**Madness Network News Reader** Sherry Hirsch, 1974 First person account.

*News* Howard Tumber, 1999 *News: A Reader* sets out to provide students with an introduction to some of the key theoretical debates within the field of the sociology of news and journalism. It includes many of the accepted classics together with more recent pieces that address contemporary debates. The Reader brings out the diversity of work on the analysis of news and indicates the points at which arguments have led to new directions and paradigms. All the pieces in the book have been carefully edited. The essence of each work has been captured in extracts that maintain their integrity to readers unfamiliar with the evolution of this field of research.

**Reading the News** Robert Karl Manoff, Michael Schudson, 1986 We take our news for granted: that it will inform us about the significant people and cite the authoritative ones, reflect the world the way it is, and tell us why something happens as it does. Now, six working journalists, press critics, and scholars at the leading edge of media criticism have been specially commissioned to make the familiar act of reading the news into a fresh and revealing

event. Taking the famous five W's and an H (Who, What, When, Where, Why, and How), the authors turn these questions back on journalism for the first time to show us exactly what to make of the press. Leon V. Sigal Who? Sources Make the News Carlin Romano What? Grisly Truth about Bare Facts Michael Schudson When? Deadlines, Datelines, and History Where? Cartography, Community, and the Cold War James W. Carey Why And How? The Dark Continent of American Journalism Robert Karl Manoff Writing the News (By Telling the Story) For everyone who reads the newspaper, for the journalist, and for the media critic alike, these essays offer fresh, provocative insights into a centerpiece of American culture, the news.

**Glasgow Media Group Reader: News content, language and visuals** John Eric Thomas Eldridge, Greg Philo, 1995 First Published in 1995. Routledge is an imprint of Taylor & Francis, an informa company.

**Stop Reading the News** Rolf Dobelli,2021-01-07 News is to the mind what sugar is to the body. In 2013 Rolf Dobelli stood in front of a roomful of journalists and proclaimed that he did not read the news. It caused a riot. Now he finally sets down his philosophy in detail. And he practises what he preaches: he hasn't read the news for a decade. **Stop Reading the News** is Dobelli's manifesto about the dangers of the most toxic form of information - news. He shows the damage it does to our concentration and well-being, and how a misplaced sense of duty can misdirect our behaviour. From the author of the bestselling *The Art of Thinking Clearly*, Rolf Dobelli's book offers the reader guidance about how to live without news, and the many potential gains to be had: less disruption, more time, less anxiety, more insights. In a world of increasing disruption and division, **Stop Reading the News** is a welcome voice of calm and wisdom.

**Introduction to Information Systems** R. Kelly Rainer (Jr.), Casey G. Cegielski, Ingrid Spletstoesser-Hogeterp, Cristobal Sanchez-Rodriguez, 2013-08-30 The goal of *Introduction to Information Systems*, 3rd Canadian Edition remains the same: to teach all business majors, especially undergraduate ones, how to use information technology to master their current or future jobs and to help ensure the success of their organization. To accomplish this goal, this text helps students to become informed users; that is, persons knowledgeable about information systems and information technology. The focus is not on merely learning the concepts of IT but rather on applying those concepts to facilitate business processes. The authors concentrate on placing information systems in the context of business, so that students will more readily grasp the concepts presented in the text. The theme of this book is *What's In IT for Me?* This question is asked by all students who take this course. The book will show you that IT is the backbone of any business, whether a student is majoring in Accounting, Finance, Marketing, Human Resources, or Production/Operations Management. Information for the Management Information Systems (MIS) major is also included.
