The Photo Ark Joel Sartore, 2017 This book of photography represents National Geographic's Photo Ark, a major cross-platform initiative and lifelong project by photographer Joel Sartore to make portraits of the world's animals -- especially those that are endangered. His message: to know these animals is to save them. Sartore intends to photograph every animal in captivity in the world. He is circling the globe, visiting zoos and wildlife rescue centers to create studio portraits of 12,000 species, with an emphasis on those facing extinction. He has photographed more than 6,000 already and now, thanks to a multi-year partnership with National Geographic, he may reach his goal. This book showcases his animal portraits: from tiny to mammoth, from the Florida grasshopper sparrow to the greater one-horned rhinoceros. Paired with the prose of veteran wildlife writer Douglas Chadwick, this book presents an argument for saving all the species of our planet.

National Geographic Dawn to Dark Photographs National Geographic, 2015 The latest entry in National Geographic's popular photo line gives readers a front-row seat to the wonders of landscape photography. Choosing from among the world's best portfolios, curators at National Geographic have arranged a symphony of photographs that tell the story of a single day, from dawn's first light to the closing moments of sunset, from daylight to dark. Short legends accompany every photograph to explain the picture, the scene it conveys, or how the photographer captured it, along with

quotations from literature that provide historical context. With the widest possible array of perspectives, close-ups, and details, these photos present a lifetime of vision, each page a new experience of time and light--

National Geographic Photo Basics Joel Sartore, Heather Perry, 2020 Boredom Busters: For digital camera and smartphone users, this fun, easy how-to guide teaches the essentials of taking great pictures from an experienced National Geographic photographer.

National Geographic Stunning Photographs Annie Griffiths, 2014 Capturing the moment in which a firecracker explodes into a burst of electric energy or the last rays of the sun as it stretches across a red-rock valley, certain special photos offer an unrivalled conduit to the world around us.
