📖 **A Companion to the Achaemenid Persian Empire** Bruno Jacobs,Robert Rollinger,2021-07-23 A COMPANION TO THE ACHAEMENID PERSIAN EMPIRE A comprehensive review of the political, cultural, social, economic and religious history of the Achaemenid Empire Often called the first world empire, the Achaemenid Empire is rooted in older Near Eastern traditions. A Companion to the Achaemenid Persian Empire offers a perspective in which the history of the empire is embedded in the preceding and subsequent epochs. In this way, the traditions that shaped the Achaemenid Empire become as visible as the powerful impact it had on further historical development. But the work does not only break new ground in this respect, but also in the fact that, in addition to written testimonies of all kinds, it also considers material tradition as an equal factor in historical reconstruction. This comprehensive two-volume set features contributions by internationally-recognized experts that offer balanced coverage of the whole of the empire from Anatolia and Egypt across western Asia to northern India and Central Asia. Comprehensive in scope, the Companion provides readers with a panoramic view of the diversity, richness, and complexity of the Achaemenid Empire, dealing with all the many aspects of history, event history, administration, economy, society, communication, art, science and religion, illustrating the multifaceted nature of the first true empire. A unique historical account presented in its multiregional dimensions, this important resource deals with many aspects of history, administration, economy, society, communication, art, science and religion It deals with topics that have only recently attracted interest such as court life, leisure activities, gender roles, and more Examines a variety of available sources to consider those predecessors who influenced Achaemenid structure, ideology, and self-expression Contains the study of Nachleben and the history of perception up to the present day Offers a spectrum of opinions in disputed fields of research, such as the interpretation of the imagery of Achaemenid art, or questions of religion Includes extensive bibliographies in each chapter for use as starting points for further research Devotes special interest to the east of the empire, which is often neglected in comparison to the western territories Part of the acclaimed Blackwell Companions to the Ancient World series, A Companion to the Achaemenid Persian Empire is an indispensable work for students, instructors, and scholars of Persian and ancient world history, particularly the first Persian Empire.

📖 **The Oxford Handbook of Persian Linguistics** Anousha Sedighi,Pouneh Shabani-Jadidi,2018-08-02 This handbook offers a comprehensive overview of the field of Persian linguistics, discusses its development, and captures critical accounts of cutting edge research within its major subfields, as well as outlining current debates and suggesting productive lines of future research. Leading scholars in the major subfields of Persian linguistics examine a range of topics split into six thematic parts. Following a detailed introduction from the editors, the volume begins by placing Persian in its historical and typological context in Part I. Chapters in Part II examine topics relating to phonetics and phonology, while Part III looks at approaches to and features of Persian syntax. The fourth part of the volume explores morphology and lexicography, as well as the work of the Academy of Persian Language and Literature. Part V, Language and People, covers topics such as language contact and teaching Persian as a foreign language, while the final part examines psycho- neuro-, and computational linguistics. The volume will be an essential resource for all scholars with an interest in Persian language and linguistics.

📖 **Persian** Shahrzad Mahootian,2002-09-11 Persian, or Farsi, is one of the world's oldest languages. Dating back to the sixth century B.C., it is spoken today by over forty million people in Iran and 5 million in Afghanistan. This is the first comprehensive grammar of Persian and provides detailed coverage of all its linguistic aspects, including the syntax, morphology and phonology.

📖 **The Persian Mirror** Susan Mokhberi,2019 The Persian Mirror explores France's preoccupation with Persia in the seventeenth century. Long before Montesquieu's Persian Letters, French intellectuals, diplomats and even ordinary Parisians were fascinated by Persia and eagerly consumed travel accounts, fairy tales, and the spectacle of the Persian ambassador's visit to Paris and Versailles in 1715. Using diplomatic sources, fiction and printed and painted images, The Persian Mirror describes how the French came to see themselves in Safavid Persia. In doing so, it revises our notions of orientalism and the exotic and suggests that early modern Europeans had more nuanced responses to Asia than previously imagined.

📖 **100 Irregular Persian Verbs (Fully Conjugated in the Most Common Tenses)(Farsi-English Bi-Lingual Edition)** Nazanin Mirsadeghi,2013-05-20 100 Irregular Persian Verbs provides you with immediate access to correct irregular verb forms of the Persian language. Finding the Persian verb conjunctions is not usually an easy task, especially if the verbs are irregular. Using this type of verbs in their correct forms might be a challenge, since the stem of the verbs changes when they conjugate. This book has been designed to be used as a quick and easy way to find the full conjunction of some essential irregular Persian verbs. In order to use this book effectively, you must be able to read and write in Persian, and be familiar with the grammar and the basic structure of the Persian language. However, in the beginning of the book, some essential materials regarding the Persian alphabet, pronunciation of the Persian letters, the definition of different Persian verb tenses and their uses have been provided. The book also consists of a brief overview of grammatical rules regarding the Persian verbs and the identification of the present and past stems in regular verbs. In addition, a table of the present and past stems for the 100 irregular verbs presented in this book is included to facilitate the learning process. 📖 **The Persian Presence in the Islamic World** Richard G. Hovannisian,Georges Sabagh,1998-11-19 The thirteenth volume based on the Giorgio Levi Della Vida conference reassesses the role of the Iranian peoples in the development and consolidation of Islamic civilization. In his key essay, Ehsan Yarshater casts fresh light on that role challenging the view that, after reaching a climax in Baghdad in the ninth century, Islamic culture entered a period of decline. In fact, he maintains, a new and remarkably creative phase began in Khurasan and Transoxania, symbolized by the adoption of Persian as a medium of literary expression. By the mid-sixteenth century, Persian literary and intellectual paradigms had spread from Anatolia to India, encompassing the greater part of the Islamic world. Yarshater also challenges traditional assumptions about the 'Islamization of Persia'. In the essays which follow, six distinguished scholars consider the historical, cultural, and religious aspects of the Persian presence in the Islamic world.
