The war raged across the galaxy. Billions had died, billions more were doomed. Moons, planets, the very stars themselves, faced destruction, cold-blooded, brutal, and worse, random. The Idirans fought for their Faith; the Culture for its moral right to exist. Principles were at stake. There could be no surrender. Within the cosmic conflict, an individual crusade. Deep within a fabled labyrinth on a barren world, a Planet of the Dead proscribed to mortals, lay a fugitive Mind. Both the Culture and the Idirans sought it. It was the fate of Horza, the Changer, and his motley crew of unpredictable mercenaries, human and machine, actually to find it, and with it their own destruction. *It's Just a Meme* Morgan D. Stone, 2023 This present paper explores the popularity of Felix Kjellberg's YouTube persona and channel PewDiePie, which was the most subscribed channel on the platform for six years. People long for authenticity, and YouTube provides a platform in which intimate connections, through the form of parasocial relationships, can make an audience devoted to a creator that they watch. PewDiePie's channel found fame through consistent posting, ambiguous humor, and a performance of this authenticity which brought in a large and dedicated audience. Due to his humble beginnings and sense of authenticity, his fans felt that they had a stake in his rise to success. Having this large audience who cared about his channel's success led to the situation of PewDiePie vs T-Series, when PewDiePie subscribers set out on a movement to keep this channel as the most subscribed on the platform, and disallow the Indian production company T-Series from having the top spot. This movement occurred due to the effects of virality and memetic spread which allowed for it to grow to a global stage. This globalization made interpretations of PewDiePie's actions online uncontrollable, which led to his subscribers adopting the movement to many starkly different contexts: memes, politics, and hatred. This movement would not have happened without YouTube users' culture of championing authenticity and punishing corporations, or the parasocial relationships that audiences have with PewDiePie. This analysis leaves the question: what responsibility does a YouTuber have over the actions of their audience?
