Policing and decolonisation David Anderson, David Killingray, 2017-03-01 As imperial political authority was increasingly challenged, sometimes with violence, locally recruited police forces became the front-line guardians of alien law and order. This book presents a study that looks at the problems facing the imperial police forces during the acute political dislocations following decolonization in the British Empire. It examines the role and functions of the colonial police forces during the process of British decolonisation and the transfer of powers in eight colonial territories. The book emphasises that the British adopted a 'colonial' solution to their problems in policing insurgency in Ireland. The book illustrates how the recruitment of Turkish Cypriot policemen to maintain public order against Greek Cypriot insurgents worsened the political situation confronting the British and ultimately compromised the constitutional settlement for the transfer powers. In Cyprus and Malaya, the origins and ethnic backgrounds of serving policemen determined the effectiveness which enabled them to carry out their duties. In 1914, the Royal Irish Constabulary (RIC) of Ireland was the instrument of a government committed to 'Home Rule' or national autonomy for Ireland. As an agency of state coercion and intelligence-gathering, the police were vital to Britain's attempts to hold on to power in India, especially against the Indian National Congress during the agitational movements of the

1920s and 1930s. In April 1926, the Palestine police force was formally established. The shape of a rapidly rising rate of urban crime laid the major challenge confronting the Kenya Police.

The Truth About Cops: A Retired Police Officer's Answers to All Your Burning Questions Tim Dees, 2012-09-14 NOTE FROM THE AUTHOR I have a head full of information, not all of which is useful. It bothers me that the lyrics for Yummy, Yummy, Yummy, I've Got Love in My Tummy are taking up room that could be occupied by something more life-relevant. Still, I've often found myself the person people come to when they want to know something, but aren't sure where to find it, and I enjoy providing that service. Quora is a great outlet for people like me. I stumbled on the site a little more than a year ago, and almost 600 answered questions later, there's enough material for a book. Law enforcement is a passion for me, not for the power trip or the adrenaline rush, but because it can be a truly noble vocation when done right. People depend on law enforcement officers to protect them from predators, see that the bad guys are held to account for their acts, and establish order out of chaos. The authority that cops have is a sacred public trust. Most officers carry out their duties proudly and honorably, but there will always be a few who abuse that trust. The short essays here are about both sides of that issue. These answers are also about separating some of the myths of police work from the reality. There have been so many dramatic depictions of law enforcement, some of them very realistic and others that seem realistic, that people tend to believe they know how cops work and why they do what they do. Here, I've tried to give you the straight scoop, knowledge accumulated from my own experience and from knowing cops from all over the country and the world. Some of it isn't flattering, but otherwise it wouldn't be honest. I hope you enjoy and benefit from these insights into police work. Tim Dees EXCERPT FROM THE BOOK Is It TRUE That Parking Patrol Officers Can NOT Stop Writing A Ticket Once They Have Started? Some agencies do in fact have a policy that an officer, police, parking or otherwise, can't discard a citation once they have started writing it. Virtually all of them have some process for voiding a citation issued in error once the citation has been issued, but this process is carefully monitored to prevent abuse. Absent a monitored process, the system is easily manipulated. Someone makes a call to a person in the police department who has influence, and that person contacts the officer who issued the ticket. They persuade the officer to void the ticket. If the voided ticket appears to be correct in format, e.g. license plate matches the vehicle description, violation is appropriate for that location, etc. then whoever is in charge of reviewing the voided citations is supposed to follow up and find out if the citation was voided for a legitimate reason or as a favor to someone. Most of the time, when the issuing officer has started the citation form (and many of them are generated via handheld computer these days) and the violator runs up and asks them to stop, the violation is legitimate, and the officer has already looked around for the driver of the vehicle. The typical complaint is but I was just gone for a minute (which may or may not be true). In any event, there is seldom a provision in the law for parking there for a minute-you aren't supposed to park there at all. So, in short, it's usually true that the officer is not supposed to stop once they have begun issuing the citation. Buy the book to read more!

The Police Officer's Guide to Operating and Surviving in Low-light and No-light Conditions Tony L. Jones, 2002 This book reminds the reader that many police shootings occur during diminished light, and with few exceptions, officers do not receive enough training in these conditions; in addition, recommendations are made for officers to use senses other than vision, teamwork, and technological innovations to increase an officer's chance of success when working in dim-light or no-light conditions. The majority of crimes and officer shootings occur at night in diminished light or no-light settings. The Federal Bureau of Investigation reports that during a 9-year period (1985-1994), almost 63 percent of police officer deaths occurred between 6:00 p.m. and 6:00 a.m. During these hours, it is difficult for officers to accurately identify an alleged suspect's face easily or identify any weapons he or she may be in possession of. Add stress and an increased heart rate to an already tense situation and it is easy to understand the need for additional training under these conditions. The dark is fraught with peril and danger, but increased training can alleviate stress and increase proficiency. Moreover, officers can rely upon other senses and additional training can help facilitate decision-making under these difficult circumstances. Technological advances and team techniques can also be incorporated into officer training. Directional microphones, night vision and thermal imaging devices and infrared lights are a few of the technological advances that may aid officer shootings during dim-light or no-light environments.
