Masora Elvira Martín Contreras, Guadalupe Seijas De Los Ríos-zarzosa, 2011-02-01 *Masora. La transmisión de la tradición de la Biblia Hebrea es la primera monografía en lengua española dedicada a la Masora. El libro nace ante la creciente demanda de incorporar la Masora al estudio de la Biblia. Esta obra proporciona los medios y la metodología necesarios para descifrar las noticias masoréticas de los principales manuscritos bíblicos de tradición tiberiense (Cairo, Alepo, Leningrado) y del M1 de la Universidad Complutense de Madrid, así como de tratados masoréticos independientes. Entre otras novedades, el libro ofrece la descripción pormenorizada de los materiales imprescindibles para trabajar una noticia masorética y su utilización, y presenta un protocolo en el que se fijan los pasos que deben seguirse para entender e interpretar la Masora. Todo ello aplicado a casos concretos y con propuestas de nuevas noticias para que el lector afronte en solitario su estudio.*

A invisibilidade do trabalho escravo doméstico e o afeto como fator de perpetuação Marcela Rage Pereira, 2022-01-07 A invisibilidade do trabalho escravo doméstico é o tema do presente livro, no qual se propõe analisar como o afeto presente na relação de serviço doméstico mantém invisíveis condições de exploração e perpetua a posição de subalternidade das mulheres que desempenham esse trabalho. Para tanto, o estudo, que é interseccional, está dividido em quatro partes. Na primeira, apresenta-se um giro na História do trabalho doméstico no Brasil Imperial. Na segunda, analisa-se o conceito do afeto e da subalternidade, mostrando a materialização do primeiro no espaço da casa. Na terceira, apresentam-se os binarismos de raça, gênero e classe nos indicadores do trabalho doméstico e discute-se como o afeto manifestado no quase da família subalterniza e impõe fronteiras no cotidiano de trabalhadoras domésticas. Na quarta, examina-se o fenômeno do trabalho escravo, analisando os poucos casos de trabalho escravo doméstico no Brasil, a fim de evidenciar o afeto como fator de silêncio e exclusão. A obra é fruto da minha dissertação de Mestrado apresentada à Faculdade de Direito da Universidade Federal de Minas Gerais (UFMG) em agosto de 2021 e traz instigantes reflexões sobre o papel do afeto na perpetuação do trabalho escravo doméstico.

One Nation Under Blackmail - Vol. 2 Whitney Alyse Webb, 2022-10-20 Exposes vastly under-explored topics compared to other media reports and books on Jeffrey Epstein. How did Jeffrey Epstein manage to evade justice for decades? Who enabled him and why? Why were legal officials told that Epstein "belonged to intelligence" and to back off during his first arrest in the mid-2000s? Volume 2 of One Nation Under Blackmail examines the rise of Jeffrey Epstein and his closest associates, such as Leslie Wexner and Ghislaine Maxwell, and contextualizes them within the organized crime-intelligence networks detailed in-depth in Volume 1. It subsequently details their ties, with a focus on Epstein, to intelligence networks, espionage activity and the subversion of American institutions as well as the role of Epstein and the Maxwell family in the evolution of blackmail in the digital era.

It analyzes cross-national patterns of same-sex relationship policies in Latin America and examines country-cases of recent policies for same sex-couples in the region.

Chinese Overseas Ports in Europe and the Americas Jean-Marc F. Blanchard, 2023-07-21 This book analyzes the progress, gains, and effects of Chinese overseas ports through in-depth and systematic studies of numerous cases in Europe and Latin America. China's participation in overseas ports, especially under the rubric of the Belt and Road Initiative, is a matter of great concern to businesspeople, policymakers, and researchers pondering the implications of Chinese infrastructure activities and overseas investment. Yet there is insufficient knowledge concerning the actual nature of China's role in specific ports, the economic and other consequences associated with that involvement, and the wider economic, political, and environmental effects of those economic effects. The chapters of this book fill these gaps by examining ports in diverse European countries like Denmark, Germany, Greece, the Netherlands, and the United Kingdom and various Latin American countries, including Brazil and Jamaica. The book illustrates why Chinese seaports succeed or fail, why they have the military, economic, and other consequences that they do, and why these consequences produce or fail to generate other effects such as political influence. This book will appeal to audiences with interests in China's overseas seaports, foreign direct investment (FDI), and infrastructure specifically and foreign direct investment, geopolitics, and the political economy of national security more generally.

Contesting Hydropower in the Brazilian Amazon Ed Atkins, 2020-11-15 In *Contesting Hydropower in the Brazilian Amazon*, Ed Atkins focuses on how local, national, and international civil society groups have resisted the Belo Monte and São Luiz do Tapajós hydroelectric projects in Brazil. In doing so, Atkins explores how contemporary opposition to hydropower projects demonstrate a form of 'contested sustainability' that highlights the need for sustainable energy transitions to take more into account than merely greenhouse gas emissions. The assertion that society must look to successfully transition away from fossil fuels and towards sustainable energy sources often appears assured in contemporary environmental governance. However, what is less certain is who decides which forms of energy are deemed 'sustainable.' *Contesting Hydropower in the Brazilian Amazon* explores one process in which the sustainability of a 'green' energy source is contested. It focuses on how civil society actors have both challenged and reconfigured dominant pro-dam assertions that present the hydropower schemes studied as renewable energy projects that contribute to sustainable development agendas. The volume also examines in detail how anti-dam actors act to render visible the political interests behind a project, whilst at the same time linking the resistance movement to wider questions of contemporary environmental politics. This interdisciplinary work will be of great interest to students and scholars of sustainable development, sustainable energy transitions, environmental justice, environmental governance, and development studies.

Afro-Paradise Christen A Smith, 2016-03-15 Tourists exult in Bahia, Brazil as a tropical paradise infused with the black population's one-of-a-kind vitality. But the alluring images of smiling black faces and dancing black bodies mask an ugly reality of anti-black authoritarian violence. Christen A. Smith argues that the dialectic of glorified representations of black bodies and subsequent state repression reinforces Brazil's racially hierarchical society. Interpreting the violence as both institutional and performative, Smith follows a grassroots movement and social protest theater troupe in their campaigns against racial violence. As Smith reveals, economies of black pain and suffering form the backdrop for the staged, scripted, and choreographed afro-paradise that dazzles visitors. The work of grassroots organizers exposes this relationship, exploding illusions and asking unwelcome questions about the impact of state violence performed against the still-marginalized mass of Afro-Brazilians.

Legal Violence and the Limits of the Law Amy Swiffen, Joshua Nichols, 2017-08-10 What is the meaning of punishment today?

Where is the limit that separates it from the cruel and unusual? In legal discourse, the distinction between punishment and vengeance—punishment being the measured use of legally sanctioned violence and vengeance being a use of violence that has no measure—is expressed by the idea of cruel and unusual punishment. This phrase was originally contained in the English Bill of Rights (1689). But it (and versions of it) has since found its way into numerous constitutions and declarations, including Article 5 of the Universal Declaration of Human Rights, as well as the Amendment to the US Constitution. Clearly, in order for the use of violence to be legitimate, it must be subject to limitation. The difficulty is that the determination of this limit should be objective, but it is not, and its application in punitive practice is constituted by a host of extra-legal factors and social and political structures. It is this essential contestability of the limit which distinguishes punishment from violence that this book addresses. And, including contributions from a range of internationally renowned scholars, it offers a plurality of original and important responses to the contemporary question of the relationship between punishment and the limits of law.

Naturaleza americana. Extractivismo y geopolítica del capital. Actuel Marx N° 19 María Emilia Tijoux, 2016-12-05 En su número 19, esta revista de análisis y reflexión crítica marxista se concentra en la actual crisis del capitalismo desde las herramientas que la especificidad americana proporciona, fundamentalmente su experiencia histórica como tierra que da lugar al lanzamiento del capitalismo de Occidente. Origen de ese patrón (imperial) de relacionamiento con el mundo, hoy, como hace cinco siglos, la naturaleza americana aparece -al decir de Alimonda- ante el pensamiento hegemónico global y ante las élites dominantes de la región, como un espacio subalterno que puede ser explotado, arrasado, reconfigurado, según las necesidades de los régimenes de acumulación vigentes.
