The 'Made in Germany' Champion Brands Ugesh A. Joseph,2016-03-09 Germany's economic miracle is a widely-known phenomenon, and the world-leading, innovative products and services associated with German companies are something that others seek to imitate. In The 'Made in Germany' Champion Brands, Ugesh A. Joseph provides an extensively researched, insightful look at over 200 of Germany's best brands to see what they stand for, what has

made them what they are today, and what might be transferable. The way Germany is branded as a nation carries across into the branding of its companies and services, particularly the global superstar brands - truly world-class in size, performance and reputation. Just as important are the medium-sized and small enterprises, known as the 'Mittelstand'. These innovative and successful enterprises from a wide range of industries and product / service categories are amongst the World market leaders in their own niche and play a huge part in making Germany what it is today. The book also focuses on German industrial entrepreneurship and a selection of innovative and emergent stars. All these companies are supported and encouraged by a sophisticated infrastructure of facilitators, influencers and enhancers - the research, industry, trade and standards organizations, the fairs and exhibitions and all the social and cultural factors that influence, enhance and add positive value to the country's image. Professionals or academics interested in business; entrepreneurship; branding and marketing; product or service development; international trade and business development policy, will find fascinating insights in this book; while those with an interest in Germany from emerging industrial economies will learn something of the secrets of German success.

La imagen de Andalucía en los informativos de televisión en España Fernando C. Ruiz Morales, 2007 El trabajo que firma Ruiz Morales versa sobre la imagen que propagan a diario a millones de telespectadores los informativos del mediodía de más audiencia: Antena 3, Telecinco y TVE1. Su orientación es ante todo descriptiva a partir de lo observado en una veintena de dichos telediarios, para a partir de la constatación y el recuento de las noticias que tienen que ver con Andalucía llegar a una serie de conclusiones, la principal de las cuales no es otra que la imagen que se vierte a diario sigue en un alto porcentaje anclada en el tópico del ser andaluz. Otra conclusión evidente es que Andalucía está subrepresentada en los noticiarios pese a su peso específico en el conjunto del Estado español, reduciéndose su presencia a noticias deportivas, de sucesos o a aquéllas que redundan en la gracia que se le presupone a los andaluces. Por el contrario, escasean o son silenciadas las de carácter político (dando la sensación de que no hay liderazgo político en la comunidad), las económicas y en ocasiones hasta las culturales.
