The Challenge of Crime in a Free Society United States. President's Commission on Law Enforcement and Administration of Justice, 1967 This report of the President's Commission on Law Enforcement and Administration of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The

recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

Corporate Investigations, Corporate Justice and Public-Private Relations
Clarissa A. Meerts, 2019-08-26 This book seeks to understand the investigation and settlement of employer/employee disputes within companies. It argues that there is effectively no democratic knowledge about, or control over, corporate security, due to companies' preference for private, out-of-court settlements when faced with norm violations raised by employees. This book fills the knowledge gap by providing an overview of the corporate security sector including legal frameworks and an analysis of the role and powers of private investigative services, inhouse security, forensic accountants and forensic legal investigators. It draws on close observation, case studies and interviews with practitioners in and around the industry. Corporate Investigations, Corporate Justice and Public-Private Relations also looks at public-private relationships in this sector to propose policy remedies applicable to all corporate security providers, regardless of the disparate professional backgrounds and skill-sets of their staff.

Off Camera Ted Koppel, 2001-10-09 One of America's most admired TV anchors

gives us an intimate chronicle of the final year of the twentieth century. In this engrossing narrative, a national bestseller, are all the most significant matters of that year--from Bill Clinton's impeachment to Columbine, from the war in Kosovo to Y2K and the mass-marketing of Viagra. Here are the people who made the news--from Slobodan Milosevic to Hillary Rodham Clinton to Michael Jordan to John F. Kennedy Jr. The events of 1999 anticipate so many of the on-going challenges America faces today that Koppel's account feels entirely prescient. Koppel's book moves on yet another level as events trigger memories of his own past, providing a more personal resonance to his telling of the history we all share. He takes us back to the England in which he lived until he was thirteen. He revisits his powerful experiences as an interviewer investigating prison abuses and probing the violence in our schools. He discusses the strengths and weaknesses of the media; he talks about racial intolerance, about brutality toward gay people, about the absence of political leadership. He also examines such cultural phenomena as our obsession with celebrity and the impact of great theater and overhyped movies. Here is the voice we knew so well from Nightline--intelligent, curious, opinionated, witty, concerned--reminding us in entertaining and thought-provoking ways that even the most public events reverberate in our private lives.
