Heavy Metal Islam Mark LeVine, 2022-09-13 This updated reissue of Mark LeVine's acclaimed, revolutionary book on sub- and countercultural music in the Middle East brings this groundbreaking portrait of the region's youth cultures to a new generation. Featuring a new preface by the author in conversation with the band The Kominas about the problematic connections between extreme music and Islam. An eighteen-year-old Moroccan who loves Black Sabbath. A twenty-two-year-old rapper from the Gaza Strip. A young Lebanese singer who quotes Bob Marley's "Redemption Song." Heavy metal, punk, hip-hop, and reggae are each the music of protest, and are considered immoral by many in the Muslim world. As the young people and subcultures featured in Mark LeVine's Heavy Metal Islam so presciently predicted, this music turned out to be the soundtrack of countercultures, uprisings, and even revolutions from Morocco to Pakistan. In Heavy Metal Islam, originally published in 2008, Mark LeVine explores the influence of Western music on the Middle East and North Africa through interviews with musicians and fans, introducing us to young people struggling to reconcile their religion with a passion for music and a thirst for change. The result is a revealing tour de force of contemporary cultures across the Muslim majority world through the region's evolving music scenes that only a musician, scholar, and activist with LeVine's unique breadth of experience could narrate. A New York Times Editor's Pick when it was first published, Heavy Metal Islam is a surprising, wildly entertaining foray into a historically authoritarian region where music reveals itself to be a true democratizing force—and a groundbreaking work of scholarship that pioneered new forms of research in the region.

A Woman Like Her Sanam Maher, 2020-01-28 A NEW YORK TIMES NOTABLE BOOK OF 2020 An exemplary work of investigative journalism. —Parul Sehgal, The New York Times The murder of a Pakistani social media star exposes a culture divided between accelerating modernity and imposed traditional values—and the tragedy of those caught in the middle. In 2016, Pakistan's first social media celebrity, Qandeel Baloch, was murdered in a suspected honor killing. Her death quickly became a media sensation. It was both devastatingly routine and breathtakingly brutal, and in a new media landscape, it couldn't be ignored. Qandeel had courted attention and outrage with a talent for self-promotion that earned her comparisons to Kim Kardashian—and made her the constant victim of harassment and death threats. Social media and reality television exist uneasily alongside honor killings and forced marriages in a rapidly, if unevenly, modernizing Pakistan, and Qandeel Baloch's story became emblematic of the cultural divide. In this definitive and up-to-date account, Sanam Maher reconstructs the story of Qandeel's life and explores the depth and range of her legacy from her impoverished hometown rankled by her infamy, to the aspiring fashion models who follow her footsteps, to the Internet activists resisting the same vicious online misogyny she faced. Maher depicts a society at a crossroads, where women serve as an easy scapegoat for its anxieties and dislocations, and teases apart the intrigue and myth-making of the Qandeel Baloch story to restore the humanity of the woman at its center.

Transnational Culture in the Internet Age Sean A. Pager, Adam Candeub, 2012-01-01 Digital technology has transformed global culture, connecting and empowering users on a hitherto unknown scale. Existing paradigms from intellectual property rights to cultural diversity and telecommunications regulation seem increasingly obsolete, confounding policymakers and provoking wide-ranging debate. Transnational Culture in the Internet Age draws on a range of disciplines to examine new approaches to regulating communications and cultural production. The insightful contributions shed new light on insufficiently examined issues and highlight connections that cut across the many different domains in which such regulations operate. Building upon the framework presented by David Post – one of the first and most prominent scholars of cyber law and a contributor to this volume – the authors address the implications and economics of the Internet's astronomical scale, jurisdiction and enforcement of the web as it relates to topics including libel tourism and threats to free speech, and the power of global communication to dissolve and recreate identities. Ideal for students and scholars of innovation, technology, cyber law and communication, Transnational Culture in the Internet Age will be a valuable addition to any library.

Pakistan's Stability Paradox Ashutosh Misra, Michael E. Clarke, 2013-03-01 Pakistan, with the second largest Muslim population in the world, is a crucial country in the international system. It is an ally of the United States in the global 'war on terror' but is also regarded as a major bastion of some of the most active jihadist organisations. This book highlights and explores the paradoxes that characterise contemporary Pakistan from the simultaneous democratization and Islamization of civil society to the schizophrenic US-Pakistan relationship. The central theme of the book looks at Pakistan's stability paradox. Commentators and analysts have over recent years often suggested that Pakistan was on the verge of state 'failure' or collapse resulting from a myriad of dilemmas. Yet, remarkably the Pakistani state has proven to be more resilient. This book identifies not only the factors that are contributing to Pakistan's perceived instability but also those factors that have contributed to the state's resilience. Chapters explore this central paradox through three core dimensions of Pakistan's contemporary dilemmas – the domestic, regional and international dimensions.

Countering Violent Extremism in Pakistan Anita M. Weiss, 2021-04-29 This book identifies and analyzes the impact of the various ways in which local people are responding, taking stands, recapturing their culture, and saying 'stop' to the violent extremism that has manifested over the past decade (even longer) in Pakistan. Local groups throughout Pakistan are engaging in various kinds of social negotiations and actions to lessen the violence that has plagued the country since the 1979 Soviet invasion of Afghanistan which let loose a barrage of violence that overflowed into its borders. In so many ways, Pakistanis are engaging in powerful actions that transform how people think about their own society, impeding extremists' rants while acting on 'envisioning alternative futures'. This book, hence, focuses on finding the sparks of hope that local people are creating to counter violent extremism based on close ethnographic study of ground realities about not only what people are doing but why they are selecting these kinds of actions, how they are creating alternative narratives about culture and identity, and their vision of a future without violence. This book is also designed to celebrate what is flourishing in cultural performances, music, social activism, and the like in Pakistan today because of people's commitment to take stands against extremism.

Songs Of Blood And Sword Fatima Bhutto, 2010 About the Book : In September 1996 a fourteen-year-old Fatima Bhutto hid in a windowless dressing room shielding her baby brother while shots rang out in the streets outside the family home in Karachi. This was the evening that her father, Murtaza, was murdered along with six of his associates. In December 2007 Benazir Bhutto, Fatima's aunt, and the woman she had publicly accused of ordering her father's murder, was assassinated in Rawalpindi. It was the latest in a long line of tragedies for one of the world's best known political dynasties. Songs of Blood and Sword tells the story of the Bhuttos, a family of

rich feudal landlords who became powerbrokers in the newly created state of Pakistan; the epic tale of four generations of a family and the political violence that would destroy them. It is the history of a family and nation riven by murder, corruption, conspiracy and division, written by one who has lived it, in the heart of the storm. The history of this extraordinary family mirrors the tumultuous events of Pakistan itself, and the quest to find the truth behind her father's murder has led Fatima to the heart of her country's volatile political establishment. Finally Songs of Blood and Sword is about a daughter's love for her father and her search to uncover, and to understand, the truth of his life and death. About the Author : - Fatima Bhutto was born in Afghanistan in 1982. She studied at Columbia University and the School of Oriental and African Studies at the University of London. She currently writes columns for The Daily Beast, New Statesman and other publications. She lives in Karachi, Pakistan.

Playing with Fire Pamela Constable,2011-07-19 A volatile nation at the heart of major cultural, political, and religious conflicts in the world today, Pakistan commands our attention. Yet more than six decades after the country's founding as a Muslim democracy, it continues to struggle over its basic identity, alliances, and direction. In *Playing with Fire*, acclaimed journalist Pamela Constable peels back layers of contradiction and confusion to reveal the true face of modern Pakistan. In this richly reported and movingly written chronicle, Constable takes us on a panoramic tour of contemporary Pakistan, exploring the fears and frustrations, dreams and beliefs, that animate the lives of ordinary citizens in this nuclear-armed nation of 170 million. From the opulent, insular salons of the elite to the brick quarries where soot-covered workers sell their kidneys to get out of debt, this is a haunting portrait of a society riven by inequality and corruption, and increasingly divided by competing versions of Islam. Beneath the façade of democracy in Pakistan, Constable reveals the formidable hold of its business, bureaucratic, and military elites—including the country's powerful spy agency, the ISI. This is a society where the majority of the population feels powerless, and radical Islamist groups stoke popular resentment to recruit shock troops for global jihad. Writing with an uncommon ear for the nuances of this conflicted culture, Constable explores the extent to which faith permeates every level of Pakistani society—and the ambivalence many Muslims feel about the role it should play in the life of the nation. Both an empathic and alarming look inside one of the world's most violent and vexing countries, *Playing with Fire* is essential reading for anyone wishing to understand modern Pakistan and its momentous role on today's global stage.

The Ten-Year Century James B. Sutherland,2010-10-14 Remember worrying about the Y2K bug in 1999? Or life before Twitter? Ten years ago, September 11 was just another day, Facebook didn't exist, and Barack Obama was a little-known state senator. Some have called the jam-packed first decade of the new millennium the ten-year century for all of the history-making, life-changing developments it's contained. Now, James Sutherland explores these influential years for the audience that's grown up in it, putting history in context and explaining how the world is smaller, faster, and more connected than it's ever been—and why it matters.

Pop Culture India! Asha Kasbekar Ph.D.,2006-01-24 The over-the-top musicals of Bollywood may be the most familiar aspect of Indian popular culture, but there are many more, all explored in this fascinating volume. *Pop Culture India! Media, Arts, and Lifestyle* follows the rise of modern India's pop culture world, especially since the 1980s, when relaxed censorship and economic liberalization led to an explosion in movies, music, mass media, consumerism, spiritual practices, and more. It is a captivating introduction to a diverse nation whose appetite for entertainment has led to some surprising twists and turns in recent history. How did a popular Indian television series spark a change in government and the rise of Hindu nationalism? Are some Bollywood film companies laundering money for organized crime, or even al Qaeda? What accounts for the overwhelming popularity of that quaint vestige of colonialism, cricket? The answers, and many more intriguing insights, await the reader in *Pop Culture India!*

A Divided Life Mohammed Khan,2013-09-30 This account of my autobiography and cultural memoirs with history/is utterly unique. It progresses through my early life. Narrative includes many irresistible and glistening stories to arouse one's feeling. My mother died when I was two and I was taken away from my modern town of Montgomery to a primitive village in East Punjab. More importantly for me was the partition of India and eviction of my family from the motherland of which I was a part of. I had worked as a lecturer in Geography for four years and retired from the Royal Mail after thirty two years.

The Year of the Balls 2008: A Disrespective Jarrod Kimber,2009-05-15 If Wisden is cricket's bible, then *Cricket With Balls* is its Satanic Verses. This is not a cricket book for the tea and crumpet set. You need to be a perverted sort of cricket fan to enjoy this. You'll find yourself immersed in the players' boudoir activities, cry at the Bryce McGain saga and will be asked to join Sehwaology. There are heroes, villains and tales of South African redemption that will make you question the very core of your being. The book has more cricket opinion than an orgy with Peter Roebuck, Navjot Sidhu, Arjuna Ranatunga and Geoffrey Boycott. Abducted directly from the blog cricketwithballs.com, this is the ultimate disrespectful of the 2008 cricket year.
