Mass Protests in Iran Masoud Kazemzadeh,2023-09-05 Mass Protests in Iran: From Resistance to Overthrow explores the various waves of protests in Iran over the past 44 years, surveying their causes, consequences, and outcomes. The author argues that the regime and its support base of fundamentalist groups constitute a minority in Iran and lack legitimacy, and thus the regime uses repression and violence to secure its rule. The result is a pre-revolutionary situation and a shifting political landscape of overthrows, constant mass protests and mass repression. Kazemzadeh's analysis highlights the factors that would assist the fundamentalist regime in succeeding in suppressing these protests, and the factors that would assist the Iranian people in defeating the fundamentalist regime. Written in an accessible style, this timely book offers a much-needed contribution to the literature on Iranian politics. It will be of interest to students and scholars, as well as policy makers, interested in Middle Eastern studies, social movements, protest movements, political science and sociology.

Propaganda and Persuasion Garth Jowett,Victoria O'Donnell,2006 This edition contains revised and updated persuasion and propaganda theories and recent studies. The coverage of theory is expanded as is the discussion on the global war against terrorism, US attempts to sell itself to the Arab countries, and the question of ideological propaganda in a polarized mass media system. The authors incorporate examples from Jihad and US propaganda after September 11, 2001, and include new as well as revised case studies.

The Iran National Front and the Struggle for Democracy Masoud Kazemzadeh,2022-05-09 The Iran National Front and the Struggle for Democracy: 1949–Present explores the activities of the Iran National Front (INF). The INF is a coalition of parties, groups, and individuals and Iran's oldest and main pro-democracy political party. This book presents a political history of the INF from 1949 to the present day. It discusses the current platform of the INF, its leadership, policies, strategies, as well as criticisms and weaknesses. The volume draws on a rich range of primary sources, INF documents, and interviews, including translated transcripts with the top leader of the INF. As it is one of the major political parties opposing the current regime in Iran, the book also examines the current situation in the country. It provides an analysis of the nature of the political systems under the Shah and the Islamic Republic.

Iran's Green Movement Navid Pourmokhtari,2021-05-26 This book examines the emergence and development of the 2009 Green Movement in Iran. The approach emphasizes the context and the local and historical specificities in which mass oppositional movements arise, develop and conduct their operations. Meanwhile, it foregrounds an account of multiple modernities that work to transcend modernist assumptions. The volume describes and analyzes the power modalities—disciplinary, biopolitical, and sovereign—employed by the Islamic Republic to governmentalize the masses. Bearing a triangular methodology, the book consists of six semi-structured interviews with authorities and activists who participated in the pivotal events of that period; discourse analysis focusing on the Iranian constitution and the relevant government policy documents and speeches; and archival analysis. These provide the historical background, perspectives and insights required to analyze and explicate the conditions responsible for the emergence of the Green Movement and to grasp how collective action was enabled and organized. Marking a particular historical phase in the development of a home-grown democracy in post-revolutionary Iran, the Green Movement is transforming the country's political landscape. This book is a key resource to students and scholars interested in comparative politics, Iranian studies and the Middle East.

Terrorism Documents of International and Local Control ,2008-07-29 Volume 91 addresses the currently controversial topic of federal government intelligence-gathering that the U.S. conducts as part of its war on terror. Since Congressional hearings on this topic are normally closed to the public, many researchers possess only a limited knowledge of U.S. intelligence laws and practices. Professor Doug Lovelace here uses his own military expertise to provide researchers with commentary and documents that clarify the present state of U.S. intelligence law.--Publisher's website.

Propaganda & Persuasion Garth S. Jowett,Victoria O'Donnell,2018-08-24 Reflecting the remarkable changes in the world of propaganda due to the increasing use of social media, this updated Seventh Edition provides a systematic introduction to the increasingly complex world of propaganda. Viewing propaganda as a form of communication, the authors help you understand information and persuasion so you can understand the characteristics of propaganda and how it works as a communication process. Providing provocative case studies and fascinating examples of the use of propaganda from ancient times up through the present day, Propaganda and Persuasion provides an original model that helps you analyze the instances of propaganda and persuasion you encounter in everyday life. New to the Seventh Edition: New coverage of social media as a disseminator of propaganda offers you an up-to-date perspective. The book's four case studies have been updated and strengthened to demonstrate their relevance not only to past and contemporary culture, but also to the study of propaganda campaigns. New coverage of how a propaganda case study can be structured to reveal the components of a campaign allows you to compare strengths and weaknesses across different types of campaigns and evaluate the relative success of various propaganda strategies. Updated research on persuasion and expanded coverage of collective memory as it appears in new memorials and monuments enhances the presentation. Current examples of propaganda, especially the ways it is disseminated via the Internet, deepen your understanding. New illustrations and photos add a unique visual dimension that helps you

conceptualize methods of persuasion and propaganda.
