**2675 Tolkien Asteroid** Kothendaraman Aranganathan,2022-05-28 The 2675 TOLKIEN ASTEROID shortly called as TOLKIEN is the Science Fiction Story for the Hollywood Movie Makers. With the interest of earn the money along with finding ways for my ideas reaches to the world, I come up an idea of writing a Science Fiction Movie Story using one of my above mentioned 20 proposals called Tackling the known and unknown Asteroid Impact, and that was mixed with my another proposal called GLOBOOCRACY A NEW GOVERNMENT TYPE UNDER GLOBAL PEACE ORGANIZATION (GPO). And on 05-04-2019, this Tolkien Story was first sent to the Global Challenges Foundation (GCF), Stockholm, Sweden, via E-mail. I told them as I was created one Science Fiction Movie Story in that movie story I was created the Global Leader Character as guest role. It will be more pleasure if the GCF's founder is acting in that guest role in the view of recognizing, highlighting and honour the Global Challenges Foundation's Founder and Chairman Mr. Laszlo Szombatfalvy's tremendous contribution towards global challenges and risk. But there is no response from them. Hence I lost interest on writing the script for this story. And on 25-04-2022, the China announces plans for a new asteroid-deflecting mission. China's space agency plans to send a spacecraft to slam into an asteroid, knocking it into a new - and hopefully safer - orbit. The prospective new mission will launch within the next four years, and was announced on Sunday by Wu Yanhua, deputy director of the China National Space Administration, according to Global Times, a state-run news outlet. I'm not sure whether the GCF was sent my Proposal of Tackling the known and unknown Asteroid Impact or 2675 Tolkien Story to China, and based on these ideas the China started the new asteroid-deflecting mission? If yes means I must say thanks to the Global Challenges Foundation (GCF), Stockholm, Sweden, for effectively doing their job to solve the global challenges issues. The single line story is; how the vandalism leads to disaster by way of Missile hidden in the spacecraft blasted the 10km size asteroid named Tolkien and that disturbed the Tolkien's routine path and deflected the Tolkien to move towards the Sun, then how the scientist deflected the Tolkien from hitting the earth but the new path of the Tolkien sideswipe collusion with the Moon that triggered the Moon to spin faster and that leads to tremendous changes in the Moon and that opened the door for the species including the human to live in the Moon- is the single line of the story. This Story is suitable for both the High Budget and Low Budget Film Producers. The Tolkien Sc-Fi Story is develop in to Part I and II and, if needed then we can develop it in to Part III also. Part I story can be produced with 25% graphics work and Part II story can be produced with 75% graphics work. Tolkien story is not just the imaginary but it is fully convinced by the science and in order to prove the same I was given the reference for each and every action of the story. In other words this Tolkien story is a Real-Fiction story. And it can be happen in reality in near future if we manage to rotate the moon successfully. And this movie will give the tips for the scientist from worldwide to think on how to spin the moon in order to facilitate the human species to live in the Moon. Stephen Hawking has said our time on Earth is running out and we must start searching for new planets to live on if we are to survive as a species. The world we live in now is getting increasingly precarious due to climate change, overdue asteroid strikes, epidemics and population growth. The above said statement of Stephen Hawking reveals that it is urgent for us to find another planet for the human overpopulation and eventually it will help us to reduce other global risks including the climate change catastrophic risks.
