**Pop! Pop! Pop!** Dot Meharry,2006

Hop on Pop Dr. Seuss,2015-04-14 A sturdy board-book edition of Dr. Seuss's Hop on Pop, now available in a larger size perfect for babies and toddlers! This abridged version of the classic Beginner Book Hop on Pop introduces the youngest readers to the wonderful world of Seussian wordplay. See RED and NED and TED and ED in BED. And giggle as PAT sits on a HAT and a CAT and a BAT . . . and almost on a cactus! (NO PAT NO, don't sit on that.) A perfect gift for baby showers, birthdays, and happy occasions of all kinds, it is also a great way to show Pop some love on Father's Day!

**All You Want to Know About the Bible in Pop Culture** Kevin Harvey,2015-03-24 Somehow, it's hard to picture pop culture and Christianity going hand-in-hand, but maybe we simply aren't looking at things the right way. All You Want to Know About the Bible in Pop Culture reveals places where readers may be surprised to find redeeming values and gospel messages in today's movies, music, popular TV shows, and much more! When you look closely, past the outrageous outfits and the antics of teen pop-sensations, it's easy to see that from the big screen to the small screen and right down to the radio waves, God and His stories are still prevalent in pop culture today. There are movies and television shows that speak eternal truth, reality show families who represent believers well, even fictional Christians portrayed in a positive light. And if you listen closely, musicians are still conversing with God as the original songwriters of the Bible did. For the reader searching for meaning in media today, All You Want to Know About the Bible in Pop Culture is the perfect choice. Features include: Fun Bible-based facts and trivia questions Examples of biblical messages from current TV shows, films, and pop songs A casual and engaging resource

**Convective Heat Transfer I.** Pop,Derek B Ingham,2001-02-23 Interest in studying the phenomena of convective heat and mass transfer between an ambient fluid and a body which is immersed in it stems both from fundamental considerations, such as the development of better insights into the nature of the underlying physical processes which take place, and from practical considerations, such as the fact that these idealised configurations serve as a

launching pad for modelling the analogous transfer processes in more realistic physical systems. Such idealised geometries also provide a test ground for checking the validity of theoretical analyses. Consequently, an immense research effort has been expended in exploring and understanding the convective heat and mass transfer processes between a fluid and submerged objects of various shapes. Among several geometries which have received considerable attention are plates, circular and elliptical cylinders, and spheres, although much information is also available for some other bodies, such as corrugated surfaces or bodies of relatively complicated shapes. The book is a unified progress report which captures the spirit of the work in progress in boundary-layer heat transfer research and also identifies potential difficulties and areas for further study. In addition, this work provides new material on convective heat and mass transfer, as well as a fresh look at basic methods in heat transfer. Extensive references are included in order to stimulate further studies of the problems considered. A state-of-the-art picture of boundary-layer heat transfer today is presented by listing and commenting also upon the most recent successful efforts and identifying the needs for further research.

Pop Freak! Smith Street Books, 2021-11-02 Get ready for charades like you've never played it before. You can play Pop Freak! with as many people as you can find. Divide yourselves into teams then randomly pull out about 40 cards (more for a longer game, fewer for a quick one) – but no peeking! Set the cards in a pile in the middle. This is the playing deck. Each game has three rounds. Teams take 60 second turns to collect as many cards as they can by correctly guessing exactly what's written on each of them. One person in the team does the talking (or not talking) to the rest of the team, who do the guessing. For every correct guess, your team gets to keep the card. A round is over when there are no cards left in the playing deck. Tally the scores and shuffle all the cards back together for the next round. The winning team is the one who has accumulated the most cards over the three rounds. Round 1 You can say anything you want besides the words or phrases on the card. If you say any of these, the card is returned randomly to the playing deck, and you lose five seconds from that turn. There's no skipping of cards that you get stuck on. Sorry. And no spelling out words or rhyming! Round 2 The same as round one, but you can only say one word. Use it wisely. Round 3 No words or sounds.
