Camp Nameless Rain Siyakim Chetdav,2020-08-30 Once in a millennium emerges an all-encompassing assisted reality and science fiction novel that exemplifies literary greatness and unique

storytelling dexterity. Camp Nameless main character, Leigh-Ellen Srey, a fearless protagonist who welcomes challenges from all aspects of life from flying USAF F-22 Raptor in Iraq to training in artistic gymnastics for the 2024 Paris Olympics in her preteen years. Camp Nameless derives its sequences of events from Leigh- Ellen's point of view which derives from her dream sequences, and dream sequences within dream sequences; readers will engulf in events such as post nuclear apocalyptic Korea, multiple virtual reality environments, US West Point Military Academy's outpost summer camp, and military covert operations with multinationals elite troopers. Camp Nameless is an enmeshed-up genres...but the one thing remains constant is Leigh-Ellen Srey's zany, witty persona: she speaks her mind and outwardly exhibits her personal belief in sense of judicatory for all.

New Directions in Social Theory, Education and Embodiment

John Evans,Brian Davies,2014-10-29 This book exemplifies the nurturing spirit of inter-discursive debate with a view to opening up new theoretical and empirical insights, understanding, and engagement, with debates on issues relating to pedagogy, policy, equity and embodiment. From a variety of social science perspectives, an international force of contributors apply a

multitude of concepts to research agendas which illustrate the multiple ways in which ‘the body’ both impacts culture and is simultaneously and seamlessly positioned and shaped by it, maintaining social reproduction of class and cultural hierarchies and social regulation and control. They attest that once we begin to trace the flow of knowledge and discourses across continents, countries, regions and communities by registering their re-contextualisation, both within various popular pedagogies (e.g., newspapers, film, TV, web pages, IT) and the formal and informal practices of schools, families and peers, we are compelled to appreciate the bewildering complexity of subjectivity and the ways in which it is embodied. Indeed, the chapters suggest that no matter how hegemonic or ubiquitous discursive practices may be, they inevitably tend to generate both intended and unexpected ‘affects’ and ‘effects’: people and populations cannot easily be ‘determined’, suppressed or controlled. This book was originally published as a special issue of *Sport, Education and Society*.

The People's Tycoon Steven Watts, 2009-03-04 How a Michigan farm boy became the richest man in America is a classic, almost mythic tale, but never before has Henry Ford's outsized genius been brought to life so vividly as it is in this engaging and superbly researched biography. The real Henry Ford was a tangle of contradictions. He set off the consumer revolution by producing a car affordable to the masses, all the while lamenting the moral toll exacted by consumerism. He believed in giving his workers a living wage, though he was entirely opposed to union labor. He had a warm and loving relationship with his wife, but sired a son with another woman. A rabid anti-Semite, he nonetheless embraced African American workers in the era of Jim Crow. Uncovering the man behind the myth, situating his achievements and their attendant controversies firmly within the context of early twentieth-century America, Watts has given us a comprehensive, illuminating, and fascinating biography of one of America's first mass-culture celebrities.

The Art of Roughhousing Anthony T. DeBenedet, M.D., Lawrence J. Cohen, Ph.D., 2011-05-17 Everywhere you look, physical play—what some might call “roughhousing”—is being marginalized. Gym classes are getting shorter. Recess periods are being eliminated. Some new schools don’t even have playgrounds. Is it any wonder children retreat to “virtual horseplay” via video games? But Drs. Anthony T. DeBenedet and Lawrence J. Cohen are here to shake things up—literally! With *The Art of Roughhousing*, they show how rough-and-tumble play can nurture close connections, solve behavior problems, boost confidence, and more. Drawing inspiration from gymnastics, martial arts, ballet, traditional sports, and even animal behavior, the authors present dozens of illustrated activities for children and parents to enjoy together—everything from the “Sumo Dead Lift” to the “Rogue Dumbo.” These delightful games are fun, free, and contain many surprising health benefits for parents. So put down those electronic

games and get ready to rumble!

The Saturday Evening Post, 1922

Nightclub George Rigakos, 2008 In the last thirty years bouncers have emerged as iconic gatekeepers of contemporary cool, exclusivity, and social capital in urban centres around the world. In this groundbreaking empirical study, Rigakos critiques the supposed liberating and expressive potential of nightclubs by theorizing them within the linked themes of risk, consumption and security in late capitalism. People attend nightclubs to be seen and see others, to consume others as aesthetic objects of desire and to elicit desire in others – the desire to be desired. This 'synoptic frenzy', according to Rigakos, fuses surveillance and aesthetic consumption. It fetishizes bodies and amplifies social capitals, producing optic violence and crises of respect fuelled by alcohol. At closing time, populations flow out of the haze of the nightclub and onto city streets, from private spectacle to public nuisance. Mirroring the general late capitalist compulsion to binge and purge, the nightclub's spectacle of consumption produces a litany of unfulfilled courtiers of the night, staggering out of one spectacle and immediately into another. In this sense, bouncers are not only prime policing agents in the nighttime economy but are producers

of an urban risk market – a site of circumscribed transgression and consumption that begins at the door.

Rites of Power Sean Wilentz, 1999-03-23 **Rites of Power** provides a sweeping overview of the symbolism of power from tenth-century France to modern Britain. Approaching their topic from an eclectic range of intellectual traditions, the authors turn the study of politics, social relations, and cultural creation into a single endeavor. The essays begin with three assumptions: that all societies are ordered and governed by master fictions (divine right, equality for all) which make political hierarchy appear natural; that political rhetoric includes nonverbal communication (royal portraits, statistics on crop yields); and that common rhetoric can mean different things to various segments of a culture (states' rights during the American Civil War). Societies studied include France and Spain in the Middle Ages, post-Revolutionary France, the modern British monarchy, tsarist Russia, colonial Virginia, and industrial Germany. The essays were selected to provide methodological as well as historical coverage; the result is a comprehensive treatment along the cutting edge of several disciplines. This book will appeal to scholars and students in the fields of history, political science, sociology, anthropology, and art

history.

Miss Hargreaves Frank Baker,2009-12-22 When Norman Huntley and his friend, Henry, invent an 83-year-old woman called Mrs. Hargreaves, they are inspired to write to their fictional friend, but their silly game turns out not to be such when she arrives on their doorstep in Buckinghamshire, exactly as they imagined her.

Bad to the Bone Michael Prescott,2015-11-03 Small-town private eye and part-time assassin Bonnie Parker is back, in another high-voltage adventure set on the Jersey Shore. Bonnie thought she'd put her troubles behind her when she killed mob boss Frank Lazzaro and got away clean. But nothing's that easy. Russian mafia kingpin Anton Streinikov has taken a personal interest in the killing—and in Bonnie herself. He wants her delivered to his greenhouse, where very bad things happen. It doesn't help that Bonnie's latest client has set the cops on her tail, giving the local chief of police his best chance to put her behind bars. All in all, she's had better weekends. As night falls, she finds herself hunted by bad guys and cops, outmaneuvered, outgunned, and in the fight of her life. Luckily, only the good die young—and Bonnie is bad to the bone. Bad to the Bone is the latest thriller from New York Times and USA Today bestseller Michael Prescott, author of

Cold Around the Heart, Blood in the Water, and Final Sins. With over three million copies sold in both print and digital editions, Prescott is one of today's leading writers of crime fiction and psychological suspense.
