Leadership by Resentment Ruth Capriles, 2012-01-01 What do such disparate events as Occupy Wall Street, Iran's Islamic revolution and Venezuela's socialist revolution have in common? Often, resentment based on past grievances or shortcomings seems to emerge from the depths of individual and collective psyches over the course of such emotionally charged movements. This resentment, and the related philosophical concept of ressentiment, can have a profound impact on the course of history and on the role of leadership within societies. Expanding on the concept of ressentiment, this book addresses the importance of emotions in historical events. The author explores the conditions that foster the development of ressentiment, the role of leaders and followers, and the phases of the phenomenon as it encourages destructive behaviors such as murder and suicide. Often considered an incurable disease with destructive social and political repercussions, it is a core motive for acts of terrorism, revolutions, social upheavals and processes of toxic leadership. The author puts forth a model that helps to describe certain historical processes led by ressentiment, like some revolutions and terrorist acts, and to distinguish them from other movements that are usually treated as similar (e.g., independence revolutions). The book then tackles a seemingly impossible question: Can we find a cure for this powerful and destructive impulse? With care and deliberation, the author demonstrates the power of ethical leadership, recognition and redemption as positive unifying forces during human conflicts. A philosophical endeavor to understand events from the Boston Tea Party to Occupy Wall Street, from the French revolution to Hugo Chavez's revolution in Venezuela, this book will be fascinating reading for scholars and students of the social sciences and humanities and those with a particular interest in leadership.

Behind and Beyond the Chicago Convention Pablo Mendes De Leon, Niall Buissing, 2019-08-21 Behind and Beyond the Chicago Convention The Evolution of Aerial Sovereignty Edited by Pablo Mendes de Leon & Niall Buissing The Convention on International Civil Aviation which was concluded in Chicago on 7 December 1944, commonly referred to as the Chicago Convention, is one of the most ratified multilateral agreements currently in force, with 193 States parties. In this deeply informative book celebrating its 75th birthday, thirty-three of the most distinguished authors in aviation law offer perspectives on the quality of the Convention's achievements, which principally address the promotion of safety and security. Emphasising the Convention's flexibility in the accommodation of social and technological changes, the authors investigate such topics and issues as the following: environmental protection measures such as abatement of noise and reduction of the damaging effects of gaseous emissions; effect of new methods of communication such as Global Navigation Satellite Systems (GNSS); distinction between civil and State aircraft; economic regulation as established under air services agreements between States; cybersecurity measures; compensation for damages; liberalisation of air services; role of regional aviation organisations, in particular, that of the European Union; position of airlines, airports, and providers of air navigation services; and territorial jurisdiction with respect to areas lacking a universally accepted sovereign status. Annexes include the original texts of the Paris Convention 1919 and the Chicago Convention 1944. With its incisive perceptions put forward by distinguished aviation lawyers – including an exploration of the absolute character of sovereignty – this book is without peer in its analysis of how the Chicago Convention affects the regulation of international civil aviation and the operation of air services. Its multifaceted approach towards the current state of affairs from a legal and policy perspective will be welcomed by practitioners and law firms in the field and civil aviation authorities, as well as by academics and business persons with a stake in aviation.

The State of Open Data Tim Davies, B. Walker, 2019-05-22 It's been ten years since open data first broke onto the global stage. Over the past decade, thousands of programmes and projects around the world have worked to open data and use it to address a myriad of social and economic challenges. Meanwhile, issues related to data rights and privacy have moved to the centre of public and political discourse. As the open data movement enters a new phase in its evolution, shifting to target real-world problems and embed open data thinking into other existing or emerging communities of practice, big questions still remain. How will open data initiatives respond to new concerns about privacy, inclusion, and artificial intelligence? And what can we learn from the last decade in order to deliver impact where it is most needed? The State of Open Data brings together over 60 authors from around the world to address these questions and to take stock of the real progress made to date across sectors and around the world, uncovering the issues that will shape the future of open data in the years to come.

Seguridad Mediática la propaganda militarista en la Colombia contemporánea Claudia Solanille Gordillo Aldana, 2014-01-08 Con el gobierno de Álvaro Uribe Vélez, los colombianos fuimos testigos de un despliegue propagandístico que no ha tenido paralelo en nuestro país. Es innegable que uno de los pilares del poder político del ex presidente Uribe fue el manejo calculado de su imagen y de su discurso público. Sin embargo, hay muy pocos estudios críticos que den cuenta de la relación entre poder Político y propaganda en la Colombia contemporánea. Este trabajo de Claudia Gordillo tiene el innegable mérito de abrir este espacio de reflexión desde una perspectiva cimentada en la teoría crítica y los estudios culturales. Se destaca el análisis crítico que hace Gordillo de la estrategia propagandística de la Política de seguridad Democrática del Gobierno de Uribe, a través de la cual se buscó cambiar la imagen de las fuerzas armadas ante el público general.

Latin America and the Asian Giants Riordan Roett, Guadalupe Paz, 2016-09-27 How an evolving relationship with China and India is changing Latin America's political and economic dynamics. In the years since China has adopted

a going global strategy to promote its overseas investment, expand export markets, and gain much-needed access to natural resources abroad, Sino–Latin American relations have both deepened and broadened at an unexpectedly rapid pace. The main driver behind this sea change in bilateral relations has been economic complementarity, with resource-rich countries in Latin America exporting primary goods to the Asian giants' growing market and China exporting manufactured goods back into the region. In recent years, Sino–Latin American relations have matured considerably, becoming far more nuanced and multifaceted than ever before. India is a relatively new player in the region, but has slowly strengthened its ties. As one of Asia's largest markets, it offers interesting parallels to the Chinese case. Will Indo–Latin American ties follow a similar path? The main areas of growth include trade and investment, mining, energy, information technology, motor vehicle production, and pharmaceuticals. To what extent these changing dynamics will redefine Latin America's relations with India is a question of increasing relevance for policymakers. This volume offers a review of key cross-regional trends and critical policy issues involving the changing relationship between these two Asian giants and Latin America. Selected country case studies—Argentina, Brazil, Chile, and Mexico—provide a more in-depth analysis of the implications of China's and India's evolving interaction with the region.

Intersticios de la guerra Valencia Corredor, Mónica, 2017-03-31 Este libro se erige sobre los pliegues corporales de la guerra y de la muerte para ofrecer una mirada a la Seguridad Democrática como política subcutánea, que fija múltiples violencias en los cuerpos de los actores armados y que fueron narradas por los noticieros de televisión nacional RCN y Noticias Uno durante el gobierno de Álvaro Uribe Vélez. Este libro analiza un conjunto de relatos informativos que aluden a los cadáveres como elementos de poder político y simbólico en el complejo campo de las fuerzas que estructuran el conflicto armado interno, y desde ahí, se pregunta por los modos en que las corporalidades de los líderes guerrilleros se nombran, se exhiben o se ocultan.

The Tropical Silk Road Paul Amar, Lisa Rofel, Fernando Brancoli, Maria Amelia Viteri, Consuelo Fernandez, 2022-11-29 This book captures an epochal juncture of two of the world's most transformative processes: the People's Republic of China's rapidly expanding sphere of influence across the global south and the disintegration of the Amazonian, Cerrado, and Andean biomes. The intersection of these two processes took another step in April 2020, when Chinese President Xi Jinping launched a New Health Silk Road agenda of aid and investment that would wind through South America, extending the Eurasian-African Belt and Road Initiative to a series of mine, port, energy, infrastructure, and agrobusiness megaprojects in the Latin American tropics. Through thirty short essays, this volume brings together an impressive array of contributors, from economists, anthropologists, and political scientists to Black, feminist, and Indigenous community organizers, Chinese stakeholders, environmental activists, and local journalists to offer a pathbreaking analysis of China's presence in South America. As cracks in the progressive legacy of the Pink Tide and the failures of ecocidal right-wing populisms shape new political economies and geopolitical possibilities, this book provides a grassroots-based account of a post-US centered world order, and an accompanying map of the stakes for South America that highlights emerging voices and forms of resistance.

China Engages Latin America R. Evan Ellis, 2022-03-14 This book explores China's engagement with Latin America and the Caribbean as a case study of its broader effort to use commercial tools and instruments of state to create a global economic order that functions to its benefit, while neutralizing challenges from institutions, states, and others that would oppose it. Unlike the common representation of the Cold War as a political-military struggle, this work uniquely examines China's current efforts as primarily seeking to dominate global value chains, with supporting political, technological, and military components. In this regard, it both leverages and goes beyond works based on dependency theory, which has played a key role in the academic and popular discourse in the region. The book examines evidence for China's economically-focused strategy within Latin America and the Caribbean, including the interrelationships and coordination between China's activities in different sectors, and between commercial, political, and other dimensions in the region. It further looks at the supporting role played by a diverse range of Chinese initiatives, from China's Belt and Road initiative, to people-to-people diplomacy, soft power, security engagement, and the PRC struggle with Taiwan for diplomatic recognition in the region, among others. The book highlights the implications for Latin America and the Caribbean, and for the U.S. whose prosperity and security is intimately tied to the region.

Food systems in Latin America and the Caribbean Graziano da Silva, J., Jales, M., Rapallo, R., Díaz-Bonilla, E., Girardi, G., del Grossi, M., Luiselli, C., Sotomayor, O., Rodríguez, A., Rodrigues, M., Wander, P., Rodríguez, M., Zuluaga, J., Pérez, D., 2021-09-24 The book has been prepared by authors from different international organizations – including FAO, IFPRI, UNCTAD and ECLAC, as well as legislators and academics from prestigious Latin American universities – seeking to foster reflections for the Global Food Systems Summit, to be held in September 2021. It contextualizes the region's food systems within a post COVID-19 pandemic scenario and raises new challenges (and opportunities) for policy makers, decision makers, the private sector, and the general public. Likewise, it offers important reflections on sustainability, from production to consumption, with the call to promote better governance of the global and regional food system. In order to face what some authors have deemed “the Syndemic of the century”, the participation of companies, research centres, academia, NGOs, government agencies and international organizations will be necessary.

Nóstoi Alicia Atienza, Dora Battiston, Maria Ines Crespo, Nilda León, Elsa Rodríguez Cidre, Juan Diego Vila, Emiliano Buis, 2016-06-01 El título de este volumen se asocia con la memoria y apela al retorno de quien no ha olvidado su

origen, al regreso al punto de partida (la madre, la tierra) luego del viaje de la existencia. Pero Nóstoi implica también un volver constante a las bases de la cultura: alcanzar de nuevo la vida organizada, las relaciones de familia y la propia lengua después de la experiencia del extrañamiento y la otredad que nos ofrece la vida. Esta serie de trabajos traduce, con los límites que implican las palabras, la maravilla devolver a nuestra maestra, a nuestra amiga, con la experiencia de los propios recorridos y aprendizajes, para homenajearla y agradecerle. Implica evocar a Elena Huber en un viaje intelectual que no es más que un desplazamiento emotivo hacia los valores, eternos, que ella representó para todos.

Entre el barrio y el mundo Nicolás Albertoni, 2011-12-12 Cuando los socios regionales alternan entre la defensa del Mercosur y el proteccionismo de sus economías o incluso la desconfianza, examinar las opciones que tiene el país en este marco ya no es solo recomendable, sino necesario. En medio de un debate que vuelve a plantearse en la escena pública acerca de si el Mercosur es el camino más indicado para la inserción internacional de Uruguay, Entre el barrio y el mundo, del joven investigador Nicolás Albertoni Gómez, explora caminos diferentes. Con prólogos de los ex presidentes Julio María Sanguinetti, de Uruguay, y Eduardo Frei-Ruiz Tagle, de Chile, este libro se basa en una investigación de casi dos años que Albertoni realizó tanto en el país trasandino como en Uruguay, recogiendo la opinión de más de 50 expertos en el tema. ¿Es el Mercosur un trampolín o un palo en la rueda para Uruguay? ¿Se puede seguir un modelo de apertura económica con un arancel externo común dictado por las necesidades coyunturales de Argentina y Brasil? ¿No llegó la hora de buscar otras opciones? Una de ellas es el modelo chileno. Albertoni lo explora en profundidad y logra desentrañar así mitos e interrogantes de los procesos económicos de ambos países, y los cuenta con rigor y claridad. Este libro es un aporte clave a la hora de decidir qué camino queremos para nuestra inserción internacional.

Av. Independencia Rubí Carreño, 2013 Esta nueva aventura, aventón y avenida de escritura de Rubí Carreño ensaya variados movimientos de cuerpos y corpus: entreteje textos musicales, literarios y críticos, discursos académicos y callejeros, sujetos letrados-populares, redes familiares y transnacionales, manos (al teclado) con oídos e imaginación conceptual. En estas páginas, la autora escribe-escucha las voces quebradas y resistentes del Chile bajo dictadura, las hablas que resonaron en revistas culturales, las puntadas de letra-canto en Violeta Parra, los desgarros vocálicos en la narrativa de Diamela Eltit, los susurros y zozobros personajes de Alejandro Zambra, las canciones de subjetividades soñadoras hoy enfrentadas a las injusticias del capital neoliberal, las consignas cantos de las recientes movilizaciones estudiantiles, o los disruptivos afanes y ulkanton de Mapuches que se alzan contra “el viejo monólogo de la situación colonial” (Fanon). Con todas estas mezclas de voces, tonos y compases, de inesperadas intersecciones entre registros letrados, orales y sonoros, de chilenos, argentinos, mexicanos y sujetos indígenas, de nortes y sures, Rubí Carreño agencia un modo movedizo de reflexionar y escribir –como la sangre que pulsa en su propuesta biopoética. Se trata de lenguajes e ideas que no se fijan ni se dejan aprehender por la policía del claustro académico. Disidencia es, aquí, disonancia. Estamos, por ende, ante un escrito que desafía los “amarres” heredados; un escrito en constante y sonante movimiento, bailando-cantando-protestando-escribiendo; en suma, un escrito decididamente contra-represivo y contradisciplinario. Desde dicha plataforma, Av. Independencia: literatura, música e ideas de Chile disidente de Rubí Carreño da forma al corpus afectivo, sentimental, gozoso, estético, laboral y político que se encarna en su originalísima escritura-oyente. LUIS E. CÁRCAMO-HUECHANTE. University of Texas.
