Tapping State Government Information Sources Lori L. Smith, Daniel C. Barkley, Daniel D. Cornwall, Eric W. Johnson, J. Louise Malcomb, 2003-11-30 Each state government produces large varieties and quantities of useful information that are largely unknown outside their state of origin. This book leads the public to the most useful information sources produced by each state, as well as to depository libraries that will facilitate more effective research. For each of the 50 states, important publications are detailed, along with information on how to obtain them. The publications' topics range from crime statistics to vital statistics, business statistics, health information, statistical abstracts, education directories, state budgets, economic indicators, state laws and legal information, and more. *Tapping State Government Information Sources* has a broader focus than previously published books in this subject area, most of which have focused solely on depository laws, useful state publications, or indexes to state publications. This book covers all three. The first chapter describes print and electronic sources that provide information about all 50 states. Each state's resources are then described in individual chapters. When possible, information about how to order a copy of the source is given, as are Web addresses for titles that are available online. At the beginning of each state chapter, the state's legal definition of public document or its equivalent is given, which may be of interest to librarians in states that are reexamining their own depository laws.

The Young Bonhoeffer Dietrich Bonhoeffer,2002-11 Volume 11 in the sixteen-volume Dietrich Bonhoeffer Works English Edition, Ecumenical, Academic, and Pastoral Work: 1931-1932, provides a comprehensive translation of Bonhoeffer's important writings from 1931 to 1932, with extensive commentary about their historical context and theological significance. This volume covers the significant period of Bonhoeffer's entry into the international ecumenical world and the final months before the beginning of the National Socialist dictatorship. It begins with Bonhoeffer's return to Berlin in June 1931 after his year of study in the United States. In the crucial period that followed, Bonhoeffer continued his preparations for the ministry, began teaching at Berlin University, and became active at international ecumenical meetings. His letters and lectures, however, also document the economic and political turbulence on the European and world stage, and Bonhoeffer directly addresses the growing threat of the Nazi movement and what it portends not only for Germany, but for the world. Several of the documents in this volume, particularly the student notes of his university lecture on The Nature of the Church and his lectures on Christian ethics, give important insights into his theology at this point. His ecumenical lectures and reports are significant documents for understanding the ecumenical debates of this period--Publisher description.

Rome Travel Guide Angela Pierce,2015-09-28 Rome may not be built in a day, however one can unquestionably fall in love with the beauty of the city in a single day. The magnificence, glory, history,

architecture will make the beholder travel through time and live in the era of greatness. The echoes of Roman Empire can still be heard in the city premises; the clash of swords, arguments of senators, battle cries, political barges, artistic pleasures, philosophic tendencies, strife for inventions, etc. makes Rome the microcosmic predecessor of the modern world.
