Private Pictures Janina Struk, 2020-09-14 Snapshots taken by American soldiers of Iraqi prisoners stripped naked, humiliated and tortured shocked the world in 2004 and more have followed from the conflict in Afghanistan, but whether the public have been horrified by the soldiers' conduct or the fact they have taken pictures has not been clear. In fact, as this remarkable book reveals and relates, soldiers have taken photographs of war and its atrocities for more than 100 years. But their pictures are private, intended mainly for the soldiers themselves, as mementoes or as attempts to make sense of the chaos, brutality and boredom of war. They can be gruesome or sociable, shocking or mundane and they are seldom regarded as serious contributions to a visual culture of war, which since 1939 has been dominated by professional war photography. But with the 21st-century shift to simple digital photography, transmission by the internet available to all, and a new 'citizen journalism', soldiers' pictures are acquiring a new resonance. *Private Pictures* traces this unacknowledged genre of photography from the origins of popular photography in the Boer War through to the present day; it discusses how the images have been used and it asks: what effect might the wider appreciation of soldiers' pictures have on the popular perception of war?

Pictures of Private Life Sarah Stickney Ellis, 1835

A Class Apart James Gardiner, 1992 *A Class Apart* is a selection of photographs and letters culled from the archive of Montague Glover (1898-1983), documenting the intimate, rarely recorded lives of gay men in Britain from the First World War to the 1950s. The book features Glover's three obsessions: the Armed Forces, working class men, and his lifelong lover Ralph Hall. A seamless blend of the personal and the historical make *A Class Apart* a unique portrait of a secret relationship and of an undiscovered period in British gay history.

Exposed Memories Zsófia Bán, Hedvig Turai, 2010-10-30 Within the larger context of cultural memory, family pictures have become one of the most intriguing multi- and interdisciplinary fields of investigation in the past decade. This field brings together artists working in different media (e.g. documentary photography and film, photo-based painting and installations, digital art, collage, montage, comics, etc.) as well as academics, critics, theorists and writers working in a wide range of disciplines including literature, history, art history, sociology, anthropology, psychoanalysis, film and media studies, visual culture studies, gender studies, postcolonial studies, and word and image studies. This volume intends to offer a broad, panoramic view of the topic combining West and East European as well as American perspectives.

*Prince* Afshin Shahidi, 2017-10-24 Featuring a foreword by Beyoncé Knowles-Carter. When Prince wanted to document his *One Nite Alone* tour in 2002, he turned to Afshin Shahidi. Again in 2004, he went along on Prince's record breaking *Musicology* Tour. Afshin met Prince in 1989 and became his cinematographer and later his photographer. He was the photographer closest to Prince for the last fifteen years of Prince's life. Afshin is the only photographer to shoot the legendary 3121 private parties in Los Angeles that became the most sought after invitations in Hollywood. *Prince: A Private View* compiles his work into a journey through Prince's extraordinary life. With many never-before-seen photos, this is the ultimate collection of – some intimate, some candid, some in concert – shots of Prince, but all are carefully directed in the artist-as-art style that we associate with him. Deep photo captions are brief, but complete stories about Prince's life at that moment - some are incisive, others are personal and even funny.

**Visual Culture and Decolonisation in Britain** Anandi Ramamurthy, 2019-05-23 First published in 2006, this volume provides the first in-depth analysis of the place of visual representations within the process of decolonisation during the period 1945 to 1970. The chapters trace the way in which different visual genres – art, film, advertising, photography, news reports and ephemera – represented and contributed to the political and social struggles over Empire and decolonisation during the mid-Twentieth century. The book examines both the direct visual representation of imperial retreat after 1945 as well as the reworkings of imperial and 'racial' ideologies within the context of a transformed imperialism. While the book engages with the dominant archive of artists, exhibitions, newsreels and films, it also explores the private images of the family album as well as examining the visual culture of anti-colonial resistance.

*The Private Lives of Pictures* Nicholas Tromans,2022-09-26 A novel art history of England told through the artworks on display in domestic space over hundreds of years. The Private Lives of Pictures offers a new history of British art, seen from the perspective of the home. Focusing on the nineteenth and early-twentieth-century, the book takes the reader on a tour of an imaginary Victorian or Edwardian house, stopping in each room to look at the pictures on the walls. Nicholas Tromans opens up the intimate history of art in everyday life as he examines a diverse array of issues, including how pictures were chosen for each room, how they were displayed, and what role they played in interior design. Superbly illustrated, The Private Lives of Pictures will appeal to readers interested in both art and social history, as well as the history of interiors.
