Keeping the Peace Vol II Laurie Pointing,2014-11-20 Keeping the Peace Volume II, like its predecessor, is bound to become an important resource for social historians, legal academics and indeed anyone interested in the evolution of police administration and law enforcement in Queensland. It contains another wonderful collection of intensely personal stories, providing rare insights into the sacrifices made by successive generations of Queensland police officers – men and women who served the public with dedication, courage and a strong sense of duty. In the year of the sesquicentenary of the Queensland Police Service, which was inaugurated on 1st January, 1864, the book serves as a timely reminder of the contribution that police officers make to the peace of mind and welfare of ordinary citizens. Author Laurie Pointing himself a former Assistant Commissioner of Police, should be commended for bringing together the stories in both volumes of Keeping the Peace. In this second collection, Mr. Pointing has also included a highly informative prologue, bringing together little known facts about famous Queenslanders such as Sister Elizabeth Kenny and her two police officer brothers, the 1889 battle of Lawn Hill Station and the famous Warwick egg-throwing incident which resulted in the formation of the Commonwealth Police, now known as the AFP.

Reform in Policing Jill M. Bolen,1997 Provides an important analysis of attempts to reform policing grounded in the experience of the Whitrod era in Queensland. Bolen's analysis is based on detailed insider knowledge of the processes unparalleled in other studies of police reform. This book offers a detailed and rich history of Queensland policing at the time but its relevance extends much beyond Queensland. It is a valuable text for anyone interested in policing and organisational change.

Code of Silence Colin Dillon,Tom Gilling,2016-04-27 'Wherever there is power and money, there is always the risk of corruption. But everyone has a choice: to become involved or to take a stand against it.' Colin Dillon is an extraordinary man. He was the first Indigenous policeman in Australia. But that is actually a very small part of his story. He was also the first serving police officer to voluntarily appear before the Fitzgerald Commission of Inquiry in 1987 and give first-hand evidence of police corruption. He did this at a time when the Fitzgerald Inquiry was beginning and struggling for traction. His evidence at the Inquiry was instrumental in eventually sending some police, including Police Commissioner Terry Lewis, and politicians to prison. Revealing, powerful and uncompromising, this is the story of Colin Dillon's nearly 40 years in a police force rotten to the core. It describes the extraordinary range of criminal activities – drugs, gaming, SP bookmaking, brothels, vehicle theft – that were allowed to operate with impunity in return for bribes. It also tells of the high price an honest man and his family paid for his decision to break the code of silence.

Policing Queensland 1864-2014 150 Years Queensland Police Service,2014-01-01 This commemorative book is available in paper back and includes 174 pages with more than 600 images and important policing milestones.

Simple Effective Transparent Strong Simone Webbe,Glen Williams,Felix Grayson,Independent Expert Panel,2011 This Review concludes that the police complaints, discipline and misconduct system in Queensland needs to correct its fundamental structural inconsistency with the policy objective of remedial intent; manage risk according to circumstances; and incorporate solutions beyond discipline and punishment such as a more responsive consideration of the needs of the complainant and restorative justice principles. --Executive summary.

To Preserve and Protect Anastasia Dukova,2020-09-02 Early Australian policing had its roots on the streets of Dublin and London, where many of Australia's first law and order enforcers hailed from. Intrigued by this connection, historian Anastasia Dukova has researched and recreated the lives of colonial police officers and criminals in her adopted home city of Brisbane. Through exploring their personal stories, Dukova highlights how biography and history are inextricably linked and reveals the differences between metropolitan aspirations and colonial reality. To Preserve and Protect exposes political power abuse, corruption, mismanagement, professional burnout, and gendered justice, issues which continue to challenge police forces.

Keeping the Peace Volume IV Laurie Pointing A.M.,2021-11-04 Keeping the Peace Volume IV, like its predecessors, shows how fortunate we are – in Queensland as in other Australian states – to have a non-political, non-military system of law enforcement, with highly trained officers ready to serve the community and impartially enforce the laws made by our representatives in parliament. With this in mind, it's very easy to lose sight of the fact that every day police officers put their own lives on the line to ensure public safety. Keeping the Peace is really their story, in their own words. Laurie Pointing, the editor and compiler of this volume, started his working life as a station hand on a western cattle property before joining the Queensland Police Service in December, 1958 and rising to the rank of Assistant Commissioner. Following a police career spanning almost 35 years, and with several successful books already to his credit, Laurie has now used his wealth of experience to wield an editorial pen and bring together this collection of personal stories from Queensland Police Officers.

The History of the Queensland Police Force J. Harry Allsopp,197?

Queensland Police Service ,1998

Policing Child Sexual Abuse Paul Bleakley,2021-09-15 Policing Child Sexual Abuse provides a historical overview of the evolution of policing child sexual abuse in Queensland, tracing a legacy of failure (even corruption) in the decades leading up to the foundation of Task Force Argos, a branch of the Queensland Police Service created in part as a response to criticisms of police shortcomings in this area. The book uses archival material as a foundation to trace the shifting approach to policing child sexual abuse (CSA) from the 1960s, when juvenile justice first became a central focus of policing in Queensland, to the 2010s, at which point Task Force Argos made international headlines for its primary role in bringing major international CSA offenders like Shannon McCool, Benjamin Warhead Faulkner and Richard Huckle to justice. Examining archival material to pinpoint the reasons that CSA was not dealt with effectively in the past, the book shows that often these reasons were political, unrelated to the policing of CSA at all. Policing Child Sexual Abuse stands as a testament to the victims of CSA who have been failed by the system in the past. In addition, the book acts as a case study of how a police force with such a negative track record in policing this area was able to correct its path and reform its practices, to the point that it could emerge as a world leader in policing CSA. Though nominally focused on policing in one Australian state, the

implications are global, with Task Force Argos’s work naturally impacting on the CSA investigations of all of its partner agencies, both in Australia and internationally. Demonstrating how, even in contexts where police responses to CSA have been met with significant criticism, an opportunity still exists to reject historical failures in favour of a renewed commitment to proactive policing, this book will be of great interest to scholars of policing, historical criminology, and child sexual abuse.

Police Reform Tim Prenzler, Janet Ransley, 2002 Police Reform: Building Integrity is about the recurring problem of police corruption and contemporary efforts to find effective strategies to maximise ethical conduct. It draws on international experience, using Australia as a major source. In the last fifteen years Australian policing has been of significant interest because of the combination of advanced democratic processes, exposés of serious police corruption, and extensive – sometimes radical – experimentation with prevention strategies. The book begins with an overview of developments and issues in police integrity control globally, before giving close attention to special problem areas and to innovations in establishing and maintaining best practice. These innovations include modern methods of testing police applicants, assessing organisational integrity, mediating complaints, using stings to reveal secretive corruption, creating integrity profiles of officers and units, and developing effective independent oversight and investigation of complaints. The book is for all stakeholders in police conduct: police managers, professional standards branch personnel, general duties officers, recruits, civilian oversight agencies, civil libertarians, politicians, police studies scholars and students, and the general public. The book brings together the latest research on types of misconduct in a form that is readily accessible to a wide range of readers; with short, clearly focused, chapters on specialist topics. It balances diagnostic and theoretical explanations of police behaviour with a series of expositions of specific practical strategies for creating ethical departments.
