Red Alert Peter Bryant,1958 Red Alert is a 1958 novel by Peter George about nuclear war. The book was the basis for Stanley Kubrick's film, Dr. Strangelove or: How I Learned to Stop Worrying and Love the Bomb. Kubrick's film differs significantly from the novel in that it is a comedy. Originally published in the UK as Two Hours to Doom - with George using the pseudonym 'Peter Bryant' - the novel deals with the apocalyptic threat of nuclear war and the almost absurd ease with which it can be triggered.--Wikipedia

From the New Deal to the War on Schools Daniel S. Moak,2022-05-10 In an era defined by political polarization, both major U.S. parties have come to share a remarkably similar understanding of the education system as well as a set of punitive strategies for fixing it. Combining an intellectual history of social policy with a sweeping history of the educational system, Daniel S. Moak looks beyond the rise of neoliberalism to find the origin of today's education woes in Great Society reforms. In the wake of World War II, a coalition of thinkers gained dominance in U.S. policymaking. They identified educational opportunity as the ideal means of addressing racial and economic inequality by incorporating individuals into a free market economy. The passage of the Elementary and Secondary Education Act (ESEA) in 1965 secured an expansive federal commitment to this goal. However, when social problems failed to improve, the underlying logic led policymakers to hold schools responsible. Moak documents how a vision of education as a panacea for society's flaws led us to turn away from redistributive economic policies and down the path to market-based reforms, No Child Left Behind, mass school closures, teacher layoffs, and other policies that plague the public education system to this day.

Rap Whoz who Steven Stancell,1996 Rap has been among America's most popular musics for over two decades now. Yet, for most listeners, rappers are mysterious figures, shrouded behind outrageous costumes,

incendiary lyrics, and colorful pseudonyms. Rap Whoz Who identifies rap's major stars, tracing the influences of the pioneering rappers, deejays, promoters, and composers through today's best-known artists, both black and white. It shows how rap as a genre bridges many musical styles, and includes a variety of social and political messages. Rap has been controversial because of its content, but as a musical style it has barely been documented. Rap Whoz Who closes this gap in a thoughtful and colorfully written account of the music and its stars.

Red Alert! Stuart J. Foster,2000 Typically referred to as the «red scare» or «McCarthy» era, the period from 1947 to 1954 proved particularly exacting for educators in America's public schools. Red Alert! details the profound impact that the red scare had on educational policy and practice as well as examines professional educators' cautious response to anti-communist repression. In particular, Red Alert! focuses on the work of the National Education Association's Defense Commission and its singular, and often fruitless, efforts to thwart red scare attack.
