**The Millennials** Subramanian S Kalpathi,2016-09-15 Born between the early 1980s and 2000s, the millennials are the youngest (and on several occasions, the largest) generation at work today. In this first comprehensive book with discerning research, Subramanian Kalpathi turns the modern workplace on its head and asks pressing questions about what makes this raring-to-go generation tick. With case studies of millennial organizations and interviews with over 100 achievers, The Millennials will give you an informed view of how the future will look by explaining the goals, motivations and dreams of the people who will run it.

Funding Options for Startups K.S.V. Menon & Garima Malik,2016-06-10 This is a pioneering effort to provide in one place, alternative sources of funding, professionally structured business plan and other related aspects of raising start-up funds. Beginning with a detailed analysis of the Startup Ecosystem, the role of Incubators, Mentors & Accelerators (IMA) from the stage of ideation to the actual setting up of a project, principal players in this process like Universities, IITs, IIMs, Indian Business Houses, Multinational Corporations and reputed professionals and intrapreneurs have been identified and listed. Pros and cons of angel finance, seed capital, venture capital, crowdfunding, impact investment, hedge fund, debt fund, private equity, valuation, recent deals & exits, emerging trends and ideas in the startup scenario are some of the areas discussed in detail in the publication. Existing success stories and the government's thrust on creating India as a hub of startups is drawing many students to entrepreneurship. B-schools and IITs are rolling out enthusiastic professionals, accelerators etc. A unique feature of the publication is a section on case studies, which demonstrate bird's eye view of their birth pain, how they traversed the thorny path, faced failure after failure, changed their ideas and strategies and finally how they reached their destination successfully.

*CLICK!* Jagmohan Bhanver,Komal Bhanver,2017-03-25 A sharp study of the evolution of the e-commerce sector in India and how it is reshaping the way we do business. Whether we're hailing a cab or ordering food, buying groceries or shopping for clothes, booking a hotel or finding the right doctor ? our lives today are lived online. For a population with severe trust issues with online payments, Indian consumers have embraced ecommerce with phenomenal enthusiasm in the past few years. In turn, an incredible number of e-commerce companies operate here today, the more successful among them disrupting business paradigms and changing the way products and services are bought, sold and consumed in the country. Just how has this transformation come about? Through the stories of eight players that have experienced the incredible highs and lows that the industry has witnessed ? Flipkart, Snapdeal, MakeMyTrip, Pepperfry, Just Dial, redBus, InMobi, Paytm ? that have experienced the incredible highs and lows that the industry has witnessed, this book unravels the incredible story of the evolution of e-commerce in India. Taking into account the recent rumblings that have shaken the industry ? from competitive pricing and discount wars to devaluation of former star companies to new and stringent government regulations ? Click! presents a long view of where the industry is headed and presents an incisive vision of it that is both inspirational and cautionary.

**VUCA in Start-ups** Dr. Aseem Chauhan, Prof. (Dr.) Manoj Joshi, Prof. (Dr.) Ashok Kumar & Suhayl Abidi,2021-12-25 How to Thrive as a Start-Up in an Uncertain World What motivates a start-up in its journey? Wealth and fame? Or is it hunger for innovation? VUCA in Start-Ups attempts to capture a start-up's entrepreneurial journey and find out why some do well when others don't. It's a highly volatile environment out there for entrepreneurs and start-ups, thanks to the unprecedented Covid-19 crisis filled with volatility, uncertainty, complexity and ambiguity (VUCA). Many businesses that did well in the past had to shut shop as a result. So what went wrong? To find the answer, it's important to understand what worked in the past and why a new venture must discover fresh and innovative opportunities to survive. Learn from those who chose the road less travelled, including Zomato, Paytm, Flipkart, Ola Cabs and Quikr, and discover the underlying causes for start-up successes and failures. These well-researched case studies aim to inspire those who wish to embark on an entrepreneurial journey.

**Bank Exam Pedia** Bharath Seeman,2015-02-17 In this present era of competition, every competitive examination consists of 5 sections Quantitative Aptitude,Reasoning, General English, Computer Science and General Awareness related to banking industry. After teaching more than 18,000 students in 28 years, we have seen a lot of students spending their time practicing aptitude and reasoning alone. But the students who cleared the exam would definitely say the above method of practicing would not help because merely passing in Aptitude and Reasoning sections will not help. Students should also think about the other sections and overall cut off. We know a lot of students who cleared all the sections but failed to clear the overall cut off. In fact, Practicing GK and English is the only way to raise the overall cut-off. So, we have decided to dedicate this entire magazine just for General Awareness & Banking awareness. We sincerely believe that students who practice the next 100 pages would secure 40 marks from the Banking awareness section. We thank Google Play for publishing our e-magazine on their mobile platform. We also thank our students who assisted to bring this magazine out.

**Veterinary Cytology** Leslie C. Sharkey,M. Judith Radin,Davis M. Seelig,2020-10-27 This book offers a state-of-the-art, evidence-based reference to all aspects of veterinary cytology. Truly multidisciplinary in its approach, chapters are written by experts in fields ranging from clinical pathology to internal medicine, surgery, ophthalmology, and dermatology, drawing the various specialties together to create a comprehensive picture of cytology's role in diagnosis and treatment of animal disease. Firmly grounded in the primary literature, the book focuses on companion animals, with special chapters for species with fewer publications. Chapters are logically organized by body system, with additional chapters on tumors of particular import and diagnostic decision

making. The first two sections of Veterinary Cytology focus on cytology techniques, quality control, and special laboratory techniques. Subsequent sections are organ/tissue-based and reflect what is known about the canine, feline, and equine species. This is followed by chapters on non-traditional species, including exotic companion mammals, rabbits, cattle, camelids, non-human primates, reptiles and birds, amphibians, fish, invertebrates, and sheep and goats. The last section highlights some unique features of the applications of cytology in industry settings. Provides a gold-standard reference to data-driven information about cytologic analysis in companion animal species Brings together authors from a wide range of specialties to present a thorough survey of cytology's use in veterinary medicine Offers broader species coverage and greater depth than any cytology reference currently available Veterinary Cytology is an essential resource for clinical and anatomic pathologists and any specialist in areas using cytology, including veterinary oncologists, criticalists, surgeons, ophthalmologists, dermatologists, and internists.

**Mobile Test Automation with Appium** Nishant Verma,2017-06-30 Automate your mobile app testing About This Book How to automate testing with Appium Apply techniques for creating comprehensive tests How to test on physical devices or emulators Who This Book Is For Are you a mobile developer or a software tester who wishes to use Appium for your test automation? If so, then this is the right book for you .You must have basic Java programming knowledge. You don't need to have prior knowledge of Appium. What You Will Learn Discover Appium and how to set up an automation framework for mobile testing Understand desired capabilities and learn to find element locators Learn to automate gestures and synchronize tests using Appium Take an incremental approach to implement page object pattern Learn to run Appium tests on emulators or physical devices Set up Jenkins to run mobile automation tests by easy to learn steps Discover tips and tricks to record video of test execution, inter app automation concepts Learn to run Appium tests in parallel on multiple devices simultaneously In Detail Appium is an open source test automation framework for mobile applications. It allows you to test all three types of mobile applications: native, hybrid, and mobile web. It allows you to run the automated tests on actual devices, emulators, and simulators. Today, when every mobile app is made on at least two platforms, iOS and Android, you need a tool that allows you to test across platforms. Having two different frameworks for the same app increases the cost of the product and time to maintain it as well. Appium helps save this cost. With mobile app growth exploding, mobile app automation is mainstream now. In this book, author Nishant Verma provides you with a firm grounding in the concepts of Appium while diving into how to set up appium & Cucumber-jvm test automation framework, implement page object design pattern, automate gestures, test execution on emulators and physical devices, and implement continuous integration with Jenkins. The mobile app we have referenced in this book is Quikr because of its relatively lower learning curve to understand the application. It's a local classifieds shopping app. Style and approach This book takes a practical, step-by-step approach to testing and automating individual apps such as native, hybrid, and mobile web apps using different examples.

Boom Country? Alan Rosling,2017-05-20 In Boom Country?, Alan Rosling, entrepreneur and strategic advisor in India for over 35 years, explores an unmistakable and profound change that is underway in the Indian business landscape. A fresh wave of enterprise and start-ups; rapid advancements in technology; government reform; and recently developed pools of risk capital, he holds, are contributing increasingly to a massive expansion in new business ? all of it underpinned by a deep social change, a willingness to `do things differently?, especially among the young. Drawing upon his own experiences and more than 100 interviews with Indian entrepreneurs ? representing traditional leading business houses (Tata, Mahindra and Godrej), established first-generation entrepreneurs (Sunil Mittal, Kishore Biyani and Narayana Murthy, among others) and new-generation start-ups (including Sachin Bansal, Bhavish Aggarwal and Vijay Shekhar Sharma) ? as well as forces of the government, Rosling provides an incisive and in-depth analysis of the opportunities and challenges, both traditional and contemporary, of doing business in India. Yet, the growing uncertainty of global trends and India's own record of under-performing despite its massive potential, lead him to one vital question: Can the current upsurge in entrepreneurial activity ? imperfect and early as it may be ? really reshape India's economy and propel it towards becoming a true boom country for new enterprise?

*Applied Computer Science for GGOS Observatories* Alexander N.J. Neidhardt,2017-08-08 This book combines elementary theory from computer science with real-world challenges in global geodetic observation, based on examples from the Geodetic Observatory Wettzell, Germany. It starts with a step-by-step introduction to developing stable and safe scientific software to run successful software projects. The use of software toolboxes is another essential aspect that leads to the application of generative programming. An example is a generative network middleware that simplifies communication. One of the book's main focuses is on explaining a potential strategy involving autonomous production cells for space geodetic techniques. The complete software design of a satellite laser ranging system is taken as an example. Such automated systems are then combined for global interaction using secure communication tunnels for remote access. The network of radio telescopes is used as a reference. Combined observatories form coordinated multi-agent systems and offer solutions for operational aspects of the Global Geodetic Observing System (GGOS) with regard to "Industry 4.0".

How To Write The Best Novel, Story, Film Script, Text Book, Web Content Dr Ishwarbhai Joshi,2022-07-05 If you are a first-time writer, this book is perfect for you. **Handbook of Research on Contemporary Perspectives on Web-Based Systems** Elçi, Atilla,2018-05-04 Information systems development underwent many changes as systems transitioned onto web-based forums. Complemented by advancements in security and technology, internet-based systems have become an information mainstay. The Handbook of Research on Contemporary Perspectives on Web-Based Systems is a critical scholarly resource that examines relevant theoretical frameworks, current practice guidelines, industry standards, and the latest empirical research findings in web-based systems. Featuring coverage on a wide range of topics such as data integration, mobile applications, and semantic web, this publication is geared toward computer engineers, IT specialists, software designers, professionals, researchers, and upper-level students seeking current and relevant research on the prevalence of these systems and advancements made to them.

Asymmetric information on non-cognitive skills in the Indian labor market: An experiment using an online job portal Yamauchi, Futoshi,Nomura, Shinsaku,Imaizumi, Saori,Areias, Ana,Chowdhury, Afra,2018-07-20 This paper examines the impact of non-cognitive (socio-emotional) skills on job market outcomes using a randomized control trial implemented in an online job portal in India. Job seekers who registered in the portal were asked to take a Big Five type personality test and, for a random sub-sample of the test takers, the results were displayed to potential

employers. Outcomes are measured by whether a potential employer shortlists a seeker by opening (unlocking) his/her application and background information. The results show that the treatment group for whom test results were shown generally enjoyed a higher probability of unlock. That is, employers are more interested in those for whom they can see personality test results. Such a relationship was not seen in the pre-test period, which confirms that the above results are unlikely to be spurious. We also found a significant impact among organized, calm, imaginative and/or quiet applicants (no effect was detected among easy-going, sensitive, realistic and/or out-going applicants), which seems to display employers’ preferences.
