**The 5th of July** R.K. Lindsey Jr.,2014-02-13 Robert K. Lindsey is a keiki o ka 'āina, a child of the land, born in Hilo on the biggest Hawaiian island, and raised in Waimea at the foothills of the Kohala mountains. Waimea was a quiet and quaint paniolo (cattle) town when he was growing up there, and Parker Ranch was the foundation of the community. And though the place has changed across time, its beauty still abounds. Lindsey says he “suffers from island fever, and I’m glad I do. Mark Twain described Hawai’i as ‘the loveliest fleet of islands that lies anchored in any ocean.’ Twain is one reason I’ve never ventured far from home. He convinced me early on that all I need is right here. I’m stuck to this rock called Hawai’i forever.” In his work life, Lindsey has strived to serve the interests of his lāhui (people) to the best of his abilities, first as a social worker with the Family Court of the Third Circuit, then as a park ranger with the National Park Service at Pu’ukoholā Heiau National Historic Site. He also served as the land assets director—Hawai’i Island with Kamehameha Schools (1994–2004)—and is currently a trustee with the Office of Hawaiian Affairs (2005–2013). He is also a Hawaiian Home Lands lessee (1986–2085). Lindsey believes that “as Hawaiian Americans living in a globalized world, for the sake of Mother Earth and our children, the pono (right) thing for us to do is to let bygones be bygones and to forgive but not forget the sins of yesteryears that were committed against us. We must live joyously in the moment and look with hope and optimism to the future . . . It’s said ‘the one constant in life is change.’ One of the lesser fictionalized characters in *The 5th of July* is Abigail Hathaway McMoore. Her takeaway lesson for us is this: for the sake of our children and the children of the world, we should not be bitter toward change but embrace it, be its advocate, not its victim; its champion, not tormentor; its friend, not adversary. As a contemporary Hawaiian, I subscribe to that philosophy.” *The 5th of July* is Lindsey’s second book. His first title, *Latitude 20.04°N Longitude 155.71°W* was published in 2013.

**The 1980s: A Decade of Contemporary British Fiction** Philip Tew,Emily Horton,Leigh Wilson,2014-02-27 How did social, cultural and political events in Britain during the 1980s shape contemporary British fiction? Setting the fiction squarely within the context of Conservative politics and questions about culture and national identity, this volume reveals how the decade associated with Thatcherism frames the work of Kazuo Ishiguro, Martin Amis, and Graham Swift, of Scottish novelists and new diasporic writers. How and why 1980s fiction is a response to particular psychological, social and economic pressures is explored in detail. Drawing on the rise of individualism and the birth of neo-liberalism, contributors reflect on the tense relations between 1980s politics and realism, and between elegy and satire. Noting the creation of a 'heritage industry' during the decade, the rise of the historical novel is also considered against broader cultural changes. Viewed from the perspective of more recent theorisations of crisis following both 9/11 and the 21st-century financial crash, this study makes sense of why and how writers of the 1980s constructed fictions in response to this decade's own set of fundamental crises.

*The Sister Season* Jennifer Scott,2013-11-05 Sometimes coming home for the holidays isn't as easy as it seems.... It's December 21, and the Yancey sisters have been called home. When the girls were young, holidays at their family farm meant a tinsel-garnished tree, the scent of simmering food, and laughter ringing through the house. But as the years unfolded, family bonds fractured, and the three sisters scattered and settled into separate lives. Until now. The Yancey sisters are coming to spend the holidays with their mother. They're also coming to bury their father. Claire, the youngest, a free spirit who journeyed to California, returns first. Then comes Julia, the eldest, a college professor with a teenage son of her own. And finally there's Maya, the middle child, who works so hard to be the perfect mother and wife. During the sisters' week together, old conflicts surface, new secrets emerge, and the limits and definitions of family are tested. And as the longest night of the year slips by and brightening days beckon, the sisters will have to answer one question: When you're a sister, aren't you a sister forever? A Ride In The Neon Sun Josie Dew,2012-08-02 It's not easy landing unprepared in a country like Japan. The eccentricities of the calendar, the indecipherable postal system, not to mention the alien alphabet, language and culture, have all to be confronted before the disorientated traveller can feel at ease. Trying to ride a bicycle through the streets of one of the most congested cities in the world would seem to compound your problems. For Josie Dew, however, with over 200,000 miles already clocked up in the saddle few things could be more challenging - or for the reader of A RIDE IN THE NEON SUN, more wonderfully entertaining. From Kawasaki to Kagoshima, Odawara to Okinawa, Josie discovered a nation rich in dazzling contrasts. The

neon and concrete were there in greater abundance than even she had imagined, but so too were bottomless baths, love burgers, long-tailed cocks, musical toilet rolls, oriental Elvies, cardboard police and a sense of fun belying the population's rigorous work ethic. Far from being the reserved race that she had heard about, the Japanese welcomed her into their homes with bountiful smiles and bows - and skin-scorching baths.

Walking To Know Germán T. Cruz, 2012-05-14 This book represents a transformational experience presented in the form of a broad meditation upon a walking pilgrimage by an experienced designer on the Camino de Santiago. Tinted with a scholarly lens and a travelogue commentary on places and events during the journey, the work pursues a wider awareness of design purpose and perception based on immediate and past experience. The use of the word "pilgrimage" denotes the nature of the journey beyond mere physical effort and near an extraordinary spiritual and mental enterprise. The emphasis is on walking either physically or figuratively as a means to the achievement of design knowledge that more fully informs, awakens, and utilizes the body and the senses to produce a superior design articulation. The journey took ten years in preparation with only three months in execution; however, it was not a search for "enlightenment" as much as it was led by a sincere desire to know and to see. To know first hand the places and the people as well as to see the land up close in a manner of receiving a legacy of centuries of presence, culture, and testimony. Truly, to partake of the experience of thousands of other "pilgrims" across 10 centuries and understand their journeys not so much as just a walk of faith but

also an enduring legacy that has had critical impact upon design practice. In this manner the design activity is seen more properly understood as a pilgrimage rather than an occupation or a classified profession.. For organizational purposes the book consists of two major sections that complement one another and serve to clarify and amplify both text and testimony. Section One addresses issues of design interest in a holistic rather than a technical manner while Section Two presents a narrative of the experience that serves to place the journey in focus. The symbiotic engagement between the two sections results in a richer narrative of causality that affirms purpose and consequence of journey. Many conclusions are left to the reader and no strict delimitation is made of discussion boundaries except for the centrality of truth and the guiding power of passion. Without a doubt, this book is about open and truthful personal quests and does not conform to overriding socio-political frameworks of dialogue. Insight is extracted from the author's experience and scholarship across 40 plus years that results in an animated and challenging dialogue along with a vast and diverse bibliography with works of varied provenance that served to emphasize and support salient and outstanding concepts and ideas with bearing on the quest. The intention was not to produce a treatise or a guidebook but rather to express an experience and its consequences upon a person, a mind, and a spirit with benefit to design.
