How to Relax Thich Nhat Hanh,2015-09-18 *How to Relax* is part of The Mindfulness Essentials series of how-to titles by Zen Master Thich Nhat Hanh, introducing beginners and reminding seasoned practitioners of the essentials of mindfulness practice. Pocket-sized, with original two color illustrations by Jason DeAntonis, *How to Relax* shows how critical it is to regularly interrupt the hub-bub and routine of our lives to stop, relax mindfully, and recharge. Thich Nhat Hanh says that when we relax, we become calm water, and we will reflect reality as it is. If we're not calm, the image we reflect will be distorted. When the image is distorted by our minds, it's not the reality, and it causes lots of suffering. Relaxation is essential for accessing the tranquility and joy that lead to increased personal well-being. With sections on healing, relief from nonstop thinking, transforming unpleasant sounds, solitude, being peace, and more, *How to Relax* includes meditations you can do to help you achieve the benefits of relaxation no matter where you are. Scientific studies indicate that meditation contributes tremendously to well-being, general health, and longevity. *How to Relax* is a unique gift for those who want a simple guide to achieving deep relaxation, controlling stress, and renewing mental freshness and clarity, appropriate for those practicing in any spiritual tradition, whether seasoned practitioners or new to meditations. With fifteen two color drawings by celebrated artist Jason DeAntonis.

Relax Your Mind Robin McGill,2020-01-25 Do you want to overcome stress at work and home from the first day without spending a dime in therapy, counseling, and consultation? Stress is a menace that affects everyone. Do you think you'll be less affected by it if you didn't know it? This is a misconception that most people have. They believe that only the people who have to see a doctor are suffering from stress. Stress affects all of us because it is our body's natural reaction. The problem begins when this reaction is serious and becomes chronic. More than 110 million Americans are currently affected by prediabetes or diabetes, but most are ignorant about it. Does that make them less susceptible to danger? The same is the case with stress. The overall stress level of American society is much above the acceptable level, and that even includes kids. In reality, a much greater population is currently battling with high stress which is affecting them emotionally, behaviorally, and physiologically. Did you know that stress can have a deep impact on your physical health too? Most people have a very vague knowledge of stress, and they would clearly fail to identify clear signals of stress. This means they might be overlooking their own real health issues as well as the issues faced by their loved ones. This book will help you in understanding The real depth and penetration of stress Types of stress and how it matters to us Impact of stress on our body, mental, and emotional health as well as behavior The real terms in which you need to identify stressors Ways in which you can bring down stress at the workplace Ways in which you can bring down stress in your personal life Ways in which you can deal with your mind causing the stress More importantly, ways to deal with unchangeable stressors Techniques like meditation, visualization, mindfulness, and goal setting that can help in bring down stress And much more....

Calm Sally Denning,2021-10-12 In recent times, many of us have spent more time at home than ever before. Creating a home that instills a sense of calm will cocoon and protect us from the outside world, create a sense of wellbeing and make us feel truly nurtured. Calm will help you create a restful, restorative interior that draws you in and makes your shoulders drop the moment you walk through the door. Sally Denning first explores the essential foundations of a tranquil, comforting home: calming and harmonious colours, textiles, pattern, lighting and decorative elements. She goes on to explore a mix of accessible real-life homes, ranging from city homes to country houses, new builds, flats/apartments, beach houses and more. The spaces may be different, but they all share one thing: a timeless, soothing and restful atmosphere that is a pleasure to come home to.

My Year of Rest and Relaxation Ottessa Moshfegh,2019-06-25 Named a Best Book of the Year by The Washington Post, Time, NPR, Amazon,Vice, Bustle, The New York Times, The Guardian, Kirkus Reviews, Entertainment Weekly, The AV Club, & Audible A New York Times Bestseller “One of the most compelling protagonists modern fiction has offered in years: a loopy, quietly furious pillhead whose Ambien ramblings and Xanaxed b*tcheries somehow wend their way through sad and funny and strange toward something genuinely profound.” — Entertainment Weekly “Darkly hilarious . . . [Moshfegh’s] the kind of provocateur who makes you laugh out loud while drawing blood.” —Vogue From one of our boldest, most celebrated new literary voices, a novel about a young woman's efforts to duck the ills of the world by embarking on an extended hibernation with the help of one of the worst psychiatrists in the annals of literature and the battery of medicines she prescribes. Our narrator should be happy, shouldn't she? She's young, thin, pretty, a recent Columbia graduate, works an easy job at a hip art gallery, lives in an apartment on the Upper East Side of Manhattan paid for, like the rest of her needs, by her inheritance. But there is a dark and vacuous hole in her heart, and it isn't just the loss of her parents, or the way her Wall Street boyfriend treats her, or her sadomasochistic relationship with her best friend, Reva. It's the year 2000 in a city aglitter with wealth and possibility; what could be so terribly wrong? *My Year of Rest and Relaxation* is a powerful answer to that question. Through the story of a year spent under the influence of a truly mad combination of drugs designed to heal our heroine from her alienation from this world, Moshfegh shows us how reasonable, even necessary, alienation can be. Both tender and blackly funny, merciless and compassionate, it is a showcase for the gifts of one of our major writers working at the height of her powers.
