**Cyberhate in the Context of Migrations** Angeliki Monnier,Axel Boursier,Annabelle Seoane,2022-02-11 This edited book takes an interdisciplinary approach to shed light on the complex dynamics involved in the incidence of online hate speech against migrants in user-generated contexts. The authors draw on case studies from Finland, France, Germany, Italy, Poland and the UK, bringing together qualitative and quantitative analyses on user-generated online comments. The authors argue that online hate speech against migrants must be understood as a symptom of a representation crisis on migration, which can only be fully perceived through the study of the complex linguistic, interactional and connective processes within which it emerges. They focus on representations and shared meanings, community building and otherness, and delve into the role of network ecosystems in the process of the construction of public problems. This book will be of interest to undergraduate and post-graduate students as well as academics working on hate speech and migration studies in a variety of fields, and can also contribute to improving research protocols for automated analyses and detections of online hate speech.

**Dancing Communities** J. Hamera,2006-11-08 Dancers create 'civic culture' as performances for public consumption, but also as vernaculars connecting individuals who may have little in common. Examining performance and the construction of culturally diverse communities the book suggests that amateur and concert dance can teach us how to live and work productively together.

**Phenomenologies of Grace** Marcus Bussey,Camila Mozzini-Alister,2020-05-13 This book explores the place of the body and embodied practices in the production and experience of grace in order to generate transformative futures. The authors offer a range of phenomenologies in order to move the philosophical anchoring of phenomenology from an abstracted European tradition into more open and complex experiential sets of understandings. Grace is a sticky word with many layers to it, and the authors explore this complexity through a range of traditions, practices, and autobiographical accounts. The goal is to open a grace-space for reflection and action that is both futures-oriented and enlivening.

**Freyja's Daughter** Rachel Sullivan, 2023-05-18 Well behaved women rarely make history. But they still end up as the monsters in folklore. Bounty hunter Faline Frey is huldra-a powerful folkloric woman, able to grow branches and cover her body in defensive bark. She's not the only one. All throughout the United States live secret sects of folkloric women, each group created with unique gifts from their Goddess. They are called Wild Women. And they spend their days living among humans. Repressing abilities they were born with, the very attributes the Hunters deem evil. The Hunters say they're protecting the folkloric women. Their organization of supernatural men claim to have been given strength and authority by God to save the Wild Women from themselves. To Faline, their constant scrutiny feels more like oppression. But when her sister goes missing, Faline needs more than her bounty hunter skills to find her sibling. She must leave the protection of huldra territory and rely on the inner Wild she's been taught to shun. To find her sister, Faline must unearth parts of herself to follow the twisted trail of Hunter propaganda and missing Wild Women. But the Hunters have a longer reach than she imagined, and their organization is determined to prevent the folkloric groups from joining arms to get their sisters and mothers back. Faline's efforts have placed her squarely in the Hunter's crosshairs. What started as a rescue will end in war.

The Global Encyclopaedia of Informality, Volume 3 Alena Ledeneva, 2024-02-26 For a post-human hitchhiker, human life – with its anxiety, ageing, illness and constant need for problem-solving – may look unviable. Yet, for humans, the life struggle is softened by human touch, human emotion and human cooperation. The Global Encyclopaedia of Informality, Volume 3 continues the journey of the two previous volumes into the world's open secrets, unwritten rules and hidden practices. It focuses on issues of emotional ambivalence and pressures of the digital age. The informal practices presented in this volume demonstrate the urgency of alleviating tensions between continuity and all-too-rapid change and the need to tackle the central problem of modern societies – uncertainty. The volume takes a reader on a 'biographical' journey through elusive, taken-for-granted or banal ways of getting things done from over 70 countries and world regions. It offers innovative understanding of the significance of fringes, and challenges the assumption that informality is associated exclusively with poverty, underdevelopment, the Global South, oppressive regimes or the former socialist countries of Eastern Europe and Central Asia. It also maps the patterns of informality around the globe; identifies specific informal practices in a context-sensitive way; and documents their ambivalent impact on people engaged in problem-solving, on societies in which these problems arise, and on humanity overall. Praise for The Global Encyclopaedia of Informality, Volume 3 'This book tells a story of human cooperation. It is not the narrative you'll find in books teaching you how to solve problems. It is an assemblage of something much more endemic, fundamentally human, and much more pervasive than we tend to think of informality. It involves money and power, but also the alternative currencies of gaining advantage or gaming the system.' Bruce Schneier, author of A Hacker's Mind 'Alena Ledeneva's latest database of rule bending is a goldmine for documentary makers and storytellers. Entries from 70 countries,

covering a human lifespan from Chinese “anchor babies” to funeral feasts in Azerbaijan, offer remarkable insights into the way the world really works.’ Lucy Ash, journalist

**The New Fundraisers** Beth Breeze, 2017-10-30 Charitable fundraising has become ever more urgent in a time of extensive public spending cuts. However, while the identity and motivation of those who donate comes under increasingly close scrutiny, little is known about the motivation and characteristics of the ‘askers’, despite almost every donation being solicited or prompted in some way. This is the first empirically-grounded and theorised account of the identity, characteristics and motivation of fundraisers in the UK. Based on original data collected during a 3-year study of over 1,200 fundraisers, the book argues that it is not possible to understand charitable giving without accounting for the role of fundraising.
