Growing up with a mother suffering from paranoid schizophrenia and a mostly absent father, Nikki Grimes found herself terrorized by babysitters, shunted from foster family to foster family, and preyed upon by those she trusted. At the age of six, she poured her pain onto a piece of paper late one night - and discovered the magic and impact of writing. For many years, Nikki's notebooks were her most enduring companions. In this accessible and inspiring memoir that will resonate with young readers and adults alike, Nikki shows how the power of those words helped her conquer the hazards - ordinary and extraordinary - of her life.

The Topeka School Ben Lerner,2019-10-01 A NEW YORK TIMES, TIME, GQ, Vulture, and WASHINGTON POST TOP 10 BOOK of the YEAR ONE OF BARACK OBAMA'S FAVOURITE BOOKS OF THE YEAR Finalist for the Los Angeles Times Book Prize, and the National Book Critics Circle Award Shortlisted for the Rathbones Folio Prize Winner of the Hefner Heitz Kansas Book Award From the award-winning author of 10:04 and Leaving the Atocha Station, a tender and expansive family drama set in the American Midwest at the turn of the century, hailed by Maggie Nelson as Ben Lerner's most discerning, ambitious, innovative, and timely novel to date. Adam Gordon is a senior at Topeka High School, class of '97. His mother, Jane, is a famous feminist author; his father, Jonathan, is an expert at getting lost boys to open up. They both work at a psychiatric clinic that has attracted staff and patients from around the world. Adam is a renowned debater, expected to win a national championship before he heads to college. He is one of the cool kids, ready to fight or, better, freestyle about fighting if it keeps his peers from thinking of him as weak. Adam is also one of the seniors who bring the loner Darren Eberheart--who is, unbeknownst to Adam, his father's patient--into the social scene, to disastrous effect. Deftly shifting perspectives and time periods, *The Topeka School* is the story of a family, its struggles and its strengths: Jane's reckoning with the legacy of an abusive father, Jonathan's marital transgressions, the challenge of raising a good son in a culture of toxic masculinity. It is also a riveting prehistory of the present: the collapse of public speech, the trolls and tyrants of the New Right, and the ongoing crisis of identity among white men.

Creative Acts for Curious People Sarah Stein

Greenberg, Stanford d.school, 2021-09-21 WINNER OF THE PORCHLIGHT BUSINESS BOOK AWARD • “A delightful, compelling book that offers a dazzling array of practical, thoughtful exercises designed to spark creativity, help solve problems, foster connection, and make our lives better.”—Gretchen Rubin, New York Times bestselling author and host of the Happier podcast In an era of ambiguous, messy problems—as well as extraordinary opportunities for positive change—it’s vital to have both an inquisitive mind and the ability to act with intention. *Creative Acts for Curious People* is filled with ways to build those skills with resilience, care, and confidence. At Stanford University’s world-renowned Hasso Plattner Institute of Design, aka “the d.school,” students and faculty, experts and seekers bring together diverse perspectives to tackle ambitious projects; this book contains the experiences designed to help them do it. A provocative and highly visual companion, it’s a definitive resource for people who aim to draw on their curiosity and creativity in the face of uncertainty. Teeming with ideas about discovery, learning, and leading the way through unknown creative territory, *Creative Acts for Curious People* includes memorable stories and more than eighty innovative exercises. Curated by executive director Sarah Stein Greenberg, after being honed in the classrooms of the d.school, these exercises originated in some of the world’s most inventive

and unconventional minds, including those of d.school and IDEO founder David M. Kelley, ReadyMade magazine founder Grace Hawthorne, innovative choreographer Aleta Hayes, Google chief innovation evangelist Frederik G. Pferdt, and many more. To bring fresh approaches to any challenge—world changing or close to home—you can draw on exercises such as Expert Eyes to hone observation skills, How to Talk to Strangers to foster understanding, and Designing Tools for Teams to build creative leadership. The activities are at once lighthearted, surprising, tough, and impactful—and reveal how the hidden dynamics of design can drive more vibrant ways of making, feeling, exploring, experimenting, and collaborating at work and in life. This book will help you develop the behaviors and deepen the mindsets that can turn your curiosity into ideas, and your ideas into action.

The Gifted School Bruce Holsinger, 2020-06-30 INSTANT NATIONAL BESTSELLER Wise and addictive... The Gifted School is the juiciest novel I've read in ages... a suspenseful, laugh-out-loud page-turner and an incisive inspection of privilege, race and class. —J. Courtney Sullivan, author of Friends and Strangers, in The New York Times Smart and juicy, a compulsively readable novel about a previously happy group of friends and parents that is nearly destroyed by their own competitiveness when an exclusive school for gifted children opens in the community, from the author of The Displacements This deliciously sharp novel captures the relentless ambitions and fears that animate parents and their children in modern America, exploring the conflicts between achievement and potential, talent and privilege. Set in the fictional town of Crystal, Colorado, The Gifted School is a keenly entertaining novel that observes the drama within a community of friends and parents as good intentions and high ambitions collide in a pile-up with long-held secrets and lies. Seen through the lens of four families who've been a part of one another's lives since their kids were born over a decade ago, the story reveals not only the lengths that some adults are willing to go to get ahead, but the effect on the group's

children, sibling relationships, marriages, and careers, as simmering resentments come to a boil and long-buried, explosive secrets surface and detonate. It's a humorous, keenly observed, timely take on ambitious parents, willful kids, and the pursuit of prestige, no matter the cost.

Back to School Michael Anthony Rose, 2012 Shines a light on institutions that are teaching students, young and old, how to rebuild our economy and put America back to work (President Bill Clinton). It's a statistic that's sure to surprise: Close to forty-five percent of postsecondary students in the United States today did not enroll in college directly out of high school, and many attend only part-time. Following a tradition of self-improvement as old as the Republic, the nontraditional college student is becoming the norm. Back to School is the first book to look at the schools that serve a growing population of second-chancers, exploring what higher education--in the fullest sense of the term--can offer our rapidly changing society and why it is so critical to support the

institutions that make it possible for millions of Americans to better their lot in life. In the anecdotal style of his bestselling *Possible Lives*, Mike Rose crafts rich and moving vignettes of people in tough circumstances who find their way, who get a second . . . or third . . . or even fourth chance, and who, in a surprising number of cases, reinvent themselves as educated, engaged citizens. Rose reminds us that our nation's economic and civic future rests heavily on the health of the institutions that serve millions of everyday people--not simply the top twenty universities listed in U.S. News and World Report--and paints a vivid picture of the community colleges and adult education programs that give so many a shot at reaching their aspirations. Thoughtful and surprising. --The Washington Post Inspiring stories of older Americans attending secondary schools. --Kirkus Reviews

Stanley takes attendance and reads a story to students Little Woo, Sophie, and Benjamin. Outside, everyone has fun in the garden, and Stanley's lemonade and Hattie's lovely fruit salad are delicious snacks for lunch right before a nice nap. Things get a little messy during art time, though...uh-oh! Accessible text and brightly colored illustrations helpfully convey school routines for toddlers who love equipment, tools, and vehicles. After a hard day at work, Stanley winds down his day with a familiar supper and bath routine that makes this series a great pick for bedtime reading! William Bee's beloved Stanley series is a trusted model for basic preschool concepts like colors and shapes, kindness and teamwork, jobs and daily routines. School's First Day of School Adam Rex, Christian Robinson, 2016-06-28 It's the first day of school at Frederick Douglass Elementary and everyone's just a little bit nervous,

especially the school itself. What will the children do once they come? Will they like the school? Will they be nice to him? The school has a rough start, but as the day goes on, he soon recovers when he sees that he's not the only one going through first-day jitters.

Freedom's School Lesa Cline-Ransome, 2016-08-04 When Lizzie's parents are granted their freedom from slavery, Mama says its time for Lizzie and her brother Paul to go to a real school-- a new one, built just for them. Lizzie can't wait. The scraps of learning she has picked up here and there have just made her hungry for more. The walk to school is long. Some days it's rainy, or windy, or freezing cold. Sometimes there are dangers lurking along the way, like angry white folks with rocks, or mysterious men on horseback. The schoolhouse is still unpainted, and its very plain, but Lizzie has never seen a prettier sight. Except for maybe the teacher, Mizz Howard, who has brown skin, just like her. They've finally made it to Freedom's School. But will it be strong enough to stand forever? Praise for *Light in the Darkness* In this tale, [Cline-Ransome] makes the point that learning was not just a dream of a few famous and accomplished men and women, but one that belonged to ordinary folk willing to risk their lives. Ransome's full-page watercolor paintings-in beautiful shades of blue for the night and yellow for the day-are a window, albeit somewhat gentle, into a slave's life for younger readers. A compelling story about those willing to risk [a] lash for each letter. -Kirkus Reviews Told from the perspective of Rosa, a girl who makes the dangerous nighttime journey to the lessons with her mother, the story effectively conveys the urgent dedication of the characters to their surreptitious schooling and their belief in the power of literacy...Solid text and soft, skillful illustrations combine for a poignant tribute to the power of education and the human spirit.-School Library Journal

Doing School Denise Clark Pope, 2008-10-01 This book offers a

highly revealing and troubling view of today's high school students and the ways they pursue high grades and success. Denise Pope, veteran teacher and curriculum expert, follows five motivated and successful students through a school year, closely shadowing them and engaging them in lengthy reflections on their school experiences. What emerges is a double-sided picture of school success. On the one hand, these students work hard in school, participate in extracurricular activities, serve their communities, earn awards and honours, and appear to uphold school values. But on the other hand, they feel that in order to get ahead they must compromise their values and manipulate the system by scheming, lying, and cheating. In short, they do school, that is, they are not really engaged with learning nor can they commit to such values as integrity and community. The words and actions of these five students - two boys and three girls from diverse ethnic and socioeconomic backgrounds - underscore the frustrations of being caught in a grade trap that pins future success to high grades and test scores. Their stories raise critical questions that are too important for parents, educators, and community leaders to ignore. Are schools cultivating an environment that promotes intellectual curiosity, cooperation, and integrity? Or are they fostering anxiety, deception, and hostility? Do today's schools inadvertently impede the very values they claim to embrace? Is the success that current assessment practices measure the kind of success we want for our children?
