**What Did You Put in Your Pocket?** Beatrice Schenk de Regniers,2003-05-13 What did you put in your pocket? What did you put in your pocket? In your pockety pockety pocket Early Monday morning? What do YOU put in YOUR pocket? Everyday things like a spinky spanky handkerchief? Or silly things like slushy gushy pudding? No matter what you put in your pockets, you'll get a whole lot of ideas from Beatrice Schenk de Regnier's catchy, cumulative rhymes. Together with Michael Grejniec's zany, bright illustrations, they'll make you look at pockets -- and the days of the week -- in a whole new way!

**Pax and the Missing Head** David Barker,2023-10-12 In a country beset by civil war, New London defends itself behind a giant wall. Inside the city, children are forced to work from an early age, except for the lucky few who train to be leaders in the re-purposed Palace of Westminster. 12-year-old orphaned Pax is brilliant at recycling old tech. He enjoys working on the verti-farms and just wants a bit of peace and quiet. But when that is taken away from him, his only hope is to pass a near-impossible exam and join the other students in Scholastic Parliament. There he'll make new friends and new enemies. He'll get tested like never before. And he'll discover that not everything is quite what it seems under the mayor's harsh leadership.

**Empty Pockets** Dale Herd,2015-01-12 Praise for Dale Herd: A world takes place here with extraordinary economy: articulate, fragile, heartfelt.—Robert Creeley Dale Herd's writing has affected the way I look at the world, as well as opening me up to one more possibility of how to transform the world into words, and his books certainly deserve a place on the highest shelf.—American Book Review From high school love notes to a drug runner's day; from a boy's first fistfight to the unexpected aftermath of a woman's first experience of marijuana, Dale Herd's stories travel the backroads, sending postcards of life as it is lived.

**Advances in Cancer Research** ,2001-07-10 Advances in Cancer Research provides invaluable information on the exciting and fast-moving field of cancer research. **Pockets Presents** Tony Orlando Little,2019-12-26 The reason why Melody just laughed it off about the items she bought being magic. She thought Mr. Lee was just making small talk. She finds out later that her pockets really are magic. Mr. Lee could have told her that the pockets were magic. But they're only magical if the owner's heart is good and because Melody is good ...the pockets are magical. The same way if the owner's heart has bad intention to do wrong. Then their pockets will have no reaction. They would just be regular old pockets with no meaning. So make your pockets shine and filled them up with good things. Even if you just put a pen in your pocket. You will never know when someone needs something to write with. They may not need one today. But, you are doing good because you are putting good and useful things in your pockets for others. That's a great way to start

**Prison Boy** Sharon McKay, 2015-03-02 A heart-wrenching tale of selfless love and the powerful desire to survive. When little Kai is brought to the orphanage, an older child, Pax, immediately takes him under his wing. Left on their own after the orphanage shuts down, Pax is determined to keep Kai safe, but life on the streets is tough—and dangerous. In a desperate attempt to make enough money to keep Kai in school, Pax unwittingly transports a bomb, which explodes, killing and maiming hundreds of people. Pax and Kai escape the deadly explosion, only to be arrested and charged with terrorism. What follows is a descent into the hellish prison where brutal guards stop at nothing to make Pax talk. This haunting novel brings home the tragic situation in which children in over 40 countries are tortured with impunity. But it also speaks to the strength of love in the most dire situations.

**Winter Omens** Trisha Leigh, 2012-09-25 Althea and Lucas barely escaped the Others' clutches in the autumn, and were separated in the process. Alone and on the run from the cruel alien race determined to exterminate her, Althea struggles to adapt and survive in a world she never imagined. When a boy named Pax appears out of nowhere, he quickly recognizes Althea for what she is – a human/Other hybrid just like him. Althea begs him to help her find Lucas, but Pax refuses, intent on following his own mysterious agenda. The Others' presence continues to devour the planet's resources, and if history is an indication, they won't leave until Earth is destroyed beyond repair. Althea and Pax sense the only way to save themselves – and maybe their home – is to understand the powers simmering inside them. Together they push the limits of their capabilities in the quiet Wilds, but are soon confronted with a terrifying fact: no place is safe from the relentless pursuit of the Others. Least of all their own minds.

**Speargrass-Vengeance** Dwayne Clayden, 2023-11-09 The justice system has failed the Speargrass Tribe. Until Now. Sheriff Franklyn Eaglechild is amid an acrimonious Speargrass Tribal election, as opioids destroy the lives of tribe members. Then he responds to his first murder—scattered bones. Soon, a second body is discovered. This one was more gruesome than the last. At the same time, DEA Agent Riley Briggs is dealing with toxic fentanyl arriving in Montana. Mexican cartels are taking advantage of the United States and Mexico border chaos by shipping pure fentanyl and Mexican-produced methamphetamine into the US in amounts previously unseen. Acting on a tip, Agent Briggs intercepts a customized bus traveling through Montana. What he finds inside the bus is beyond his worst nightmare. Money Laundering. Drug Smuggling. People Trafficking. What comes next can't be survived. The thrilling sequel to Speargrass-Opioid.

Pockets Full of Dust J L Benson, 2021-02 I had no idea what was going on. In fact, I was sure that my parents were telling me as little as possible. All I knew was that I was given a harsh-and probably well deserved-ultimatum. Shape up or ship out. Either get my life back on track or be disowned. The last year and a half had been a whirlwind of sex, drugs, and parties. Every seventeen year old boy's dream, right? Wrong. I spent two weeks of the summer locked in a detox center, shuddering out one hell of a bad hangover. Now, two weeks sober and my life was about to change again. So we've come full circle. Here I am sitting in the back seat of my dad's car, trying to ignore the glares he was shooting at me and the quiet sobs from my mom. They were taking me to a place I'd never heard of until two days ago. A prestigious school in the middle of nowhere. My parents were so fed up with me, they were sending me to boarding school. I couldn't entirely blame my parents for sending me away. This had been the suggestion of the judge who oversaw my court case. The options had been jail or boarding school. I thought at the time I was getting off lightly. But now I wasn't so sure. In just a few hours I was going to be surrounded by spoiled rich kids in ugly school uniforms; in classes that I

hadn't attended in months. I wasn't going to fit in. I did not belong here. All I knew that as I looked out my window all I'd seen for miles were trees. This was officially the longest car trip ever. And I was desperate for a smoke, a drink, or even some pills to take the edge off.

**Dangling by a Thread** Lea Wait, 2016-10-25 "An interesting storyline. If you love cozies you really should try this series!"—from the USA Today bestselling author of *Thread* and *Gone* (Books, Movies, Reviews! Oh My!). The Mainely Needlepointers are about to learn that no man is an island—especially when greedy developers want his land . . . Hermit Jesse Lockhart lives alone on King's Island, three miles east of Haven Harbor, Maine, where he's created a private sanctuary for the endangered Great Cormorants. But when a wealthy family wants to buy the island and Jesse's cousin petitions for power of attorney to force him to sell, Jesse is the one who becomes endangered. Mainely Needlepointer Dave Perry, who befriended Jesse in the VA hospital, rallies the group to his defense. Angie Curtis and the ravelers stitch "Save the King's Island Cormorants" pillows and sell T-shirts to pay for Jesse's legal counsel. But tragically, on a visit to the island, Angie finds Jesse dead. Now the search is on for a common thread that can tie the murdered man to his killer . . . Praise for the Mainely Needlepoint mysteries "Offers a wonderful sense of place and characters right from the very beginning. Highly recommended." —Suspense Magazine "A cozy debut that hits all the sweet spots: small town, family ties, and a crew of intriguing personalities." —Library Journal "Deep atmosphere, secrets from the past and a mystery interview with sharp plotting and well-developed, sympathetic characters create another winner in the second of the Mainly Needlepoint Mysteries." —RT Book Reviews

*Prey for a Miracle* Aimée Thurlo, David Thurlo, 2007-04-01 Sister Agatha is an extern nun in the cloistered order at the Our Lady of Hope Monastery near a small New Mexican desert town. As such, Sister Agatha is the link between her cloistered sisters and the outside world. Usually this means running errands in the monastery's slowly dying car (dubbed the Anti-Chrysler) or their motorcycle, with Pax, the order's German Shepard, in the side car. But sometimes it means something a bit more - like now when the diocese is upset by reports of a young girl whose parents claim is receiving visitations from the Virgin Mary and providing insight into future events. Wanting neither to ignore a real miracle, nor give credence to what might be merely an attempt to defraud the faithful, they ask Sister Agatha to investigate. But her inquiries are soon complicated when the girl herself disappears, apparently having been kidnapped, and Sister Agatha will need more than faith to bring her home.
