The Most Perfect Thing Tim Birkhead, 2016-04-12 A bird's egg is a nearly perfect survival capsule--an external womb--and one of natural selection's most wonderful creations. Shortlisted for the Royal Society Insight Investment Science Book Prize 2016. One of Forbes' Best Books About Birds and Birding in 2016. Renowned ornithologist Tim Birkhead opens this gripping story as a female guillemot chick hatches, already carrying her full quota of tiny eggs within her undeveloped ovary. As she grows into adulthood, only a few of her eggs mature, are released into the oviduct, and are fertilized by sperm stored from copulation that took place days or weeks earlier. Within a matter of hours, the fragile yolk is surrounded by albumen and the whole is gradually encased within a turquoise jewel of a shell. Soon the fully formed egg is expelled onto a rocky ledge, where it will be incubated for four weeks before a chick emerges and the life cycle begins again. THE MOST PERFECT THING is about how eggs in general are made, fertilized, developed, and hatched. Birkhead uses birds' eggs as wondrous portals into natural history, enlivened by the stories of naturalists and scientists, including Birkhead and his students, whose discoveries have advanced current scientific knowledge of reproduction.

Egg Michael Ruhlman, 2014-04-08 In this innovative cookbook, James Beard award-winning author Michael Ruhlman explains why the egg is the key to the craft of cooking. For culinary visionary Michael Ruhlman, the question is not whether the chicken or the egg came first, it's how anything could be accomplished in the kitchen without the magic of the common egg. He starts with perfect poached and scrambled eggs and builds up to brioche and Italian meringue. Along the way readers learn to make their own mayonnaise, pasta, custards, quiches, cakes, and other preparations that rely fundamentally on the hidden powers of the egg. A unique framework for the book is provided in Ruhlman's egg flowchart, which starts with the whole egg at the top and branches out to describe its many uses and preparations -- boiled, pressure-cooked, poached, fried, coddled, separated, worked into batters and doughs, and more. A removable illustrated flowchart is included with this book. Nearly 100 recipes are grouped by technique and range from simple (*Egg Salad with Tarragon and Chives*) to sophisticated (*nougat*). Dozens of step-by-step photographs guide

the home cook through this remarkable culinary journey.

Inspired to find the most imaginative ways to make the best use of her hens’ steady supply, and at the same time use as much fruit and vegetables from her garden as possible, Genevieve Taylor has created a year’s worth of recipes that are shaped by the changing seasons and are spontaneous, unfussy and joyful. Her passion for food that tastes and looks gorgeous, whether for every day or for parties, shines through each and every recipe and photograph in this wonderfully handy book. Move over omelette and custard, here are tortillas and tarts, pasta and pies, sauces and ice-creams, curries and clafouti and a couple of cakes for every month of the year.
