Latin Embedded Clauses Lieven Danckaert, 2012-04-18 This monograph is one of the first studies that approaches Latin syntax from a formal perspective, combining detailed corpus-based description with formal theoretical analysis. The empirical focus is word order in embedded clauses, with special attention to clauses in which one or more constituents surface to the left of a subordinating conjunction. It is proposed that two such types of left peripheral fronting should be distinguished. The proposed analyses shed light not only on the clausal left periphery, but also on the overall structure of the Latin clause. The study is couched in the framework of generative grammar, but since a thorough introduction is provided, no special background in formal syntax is required. Major topics touched upon are word order, information structure, locality, and the syntax of pied-piping. The book covers both synchronic and diachronic topics of Latin syntax, and is of interest for classical philologists, historical linguists, and formal syntacticians.

The text presents a logical, building block approach to determining purpose, finding meaning in sources, validating sources, discovering context and connections in sources, drawing inferences, and critiquing sources. As writers work on their major project, they use their own sources to write three short intermediate papers.

Battle for Hearts and Minds Tarn How Tan, Arun Mahizhnan, Peng Hwa Ang, 2015-08-28 The Singapore 2011 General Election was dubbed by some as the first Internet election. How far is this true and to what extent did old and new media influence voting behaviour and political participation? What was the role of Facebook, Twitter, party political websites, political discussion and the alternative and conflicting information offered online? What theoretical insights can be gleaned about media and its use by voters? This edited volume provides an in-depth analysis of these questions through a first-ever survey of media use, political traits, political participation and attitudes towards media, and through experiments, content analysis and interviews. This landmark collection of essays also lays the groundwork for understanding future elections, including the next general election. It also serves as a valuable record of the state of affairs on the ground in the rapidly shifting dynamics of a Singapore political landscape that is undergoing dramatic and unprecedented transformation.
