*National Zoo Washington, DC* Friends of the National Zoo (U.S.),2010 The National Zoo has a long history and strong commitment to the scientific study and conservation of animals and their habitats throughout the world.

*Animal Care and Management at the National Zoo* National Research Council,Division on Earth and Life Studies,Institute for Laboratory Animal Research,Board on Agriculture and Natural Resources,Committee on a Review of the Smithsonian Institution's National Zoological Park,2004-03-24 This interim report assesses issues related to animal management, husbandry, health, and care at the Smithsonian Institution's National Zoological Park. The report finds that there are shortcomings in care and management that are threatening the well-being of the animal collection and identifies the most pressing issues that should be addressed.

*Entangled Encounters at the National Zoo* Daniel Vandersommers,2023-09-29 Founded amid the urban commotion of Washington, DC, before the dawn of the twentieth century, the National Zoological Park opened to preserve, teach, and conduct research about the animal world. *Entangled Encounters at the National Zoo* is a study of this important cultural landmark from 1887 to 1920. Centered on the animals themselves, each chapter looks from a different angle at the influential science of popular zoology in order to shed new light on the complex, entangled relationships between humans and animals. Daniel Vandersommers's goal is twofold. First, through narrative, he shows how zoo animals always ran away from the zoo. This is meant literally--animals escaped frequently--but even more so, figuratively. Living, breathing, historical zoo animals ran away from their cultural constructions, and these constructions ran away from the living bodies they were made to represent. The author shows that the resulting gaps produced by runaway animals contain concealed, distorted, and erased histories worthy of uncovering. Second, *Entangled Encounters at the National Zoo* demonstrates how the popular zoology fostered by the National Zoo shaped every aspect of American science, culture, and conservation during the Gilded Age and Progressive Era. Between the 1880s and World War I, as intellectuals debated Darwinism and scientists institutionalized the laboratory, zoological parks suddenly appeared at the heart of nearly every major American city, captivating tens of millions of visitors. Vandersommers follows stories previously hidden within the National Zoo in order to help us reconsider the place of zoos and their inhabitants in the twenty-first century.

Smithsonian National Zoological Park Diana Estigarribia,2002-12-15 Provides a look at the National Zoological Park in Washington, D.C., describing its history, various zoo exhibits and habitats, and some of the animals that can be found there.

Animal Care and Management at the National Zoo National Research Council,Division on Earth and Life Studies,Institute for Laboratory Animal Research,Board on Agriculture and Natural Resources,Committee on the Review of the Smithsonian Institution's National Zoological Park,2005-11-27 This report follows up on an interim report released in February 2004 that focused on immediate needs in the areas of animal care and management, recordkeeping, and pest control. The report finds that the zoo has made good-faith efforts to correct deficiencies noted in the interim report and has made some noticeable improvements in the past year in zoo operations and animal care. However, problems in areas such as staff training, workplace culture, and strategic planning still need to be addressed. Specifically, the report recommends that the zoo immediately develop and implement animal-care training programs to ensure that people who are directly responsible for the well-being of its animal collection are adequately prepared and competent. The report commends a zoo-initiated strategic planning process as a positive step, but recommends it contain a more detailed, comprehensive strategy of how it will meet short-term goals and that it should link plans to upgrade facilities with those to acquire animals. The zoo should also focus on improving communication among keepers, veterinarians, nutritionists, senior managers, and curators.

Panda Cam Friends of the National Zoo (FONZ),2006-07-04 What's black and white and cute all over? Tai Shan, the panda cub born at the Smithsonian's National Zoological Park, whose first months of life have attracted millions of rapt visitors to the Zoo website's panda cam! Panda Cam tracks the increasingly ridiculous cuteness of Tai Shan, the National Zoo's baby panda, over his first seven months as shown through the Zoo website's panda cam -- a camera continually trained on the Fujifilm Giant Panda Habitat to capture his every move. With an introduction by Susan Lumpkin, director of communications of Friends of the National Zoo, providing an overview of Tai Shan's life so far, these adorable color photos with corresponding captions feature Tai Shan's cutest moments -- snuggling with his mom, taking his first steps, lounging in his beloved tub, munching on bamboo, climbing trees, and frolicking in the snow. Given the media frenzy that has surrounded every move of the cub's young life, Panda Cam is sure to cause panda-monium among the millions of fans of this panda cub superstar.

**Smithsonian's New Zoo** Jake Page,1990 The National Zoological Park, as explored by Page, is a beautiful, eye-

opening, and international experience. Page not only offers front-seat and behind-the-scenes tours of the zoo in Washington, D.C., he also covers animal preserves throughout the world. Page recounts how scientists and others from the Smithsonian have been working to return captive animals to natural habitats and ward off the extinction of tigers, elephants, and other endangered creatures. He keeps the scientific talk lively and entertaining at all times supplementing his text by 200 wonderful color photographs of animals in action. The illustrations will certainly enchant animal lovers, but all readers should appreciate this perspective on a zoo as an active force in wildlife conservation.
