The Sunday Paper Paul Moore,Sandra Gabriele,2022-08-30 Pullout sections, poster supplements, contests, puzzles, and the funny pages--the Sunday newspaper once delivered a parade of information, entertainment, and spectacle for just a few pennies each weekend. Paul Moore and Sandra Gabriele return to an era of experimentation in early twentieth-century news publishing to chart how the Sunday paper became an essential part of American leisure. Transcending the constraints of newsprint while facing competition from other media, Sunday editions borrowed forms from and eventually partnered with magazines, film, and radio, inviting people to not only read but watch and listen. This drive for mass circulation transformed metropolitan news reading into a national pastime, a change that encouraged newspapers to bundle Sunday supplements into a panorama of popular culture that offered something for everyone.

The Life of Kings Frederic B Hill,Stephens Broening,2023-06-14 In an age when local daily papers with formerly robust reporting are cutting sections and even closing their doors, the contributors to *The Life of Kings* celebrate the heyday of one such paper, the Baltimore Sun, when it set the agenda for Baltimore, was a force in Washington, and extended its reach around the globe. Contributors like David Simon, creator of HBO's *The Wire*, and renowned political cartoonist Kevin Kallaugher (better known as KAL), tell what it was like to work in what may have been the last golden age of American newspapers -- when journalism still seemed like "the life of kings" that H.L. Mencken so cheerfully remembered. The writers in this volume recall the standards that made the Sun and other fine independent newspapers a bulwark of civic life for so long. Their contributions affirm that the core principles they followed are no less imperative for the new forms of journalism: a strong sense of the public interest in whose name they were acting, a reverence for accuracy, and an obligation

Newspapers Richard A. Schwarzlose,1987-11-13 This is an extensive bibliographic essay on the history, practice, and impact of newspapers on American society. Organized into nine chapters, the book analyzes more than 1,700 books and journals for their value in newspaper research. Especially useful to librarians is the chapter that describes reference sources, including online services, covering newspapers published in the United States and available in most university libraries. Each chapter consists of a comparative review essay followed by a bibliography of the sources mentioned. Two appendices provide a selected chronology of newspapers and a guide to major newspaper research collections. ISBN 0-313-23613-5: \$55.00 (For use only in the library).

RUBURY:NOVELTY OF NEWSPAPERS P Matthew Rubery,2009-06-01 Rapid industrialization and new advances in technology marked the Victorian period as one of prodigious socio-cultural change. Chief among the many transformations of quotidian life was the swift and widespread dissemination of information made possible by the emergence of the daily newspaper, an unprecedented new media. The changes it wrought in politics, history, and advertising of the age have all been well-documented. But its influence on one area remains overlooked: the Victorian novel. Redressing this oversight, *The Novelty of Newspapers* highlights the variety of ways the changing world of nineteenth-century journalism shaped the period's most popular literary form. Arising in the 1800s and soon drawing a million readers a day, the commercial press profoundly influenced the work of Bronte, Braddon, Dickens, Conrad, James, Trollope, and others who mined print journalism for fictional techniques. Five of the most important of these narrative conventions--the shipping intelligence, personal advertisement, leading article, interview, and foreign correspondence--show how the Victorian novel is best understood alongside the simultaneous development of newspapers. In highly original analyses of Victorian fiction, this study also captures the surprising ways in which public media enabled the expression of private feeling among ordinary readers: from the trauma caused by a lover's reported suicide to the vicarious gratification felt during a celebrity interview; from the distress at finding one's behavior the subject of unflattering editorial commentary to the apprehension of distant cultures through the foreign correspondence. Combining a wealth of historical research with a series of astute close readings, *The Novelty of Newspapers* breaks down the assumed divide between the epoch's literature and journalism and demonstrates that newsprint was integral to the development of the novel.

Iron Editor Michael A. Raffaele,2002-08 Advocacy journalism is decimating newspapers. Since Watergate, newspapers have lost touch with the readers by turning into boring, preachy and lifeless publications. Today's editors want to win awards, not connect with readers. As newspaper executives are trying to save the world, they are killing an industry. And fewer readers are relying on newspapers as their primary source of information. Editors around the country are desperately scrambling for answers by turning to conferences, readership studies and surveys for help. But the drastic drop continues. In the *IRON EDITOR*, author Michael A. Raffaele provides a pull-no-punches analysis of the newspaper industry and offers vital steps needed to boost sales at the newsstands. Raffaele reveals his concept of an ideal editor, the Iron Editor. Time is running out for editors. The industry is in peril. Only an Iron Editor can save it.

Newspaper Blackout Austin Kleon,2014-03-18 Poet and cartoonist Austin Kleon has discovered a new way to read between the lines. Armed with a daily newspaper and a permanent marker, he constructs through deconstruction—eliminating the words he doesn't need to create a new art form: Newspaper Blackout poetry. Highly original, Kleon's verse ranges from provocative to lighthearted, and from moving to hysterically funny, and undoubtedly entertaining. The latest creations in a long history of found art, Newspaper Blackout will challenge you to find new meaning in the familiar and inspiration from the mundane. Newspaper Blackout contains original poems by Austin Kleon, as well as submissions from readers of Kleon's popular online blog and a handy appendix on how to create your own blackout poetry.

The Influence of Politics on the Development of Newspapers Between 1660 and 1855, at the Example of "The Times" Jana Groh,2008-05 Seminar paper from the year 2008 in the subject English Language and Literature Studies - Linguistics, grade: 1,0, University of Rostock (Institut für Anglistik/Amerikanistik), course: Mass Media Communication: Newspapers and Magazines, 27 entries in the bibliography, language: English, abstract: Nowadays, there is a wide range of different newspapers, and most people see them as an important part of their everyday life. But newspapers as we know them today have only come into existence

about three-hundred and fifty years ago. And although the liberty of the press at least in the countries of the European Union is today highly appraised, this has not always been the case. For a long time newspapers were a thorn in the flesh of governments, which thought that printed oppositional opinions threatened them. Therefore the governments tried to control newspapers tightly by enacting consequential laws. For years politics thus determined the development of newspapers. This term paper wants to deal with the influence of the English government on the development of newspapers between 1660 and 1855. This relates to London newspapers, if not stated otherwise. Also, the term newspaper is used for the printed product, the company or the owner, resp., and the journalists, if not stated otherwise. The term is also used for news printed before 1670, even though the term itself only occurred in the English language during that year. After explaining prerequisites that were necessary for the emergence of modern newspapers in the first place, I will shortly look at the formation of newspapers before 1660, before I have a close look at laws established by the English government between 1662 and 1843. Then, I am going to compare selected parameters concerning the development of newspapers in different centuries. In the practical part I will analyse eight issues of The Times. I therefore chose the first January issues of a year, published with a time lag of ten years in each case. In thi
