Cocodrilos en el diccionario Instituto Cervantes, AA. VV., 2016-11-29 La lengua española está en constante proceso de cambio: usos nuevos o que hoy se consideran impropios terminarán siendo mayoritariamente aceptados y formando parte de la norma. Los cambios surgen como usos impropios que se ponen de moda en el habla de la calle, entre los políticos o en el lenguaje de los medios de comunicación. Unas veces pasan como simples modas, pero otras ganan aceptación y terminan formando parte de la lengua y siendo aceptados por la Academia (casos como las tan criticadas almóndiga, vagamundo o madalena). También el lenguaje de los jóvenes es muy rico en estos neologismos. Si bien la mayoría son perecederos, algunos son verdaderos aciertos que calan en el habla general y pasan a formar parte del vocabulario común.

**More News Is Good News: 25 Years of NDTV** NDTV, 2016-06-28 Television news in India in the 1980s meant Doordarshan till NDTV came along and changed things forever. Beginning with a half-hour show on Doordarshan, *The World This Week*, in 1988, NDTV went from strength to strength. In 1995, it aired India's first-ever private news broadcast, with Prannoy Roy's announcement - 'It's eight o'clock and this is The News Tonight coming to you live' - marking a paradigm shift in news media in the country. It then went on to become an independent broadcaster in 2003. For over twenty-five years, the name NDTV has been synonymous with news and credible reporting in India. It is a pioneer in Indian TV journalism, breaking new ground and creating a whole industry. *More News Is Good News* records this phenomenal journey through the experiences of reporters, anchors, editors, camerapersons and producers, many of whom are now household names, including Prannoy Roy, Vikram Chandra, Ravish Kumar, Barkha Dutt, Sonia Singh, Sreenivasan Jain, Vishnu Som, Nidhi Razdan, Maya Mirchandani, Rajdeep Sardesai and Shekhar Gupta, among others. In the process, it provides a ringside view of the unshackling of the economy and the media, the dilemmas involved in reporting wars and natural disasters, the frontlines and the fault lines that defined the country, news coverage that morphed into nationwide public campaigns and altered the way we respond to the world around us. In the telling of these stories which reflect the countless realities of a changing nation, *More News Is Good News* also charts the fascinating evolution of news television in independent India over a quarter century.

**Making News, Breaking News** Padgaonkar, Latika, 2012 *Making News, Breaking News, Her Own Way* is about the lives and work of some of the most outstanding women journalists of our time who redefined and gave a whole new meaning to what constitutes news, in terms of values and themes. The groundbreaking work done by these journalists won them the prestigious Chameli Devi Jain Award for Outstanding Women Mediaperson, and like Chameli Devi Jain, a simple housewife who joined the freedom struggle in Delhi, they too exemplify values of independence, courage and dedication. From across the north, south, east and west of India, in different languages, these intrepid women have exposed corruption, child labour and caste massacres, uncovered financial scams, fought against atrocities committed against women, championed human rights and celebrated when their stories have been catalysts for change.

Ilekṛōṇika mīḍiyā kī cunautiyām, 2010 Contributed articles on electronic media and information technology about television broadcasting news by various news readers on various news channels; includes articles by some media experts from India.

*Cyberliteracy* Laura J. Gurak, 2008-10-01 divThe Internet has changed our social spaces, our political and social realities, our use of language, and the way we communicate, all with breathtaking speed. Almost everyone who deals with the Internet and the new world of cyberspace communication at times feels bewildered, dismayed, or even infuriated. In this clear and helpful book, computer communications scholar Laura J. Gurak takes a close look at the critical issues of online communication and discusses how to become literate in the new mass medium of our era. In cyberspace, Gurak shows us, literacy means much more than knowing how to read. Cyberliteracy means being able to sort fact from fiction, to detect extremism from reasonable debate, and to identify gender bias, commercialism, imitation, parody, and other aspects of written language that are problematic in online communication. Active reading skills are essential in cyberspace, where hoaxes abound, advertising masquerades as product information, privacy is often compromised, and web pages and e-mail messages distort the truth. Gurak analyzes the new language of the Internet, explaining how to prepare for its discourse and protect oneself from its hazards. This book will appeal to anyone with an interest in the impact of the Internet on the practices of reading and writing and on our culture in general./DIV

**Cultivated vegetables of the world: a multilingual onomasticon** Stanley J. Kays, 2011-10-03 Vegetables make up a major portion of the diet of humans and are critical for good health. With the world population predicted to reach 9 billion people by 2050, they will play an increasingly important role in food availability. The purpose of this book is to facilitate accuracy in communication among individuals working in agriculture and a better understanding of the extent and diversity of vegetable production and utilization worldwide. Increasing global economic interdependence and trade in agricultural products makes precise communication among individuals utilizing different languages essential. There is currently a wide range of vegetables shipped around the world as seasonal, economic and other forces are shifting markets from exclusively local toward global. The text provides up-to-date scientific names, synonyms, and common names for the commercially cultivated vegetable crops grown worldwide (404 crops), in addition to information on the plant parts utilized and their method of preparation. Common names from 370 languages are presented along with information on each of the languages. The text represents an essential reference source with the information presented in a concise and readily accessible format. It allows identifying a crop from the common name in a diverse cross-section of languages and is therefore of use to university and government researchers, libraries worldwide, agricultural organizations, agricultural scientists, embassies,

international travelers, vegetable growers, shippers, packers, produce buyers, grocery store managers, gourmet restaurants, chefs, and gardeners.

**Tirant Lo Blanc** Joanot Martorell,2013-09-04 Translated by David H. Rosenthal Here is a recovered Renaissance classic, a Catalan novel of chivalry done into English for the first time by a gifted poet and translator. Cervantes singles out Tirant lo Blanc for very special praise in Don Quixote—in the scene in which the don’s friends, eager to save his sanity, are making a bonfire of the romances of chivalry which have constituted his sole intellectual and spiritual nourishments. Cervantes makes a pointed exception of this work, putting into the mouth of a character the suggestion that the book deserves to remain in print throughout the ages. So it has—and now it can be read in David H. Rosenthal’s lively English. Tirant lo Blanc presents the life of the Renaissance nobility: politics, lovemaking, and war. The hero participates in all these activities with a great deal of dash and good humor, there is much excellent conversation along the way, and by the time the story has come to its satisfying conclusion, the modern reader is convinced that life was quite as complex 500 years ago as it is today—and, for the European nobility, perhaps a good deal more entertaining.
