

Need For Speed Movies

Robert E. Litan, Hal J. Singer

Pop Culture Into Art Norman Lavers,1988 Long acclaimed by Latin American critics, the Argentine novelist Manuel Puig became best known in this country for his novel *Kiss of the Spider Woman*. While Puig's seven novels are available in translation, an immense body of criticism and many of his most important interviews remain inaccessible to the non-Spanish reader. Written especially for the English-speaking audience, this study analyzes aspects of Puig's novels, summarizing the most important criticism in Spanish, and offers a biographical sketch of the man, making available for the first time in English selections from the most informative interviews. Readings of each of Puig's novels combined with Lavers's overview of the criticism in Spanish provide new insights into one of the most original and profound bodies of fiction of any current writer.

LIFE Movies of the 1980s The Editors of LIFE,2017-10-27 Travel back to the future with dozens of 1980s favorites Before the internet, in the days of Rubik's Cubes, the Iran-Contra scandal, and Wall Street's booms and busts, movies captured the spirit of our times. Now you can revisit those great films with LIFE Movies of the 1980s, packed with glowing photos and behind-the-scenes stories from the pages of Life magazine.

Movies: 300 Word Search Puzzles Marcel Danesi,2021-12-07 Movies: 300 Word Search Puzzles puts your movie trivia knowledge to the test with 300 fun-filled word searches that will keep you on your toes for hours a time!

Superheroes, Movies, and the State Tricia Jenkins,Tom Secker,2022-01-07 Tricia Jenkins and Tom Secker deliver a highly original exploration of how the government-entertainment complex has influenced the world's most popular movie genre—superhero films. Superheroes, Movies, and the State sets a new standard for exploring the government-Hollywood relationship as it persuasively documents the critical role different government agencies have played in shaping characters, stories, and even the ideas behind the hottest entertainment products. Jenkins and Secker cover a wide range of US government and quasi-governmental agencies who act to influence the content of superhero movies, including the Department of Defense, the National Academy of Sciences' Science and Entertainment Exchange and, to a lesser extent, the FBI and the CIA. Superheroes, Movies, and the State deploys a thematic framework to analyze how five of the key themes of our time—militarism, political radicalism and subversion, the exploration of space, the role of science and technology, and representation and identity—manifest in the superhero genre, and the role of the government in molding narratives around these topics. The book includes interviews with both producers and influencer insiders and covers a wide range of superhero products, from 1970s TV shows up to the most recent movie and TV releases, including the first major analysis of the hit Amazon show *The Boys*. In addition, it is the first deep exploration of NASA's Hollywood office and the first detailed account of the role of the Science and Entertainment Exchange, which has worked on thousands of products since its creation in 2008 but is little known outside of the industry. Superheroes, Movies, and the State offers an innovative blend of research methods and interpretive frameworks, combining both production histories and deep readings of superhero texts to clearly reveal how the government-entertainment complex works in the world of blockbuster cinema to shape public perceptions of the United States, war, science, and much, much more.

How to Human Carlos Whittaker,2023-01-24 A much-needed reminder about what it means to be truly human in a world where people feel increasingly disconnected from each other and from God, by the popular author of *Enter Wild*. "Carlos has created an antidote to what ails us."—New York Times bestselling author Jon Acuff These are crazy times, people. We are more agitated than ever. We're fighting. Wrestling with big issues. Less connected than ever to one another and to God. It's a perfect storm: debilitating anxiety, crashing relationships, and forgetting what it feels like to, well, be human. In *How to Human*, author, speaker, and social-media personality Carlos Whittaker offers a fresh vision for becoming the best versions of ourselves. We can refuse to let disagreements define us. We can say no to becoming upset, rage-filled humans and say yes to fuller, happier lives. It begins as we make the shift from "me" to "we" to "everybody" in a three-part journey to be human, see fellow humans, and free those around us. You'll think, laugh, and be inspired by this practical guide, which reveals how to help others, how to hope fiercely, and how to experience the thrill of being fully human. Carlos describes a radical path of love—one that requires us to become builders rather than demolitionists. One that gets personal. One that moves toward others in faith rather than away in fear. One that, when times get crazy, is willing to get crazier (in a good way). One that understands the big joy of how to human.

Romancing the Brand Tim Halloran,2014-01-07 A young woman tells a focus group that Diet Coke is like her boyfriend. A twenty-something tattoos the logo of Turner Classic Movies onto his skin. These consumers aren't just using these brands. They are engaging in a rich, complex, ever-changing relationship, and they'll stay loyal, resisting marketing gimmicks from competitors and influencing others to try the brand they love. How can marketers cultivate and grow the deep relationships that earn this kind of love and drive lasting success for their brands? In *Romancing the Brand*, branding expert Tim Halloran reveals what it takes to make consumers fall in love with your brand. Step by step,he reveals how to start, grow, maintain, and troubleshoot a flourishing relationship between brand and consumer. Along the way, Halloran shares the secrets behind establishing a mutually beneficial "romance." Drawing on exclusive, in-depth interviews with managers of some of the world's most iconic brands, *Romancing the Brand* arms you with an arsenal of classic and emerging marketing tools—such as benefit laddering and word-of-mouth marketing—that make best-in-class brands so successful. The book is filled with examples, strategies, and tools from powerful brands that consumers love, including Coke, Dos Equis, smartwater, the Atlanta Falcons, Domino's Pizza, Bounty, Turner Classic Movies, and many more. Ultimately, *Romancing the Brand* provides marketers with a set of principles for making brands strong, resilient, and beloved—and the insight and confidence to use them.

Need for Speed Brian Kelleher,2014-02-25 Buckle up . . . Tobey Marshall is a mechanic struggling to save his family-owned garage. While he and his team skillfully build and race muscle cars on the side, it's not enough to keep the doors open. He reluctantly partners with his longtime rival, a wealthy, arrogant ex-professional racer, Dino Brewster. But just as a major sale to car broker Julia Bonet looks as though it will save Tobey's business, a disastrous, unsanctioned race results in Dino framing Tobey for manslaughter. Two years later, Tobey is fresh out of prison and eager for revenge. To take Dino down, he plans to enter the high-stakes De Leon race—the biggest contest of underground racing in the world—to get the money to reclaim his family business and expose Dino's deception. But getting there won't be easy, as Tobey must run a high-octane, pedal-to-the-floor gauntlet, dodging cops coast to coast and dealing with fallout from a dangerous bounty on his car. Luckily, with his team—and the surprisingly resourceful Julia—on his side, he just might defy the odds . . .

CrazyBusy Edward M. Hallowell, M.D.,2007-12-18 Are you too busy? Are you always running behind? Is your calendar loaded with more than you can possibly accomplish? Is it driving you crazy? You're not alone. CrazyBusy-the modern phenomenon of brain overload-is a national epidemic. Without intending it or understanding how it happened, we've plunged ourselves into a mad rush of activity, expecting our brains to keep track of more than they comfortably or effectively can. In fact, as Attention Deficit Disorder expert and bestselling author Edward M. Hallowell, M.D., argues in this groundbreaking new book, this brain overload has reached the point where our entire society is suffering from culturally induced ADD. CrazyBusy is not just a by-product of high-speed, globalized modern life-it has become its defining feature. BlackBerries, cell phones, and e-mail 24/7. Longer work days, escalating demands, and higher expectations at home. It all adds up to a state of constant frenzy that is sapping us of creativity, humanity, mental well-being, and the ability to focus on what truly matters. But as Dr. Hallowell argues, being crazybusy can also be an opportunity. Just as ADD can, if properly managed, become a source of ingenuity and inspiration, so the impulse to be busy can be turned to our advantage once we get in touch with our needs and take charge of how we really want to spend our time. Through quick exercises (perfect for busy people), focused advice on everything from lifestyle to time management, and examples chosen from his extensive clinical experience, Hallowell goes step-by-step through the process of unsnarling frantic lives. With CrazyBusy, we can teach ourselves to move from the F-state-frenzied, flailing, fearful, forgetful, furious-to the C-state-cool, calm, clear, consistent, curious, courteous. Dr. Hallowell has helped more than a million readers free themselves of the distractions and compulsions of ADD. Now in CrazyBusy, he offers the same sound, sane, and accessible guidance for anyone suffering from the harried pace of modern life. If you find yourself pulled into a million different directions, here at last is the opportunity to stop being busy, start being happy, and still get things

done.

Spaces Mapped and Monstrous Nick Jones, 2020-04-21 Digital 3D has become a core feature of the twenty-first-century visual landscape. Yet 3D cinema is a contradictory media form: producing spaces that are highly regimented and exhaustively detailed, it simultaneously relies upon distortions of vision and space that are inherently strange. *Spaces Mapped and Monstrous* explores the paradoxical nature of 3D cinema to offer a critical analysis of an inescapable part of contemporary culture. Considering 3D's distinctive visual qualities and its connections to wider digital systems, Nick Jones situates the production and exhibition of 3D cinema within a web of aesthetic, technological, and historical contexts. He examines 3D's relationship with computer interfaces, virtual reality, and digital networks as well as tracing its lineage to predigital models of visual organization. Jones emphasizes that 3D is not only a technology used in films but also a tool for producing, controlling, and distorting space within systems of surveillance, corporatization, and militarization. The book features detailed analysis of a wide range of films—including *Avatar* (2009), *Goodbye to Language* (2014), *Love* (2015), and *Clash of the Titans* (2010)—demonstrating that 3D is not merely an augmentation of 2D cinema but that it has its own unique properties. *Spaces Mapped and Monstrous* brings together media archaeology, digital theory, and textual analysis to provide a new account of the importance of 3D to visual culture today.

The Need for Speed Robert E. Litan, Hal J. Singer, 2013-01-28 The twenty-first-century telecommunications landscape is radically different from the one that prevailed as recently as the last decade of the twentieth century. Robert Litan and Hal Singer argue that given the speed of innovation in this sector, the Federal Communications Commission's outdated policies and rules are inhibiting investment in the telecom industry, specifically in fast broadband networks. This pithy handbook presents the kind of fundamental rethinking needed to bring communications policy in line with technological advances. Fast broadband has huge societal benefits, enabling all kinds of applications in telemedicine, entertainment, retailing, education, and energy that would have been unthinkable a few years ago. Those benefits would be even greater if the FCC adopted policies that encouraged more broadband providers, especially wireless providers, to make their services available in the roughly half of the country where consumers currently have no choice in wireline providers offering download speeds that satisfy the FCC's current standards. The authors' recommendations include allowing broadband providers to charge for premium delivery services; embracing a rule-of-reason approach to all matters involving vertical arrangements; stripping the FCC of its merger review authority because both the Federal Trade Commission and the Justice Department have the authority to stop anticompetitive mergers; eliminating the FCC's ability to condition spectrum purchases on the identity, business plans, or spectrum holdings of a bidder; and freeing telephone companies from outdated regulations that require them to maintain both a legacy copper network and a modem IP network. These changes and others advanced in this book would greatly enhance consumer welfare with respect to telecommunications services and the applications built around them.

Extreme Movie Stunts Don Rauf, 2019-12-15 Stunt performers in movies and television use their athletic ability to bring pulse-racing action to the screen. This book introduces readers to the thrilling world of stunt work, revealing how these daring acts are safely carried out for the screen. Readers learn about the technical aspects of the work, such as the equipment performers use, as well as their workout regimens to stay in shape for their physically demanding jobs. Readers also learn about the precautions taken to keep everyone safe on the set. This book will thrill anyone interested in what goes on behind the action scenes.

Ski Films Bryan Senn, 2022-05-02 Skiing in movies, like the sport itself, grew more prevalent beginning in the 1930s, when it was a pastime of the elite, with depictions reflecting changes in technique, fashion and social climate. World War II saw skiing featured in a dozen films dealing with that conflict. Fueled by postwar prosperity, the sport exploded in the 1950s--filmmakers followed suit, using scenes on snow-covered slopes for panoramic beauty and the thrill of the chase. Through the free-spirited 1960s and 1970s, the downhill lifestyle shushed into everything from spy thrillers to beach party romps. The extreme sports era of the 1980s and 1990s brought snowboarding to the big screen. This first ever critical history of skiing in film chronicles a century of alpine cinema, with production information and stories and quotes from directors, actors and stuntmen.

Proceedings of the 2023 3rd International Conference on Modern Educational Technology and Social Sciences (ICMETSS 2023)

Youbin Chen, Intakhab Alam Khan, Chaoqun Shen, Deepanjali Mishra, 2023-11-14 This is an open access book. 2023 3rd International Conference on Modern Educational Technology and Social Sciences (ICMETSS 2023) was held on August 25–27, 2023 in Kuala Lumpur, Malaysia. Modern educational technology refers to the theory and practice of using modern educational theory and modern information technology to achieve teaching optimization through the design, development, utilization, management and evaluation of teaching and learning processes and resources. Education and social science are the relationship between restriction and promotion. The relationship between education and social development, in short, because of the development of social productive forces, the progress of science and technology, and the content, methods and organizational forms of ancient education cannot meet the needs of the emerging bourgeoisie,. In the new form of social development, people's knowledge ability has increasingly become the decisive factor in the development of modern productive forces. Education has become an important investment sector in the development of intellectual resources. Education investment is the most beneficial investment,. It transforms the potential productivity of science and technology into real productivity. Finally, we must return to education and form lifelong education. ICMETSS 2023 will focus on the development of modern educational technology and social science, explore the relationship between them and promote their development.

Introducing Cultural Studies Brian Longhurst, Greg Smith, Gaynor Bagnall, Garry Crawford, Miles Ogborn, 2016-11-10 This updated, new edition of *Introducing Cultural Studies* provides a systematic and comprehensible introduction to the concepts, debates and latest research in the field. Reinforcing the interdisciplinary nature of Cultural Studies, the authors first guide the reader through cultural theory before branching out to examine different dimensions of culture in detail – including globalisation, the body, geography, fashion, and politics. Incorporating new scholarship and international examples, this new edition includes: New and improved 'Defining Concepts', 'Key Influences', 'Example', and 'Spotlight' features that probe deeper into the most significant ideas, theorists and examples, ensuring you obtain an in-depth understanding of the subject. A brand new companion website featuring a flashcard glossary, web links, discussion and essay questions to stimulate independent study. A new-look text design with over 60 pictures and tables draws all these elements together in an attractive, accessible design that makes navigating the book, and the subject, simple and logical. *Introducing Cultural Studies* will be core reading for Cultural Studies undergraduates and postgraduates, as well as an illuminating guide for those on Communication and Media Studies, English, Sociology, and Social Studies courses looking for a clear overview of the field.
