Places To Be, People To Kill Martin H. Greenberg,Brittiany A. Koren,2007-06-05 Assassins--are they born or made? Do they choose this role out of necessity, because they are forced to, or because they enjoy killing? And what do they do in their spare time? These are just a few of the questions answered in this all-original collection of twelve tales by fantasy's finest-focusing on killers of all kinds. From Vree, Tanya Huff's well-known assassin from her Quarters novels, to a woman whose father's vengeful spirit forced her down dark magic's bloody path, to an assassin seeking to escape his Master's death spell, here are spellbinding stories of murder and mayhem, and the shadowy figures who sell death for a living.

**The Oxford Guide to People & Places of the Bible** Bruce Manning Metzger,Michael David Coogan,2004 This guide to people and places of the Bible covers both the New and Old Testament. It will be of interest to anyone needing an A-Z reference work on the people and places mentioned in the Bible, from prophets and apostles, to kingdoms and monuments.

**Really Cool People & Places (TIME For Kids Book of WHY)** The Editors of TIME For Kids,2014-05-06 TIME for Kids The BIG Book of Why: People and Places answers the why, what, when, where, who and how questions about people and places in history that kids commonly ask, but adults can rarely answer. Why did the Maya build pyramids? Did Vikings really have horns on their helmets? Why did Christopher Columbus sail to America? Why did the Titanic sink? Why is the London Bridge in Arizona? Written in an upbeat manner, each answer is accompanied by either a photo or an illustration to show the reasons why. Of course, TIME For Kids goes beyond answering the question, and dips into the science or history to further explain the answer in an easy-to-follow, straightforward manner. TIME for Kids The BIG Book of Why: People and Places is a must-have book to satisfy the most curious of kids.

**Beyond Mobility** Robert Cervero,Erick Guerra,Stefan Al,2017-12-05 Beyond Mobility also seeks to rethink how projects are planned and designed in cities and suburbs at multiple geographic scales, from micro-designs such as parklets to corridors and city-regions. The book closes with a reflection on the opportunities and challenges in moving beyond mobility, with attention to emerging technologies such as self-driving cars and ride-hailing services and social equity topics such as accessibility, livability, and affordability.

**People and Places of Nature and Culture** Rod Giblett,2014-05-27 Using the rich and vital Australian Aboriginal understanding of country as a model, *People and Places of Nature and Culture* affirms the importance of a sustainable relationship between nature and culture. While current thought includes the mistaken notion—perpetuated by natural history, ecology, and political

economy—that humans have a mastery over the Earth, this book demonstrates the problems inherent in this view. In the current age of climate change, this is an important appraisal of the relationship between nature and culture, and a projection of what needs to change if we want to achieve environmental stability.

*People Changing Places* Isabelle Côté, Matthew I. Mitchell, Monica Duffy Toft, 2018-07-04 While migration and population settlement have always been an important feature of political life throughout the world, the dramatic changes in the pace, direction, and complexity of contemporary migration flows are undoubtedly unique. Despite the economic benefits often associated with global, regional, and internal migration, the arrival of large numbers of migrants can exacerbate tensions and give rise to violent clashes between local populations and recent arrivals. This volume takes stock of these trends by canvassing the globe to generate new conceptual, empirical, and theoretical contributions. The analyses ultimately reveal the critical role of the state as both an actor and arena in the migration-conflict nexus.

*Tourists and Tourism* Simone Abram, Don Macleod, Jackie D. Waldren, 2021-04-26 The fact that tourism is a major global industry forecast to continue its dramatic growth well into the twenty-first century is often cited as a rationale for its analysis. However, while the connection between individual locations and the world's global markets is an obvious product of tourism, the heart of the tourist experience is the construction of identity: the relation of the traveller to resident populations; the participants' views of themselves and others; tourists' search for authenticity and their testing of boundaries. This book significantly furthers current debates on tourism by asking important and vexing questions about the nature of the tourist experience: 'folk museums' that forget many of the 'folk' who live in the areas represented; the environments and events that are shaped to meet the 'imagined dreams' of tourist spectators; the categorization of visitors and returnees who take up residence and participate in the construction of 'local' identities; the evolving meanings associated with indigenous culture, tradition, heritage, representation, reality and authenticity. In renegotiating the definitions of tourism for the new millennium, this book represents a major contribution to an emerging and highly topical area of study.

*Urban People and Places* Daniel Joseph Monti, Michael Ian Borer, Lyn C. Macgregor, 2014-02-10 Daniel Monti, Michael Ian Borer, and Lyn C. Macgregor provide a thorough and comprehensive survey of the contemporary urban world that is accessible to students with *Urban People and Places: The Sociology of Cities, Suburbs, and Towns*. This new title will give balanced treatment to both the process by which cities are built (i.e., urbanization) and the ways of life practiced by people that live and work in more urban places (i.e., urbanism) unlike most core texts in this area. Whereas most texts focus on the socio-economic causes of urbanization, this text analyses the cultural component: how the physical construction of places is, in part, a product of cultural beliefs, ideas, and practices and also how the culture of those who live, work, and play in various places is shaped, structured, and controlled by the built environment. Inasmuch as the primary focus will be on the United States, global discussion is composed with an eye toward showing how U.S. cities, suburbs, and towns are different and alike from their counterparts in Africa, Asia, and Central and South America.

*45 People, Places, and Events in Black History You Should Know* Daniel J. Middleton, 2021-12-01 Did you know that a black man founded Chicago, Illinois? Did you know that the iconic television program *Sesame Street* grew out of the Civil Rights movement? This collection of unsung trailblazers unearths these and other little-known facts from the past. Packed with insightful encyclopedic entries,

45 People, Places, and Events in Black History You Should Know is the perfect primer for the Black History dabbler or enthusiast. In this book, you will discover: 15 individual men 15 individual women, and 15 important people, places, or events A large portion of these subjects received scant recognition from media outlets. But their names and stories are worth remembering because they figure prominently in the large historic landscape that forms the world narrative. Among the many subjects covered in this book are Bridget Biddy Mason, a black female and former slave. Toward the end of the nineteenth century, she was the wealthiest resident of Los Angeles, California. You'll learn about Covert, Michigan, the U.S. township that defied the racist norms of the post-Civil War era by refusing to segregate. And you'll read about C.R. Patterson and Sons, the first and only major car manufacturer owned and operated by black Americans. Prepare to be informed!

**People Places** Clare Cooper Marcus,Carolyn Francis,1997-09-03 people places Second Edition Design Guidelines for Urban Open Space edited by Clare Cooper Marcus and Carolyn Francis A resurgence in the use of public space continues throughout North America and many other parts of the world. Neighborhoods have become more outspoken in their demands for appropriate park designs; corporations have witnessed the value of providing outdoor spaces for employee lunch-hour use; the rising demand for child care has prompted increased awareness of the importance of developmentally appropriate play and learning environments; and increased attention is being focused on the specific outdoor space needs for the elderly, college students, and hospital patients and staff. Now available in an updated, expanded second edition, People Places is a fully illustrated, award-winning book that offers research-based guidelines and recommendations for creating more usable and enjoyable public open spaces of all kinds. People Places analyzes and summarizes existing research on how urban open spaces are actually used, offering design professionals and students alike an easily understood, easily applied guide to creating people-friendly places. Seven types of urban open space are discussed: urban plazas, neighborhood parks, miniparks and vest-pocket parks, campus outdoor spaces, outdoor spaces in housing for the elderly, child-care outdoor spaces, and hospital outdoor spaces. People Places contains a chapter-by-chapter review of the literature, illustrative case studies, and design guidelines specific to each type of space. People Places has a number of features that can be easily incorporated into the design process: \* Clear, readable translations of existing research on people's use of outdoor spaces. \* Performance-based design recommendations that specify key relationships between design and use. \* Design review checklists that help readers plan and critique designs. \* A clearly organized, concise format equally useful to the design practitioner and the design student. The newly revised edition of People Places also includes: \* Discussion of accessibility issues, including ADA regulations and the concept of universal design; and of design responses aimed at crime reduction. \* Procedures for conducting post-occupancy evaluations of designed outdoor spaces. \* Updated and new information on each type of outdoor space, with special attention to hospitals, child care facilities, and campus outdoor spaces where specific advances have occurred since 1990. \* A completely new color-photo section and 50 new black and white illustrations. Winner of the Merit Award in Communication from the American Society of Landscape Architects, People Places is an essential working tool for landscape architects and architects, city planners, urban designers, neighborhood groups, and anyone else concerned with the quality of urban open space.

Many of his most important landscapes and portraits were created in and around his Chadds Ford studio, now part of the Brandywine River Museum of Art, with which Andrew Wyeth was intimately connected since its founding in 1971. A short introduction provides an overview of his life, and descriptive captions

Readers will also be treated to works previously unseen, such as Betsy's Beach (2006) and Crow Tree (2007).

*Brooklyn* Grace Glueck, Paul Gardner, 1991 More than 2.8 million people currently call Brooklyn home, and over the past few decades, the boom of art galleries, stores, and nightlife in this proud borough of New York has drawn visitors from near and far. Yet the fascinating mix of people, places, and institutions that define Brooklyn today existed long before the current cultural renaissance. In this profusely illustrated book, writers Grace Glueck and Paul Gardner provide a historic tour of the borough, from the Brooklyn Bridge and the Verrazano Narrows Bridge to Prospect Park and Coney Island.
