First History of Sacramento City John Morse,2018-03 Commemorative Edition: Reprint of Original 1853

**Sacramento** Steven M. Avella,2003-09-10 Born of a country's collective desire for riches, Sacramento was resolute in its survival while other Gold Rush towns faded into history. It battled catastrophic fires, floods, and epidemics to become the original western hub and laid claim to the capital of a state that would one day have the world's fifth largest economy. The community's flourishing growth is not just a product of its economic viability, but a direct result of the cultural vibrance and fortitude of a diverse populace that remains the backbone of our country's most dynamic state.

River City and Valley Life Christopher J. Castaneda, Lee M. A. Simpson,2013-12-09 Often referred to as “the Big Tomato,” Sacramento is a city whose makeup is significantly more complex than its agriculture-based sobriquet implies. In *River City and Valley Life*, seventeen contributors reveal the major transformations to the natural and built environment that have shaped Sacramento and its suburbs, residents, politics, and economics throughout its history. The site that would become Sacramento was settled in 1839, when Johann Augustus Sutter attempted to convert his Mexican land grant into New Helvetia (or “New Switzerland”). It was at Sutter’s sawmill fifty miles to the east that gold was first discovered, leading to the California Gold Rush of 1849. Nearly overnight, Sacramento became a boomtown, and cityhood followed in 1850. Ideally situated at the confluence of the American and Sacramento Rivers, the city was connected by waterway to San Francisco and the surrounding region. Combined with the area’s warm and sunny climate, the rivers provided the necessary water supply for agriculture to flourish. The devastation wrought by floods and cholera, however, took a huge toll on early populations and led to the construction of an extensive levee system that raised the downtown street level to combat flooding. Great fortune came when local entrepreneurs built the Central Pacific Railroad, and in 1869 it connected with the Union Pacific Railroad to form the first transcontinental passage. Sacramento soon became an industrial hub and major food-processing center. By 1879, it was named the state capital and seat of government. In the twentieth century, the Sacramento area benefitted from the federal government’s major investment in the construction and operation of three military bases and other regional public works projects. Rapid suburbanization followed along with the building of highways, bridges, schools, parks, hydroelectric dams, and the Rancho Seco nuclear power plant, which activists would later shut down. Today, several tribal gaming resorts attract patrons to the area, while “Old Sacramento” revitalizes the original downtown as it celebrates Sacramento’s pioneering past. This environmental history of Sacramento provides a compelling case study of urban and suburban development in California and the American West. As the contributors show, Sacramento has seen its landscape both ravaged and reborn. As blighted

areas, rail yards, and riverfronts have been reclaimed, and parks and green spaces created and expanded, Sacramento's identity continues to evolve. As it moves beyond its Gold Rush, Transcontinental Railroad, and government-town heritage, Sacramento remains a city and region deeply rooted in its natural environment.

**Lower American River** Sacramento Public Library Authority, 2021 Flowing through Sacramento County, the American River has long been a dynamic neighbor to those living along its waters. As the American River flooded, its banks were leveed, and its course was corrected to allow for further settlement and industry. Sacramento, in a feat of civic engagement, raised its business district above the floodplain, echoing the earthen mounds the Nisenan people used to raise their homes. Massive dredgers tore the riverbed in search of California's famous mineral. Railroad tracks, and later roads, were built to accommodate for more and more people living along its banks. The American River pressed those banks, but the residents of the Sacramento Valley persisted and created a vibrant capital for one of the world's largest economies.

**Old Sacramento and Downtown** , 2006 The discovery of gold launched a rush of humanity to California's Sierra foothills and many of those miners and minerals flowed into a settlement that grew where the American and Sacramento Rivers meet. Today downtown and Old Sacramento, a 28-acre state historic district, are thriving, graced by such treasures as the restored State Capitol Building, the art deco Tower Bridge, and scores of historic structures and attractions like the Leland Stanford Mansion and the California State Railroad Museum.

**Sacramento City Plan** John Nolen, 1916

**Sacramento's Elmhurst, Tahoe Park and Colonial Heights** , 2008 The Sacramento suburbs known as Elmhurst, Tahoe Park, and Colonial Heights were once home to the California State Fair, the Sacramento County Hospital, and the Sacramento Army Depot. On May 8, 1910, the Central California Traction Company opened interurban passenger service to Colonial Heights, connecting the neighborhoods to the rest of Sacramento. These neighborhoods began to thrive after 1945 as many wartime workers remained in Sacramento and looked for affordable housing. Bounded by Highway 50, Stockton Boulevard, Fruitridge Road, and Florin-Perkins Road, the area today is a mixture of mature housing tracts, a sprawling medical campus, a converted military facility, commercial service centers, and light industrial operations. The area's recent resurgence, led by groups like the Tahoe Park Neighborhood Association and numerous community leaders, has made the district a true success story.
