns in the zodiacal signs and the potentials they hold in combination with planetary energies and house symbolism. Our personalities are strongly influenced by what was happening around us when we were infants and whether our needs were met. Lundsted explains that our natal chart is our parent's transit chart, therefore revealing the truth of our childhood family dynamics. Once we understand these dynamics, Lundsted helps us move beyond laying blame on our parents by identifying the compensating strengths revealed in the chart. She also shows us that the typically classified difficult or hard aspects in the chart actually hold the key to our transformation.

Chart Shapes Wanda Sellar, 2021-01-29 Do you know the Bowl from the Basket shape in a natal chart? Did you realise just how much information you can gain from examining the actual pattern of the planets in the chart? No matter how knowledgeable we are about astrology, natal chart analysis can still present a challenge - however, understanding chart shapes could make all the difference. In this fascinating study, Wanda Sellar pinpoints an effective

route into the astrological labyrinth using a concept which was pioneered by Marc Edmund Jones and then followed by Robert Jansky in the last century. Each chart shape has its own central theme: a Locomotive shape has its starting point with the leading planet which may be in any house or sign, a See-Saw shape begins with the core opposition, a Wedge with the confining trine. Not all charts fit neatly into one of the idealised patterns, and those that take a little coaxing are still a revelation in interpretation. Sometimes it is the planet that stands outside the idealised shape that reveals the core of the personality. This treasure trove includes a multitude of worked case histories, including Arnold Schwarzenegger, Mata Hari, George Blake, Bobby Fischer, Harrison Ford and Agatha Christie. This fascinating and accessible book is suitable for all levels.
