Liberty Gaither

Ed Bacon Gregory L. Heller,2013-04-26 Ed Bacon is the first biography of the innovative and controversial urban planner who transformed Philadelphia in the mid-twentieth century.

The Hub's Metropolis James C. O'Connell,2022-06-07 The evolution of the Boston metropolitan area, from country villages and streetcar suburbs to exurban sprawl and “smart growth.” Boston's metropolitan landscape has been two hundred years in the making. From its proto-suburban village centers of 1800 to its far-flung, automobile-centric exurbs of today, Boston has been a national pacesetter for suburbanization. In The Hub's Metropolis, James O'Connell charts the evolution of Boston's suburban development. The city of Boston is compact and consolidated—famously, “the Hub.” Greater Boston, however, stretches over 1,736 square miles and ranks as the world's sixth largest metropolitan area. Boston suburbs began to develop after 1820, when wealthy city dwellers built country estates that were just a short carriage ride away from their homes in the city. Then, as transportation became more efficient and affordable, the map of the suburbs expanded. The Metropolitan Park Commission's park-and-parkway system, developed in the 1890s, created a template

for suburbanization that represents the country's first example of regional planning. O'Connell identifies nine layers of Boston's suburban development, each of which has left its imprint on the landscape: traditional villages; country retreats; railroad suburbs; streetcar suburbs (the first electric streetcar boulevard, Beacon Street in Brookline, was designed by Frederic Law Olmsted); parkway suburbs, which emphasized public greenspace but also encouraged commuting by automobile; mill towns, with housing for workers; upscale and middle-class suburbs accessible by outer-belt highways like Route 128; exurban, McMansion-dotted sprawl; and smart growth. Still a pacesetter, Greater Boston has pioneered antisprawl initiatives that encourage compact, mixed-use development in existing neighborhoods near railroad and transit stations. O'Connell reminds us that these nine layers of suburban infrastructure are still woven into the fabric of the metropolis. Each chapter suggests sites to visit, from Waltham country estates to Cambridge triple-deckers.

Shopping Tourism, Retailing and Leisure Dallen J.

Timothy, 2005-03-14 *Shopping Tourism, Retailing and Leisure* provides a comprehensive examination of the relationships between tourism, leisure, shopping, and retailing. Critical issues are

examined within the framework of the dichotomous relationship between utilitarian and hedonic forms of shopping, shopping as a primary and secondary attraction in tourist destinations, the development of various tourist-retail venues, the role of souvenirs in tourism, and management issues (e.g. merchandising, venue design, and customer service).

Special Interest Tourism Sheela Agarwal, Graham Busby, Rong Huang, 2018-01-24 Special interest tourism is growing rapidly due to a discerning and heterogeneous travel market and the demand for more focused activity or interest-based tourism experiences. This book approaches the topic from the perspective of both supply and demand, and addresses the complexities now inherent in this area of tourism. It presents a contextualised overview of contemporary academic research, concepts, principles and industry-based practice insights, and also considers the future of special interest tourism in light of the emergence of ethical consumerism. Sometimes referred to as niche or contemporary tourism, this book provides a complete introduction to the study of special interest tourism for students.

How to Raise an Antiracist Ibram X. Kendi, 2023-06-06 NEW YORK TIMES BESTSELLER • The book that every parent, caregiver, and teacher needs to raise the next generation of antiracist thinkers, from the author of *How to Be an Antiracist* and recipient of the MacArthur “Genius” Grant. “Kendi’s latest . . . combines his personal experience as a parent with his scholarly expertise in showing how racism affects every step of a child’s life. . . . Like all his books, this one is accessible to everyone regardless of race or class.”—Los Angeles Times (Book Club Pick)

ONE OF THE BEST BOOKS OF THE YEAR: PopSugar The tragedies and reckonings around racism that are rocking the country have created a specific crisis for parents, educators, and other caregivers: How do we talk to our children about racism? How do we teach children to be antiracist? How are kids at different ages experiencing race? How are racist structures impacting children? How can we inspire our children to avoid our mistakes, to be better, to make the world better? These are the questions Ibram X. Kendi found himself avoiding as he anticipated the birth of his first child. Like most parents or parents-to-be, he felt the reflex to not talk to his child about racism, which he feared would stain her innocence and steal away her joy. But research

and experience changed his mind, and he realized that raising his child to be antiracist would actually protect his child, and preserve her innocence and joy. He realized that teaching students about the reality of racism and the myth of race provides a protective education in our diverse and unequal world. He realized that building antiracist societies safeguards all children from the harms of racism. Following the accessible genre of his internationally bestselling *How to Be an Antiracist*, Kendi combines a century of scientific research with a vulnerable and compelling personal narrative of his own journey as a parent and as a child in school. The chapters follow the stages of child development from pregnancy to toddler to schoolkid to teenager. It is never too early or late to start raising young people to be antiracist.

Time Out Hong Kong Editors of Time Out, 2011-11-08 Often called the most breathtaking city in the world, Hong Kong has something for every traveler. Time Out Hong Kong is the perfect companion for navigating this overwhelming metropolis that expects over 20 million travelers to visit the duty-free port this year. The experts at Time Out help travelers navigate through this shopper's fantasy, from the old-world markets and bazaars to designer boutiques including how to buy jade. Time Out food

mavens helps travelers sort through the offerings of over 9,000 restaurants and the art of yum cha(drinking tea). The guide includes suggested itineraries for visits anywhere between one and five days, as well as side-trips to Macau, the buzzing boomtown of Guangzhou, and beaches and museums that are an hour by ferry.

Urban Tourism in the Global South Christian M.

Rogerson, Jayne M. Rogerson, 2021-07-13 This book examines and addresses the particular character of urban tourism occurring in the global South. It presents research essays on tourism in urban areas of South Africa, a country which is associated with big 5 nature tourism but where urban areas are also major tourism destinations. The book contextualizes urban tourism in South Africa as part of 'the other half of urban tourism', an overlooked but energetic scholarship which is emerging on urban places in the global South. The volume moves to present a collection of original material variously on national perspectives on urban tourism following by a cluster of city level perspectives. The last three contributions turn to the role of tourism in small towns, the bottom rung in the urban settlement system. Issues of concern include gastronomic tourism, VFR travel, airportscapes, climate change, AirBnb and creative tourism. Finally, as COVID-19 is potentially a

defining historical moment for urban tourism, the volume incorporates historical research perspectives in order to address the overwhelming ‘present-mindedness’ of mainstream urban tourism writings. The book highlights the challenges and opportunities for tourism development in the environment of the urban global South and is relevant to scholars of both tourism and urban studies as well as researchers in development studies.

Services Marketing: Text and Cases, 2/e Harsh V.

Verma,2011 The second edition of Services Marketing: Text and Cases takes a leap forward to develop a strategic perspective to the service marketing framework. This edition begins with an initiation into the field of services and then develops an appreciation of the service marketing system and includes five additional chapters. The focus is then directed at service strategy and the creation of sustainable differentiation. The book finally discusses the management of operational issues such as quality, demand matching, recovery and empowerment.

Amplifying Management Research for the Common Good

Robert H. Tiell,S. Charles Malka,2024-03-01 How can management research promote a more applicable and a more transparent

knowledge for the benefit of individuals and organizations?

Looming large over this question is the challenge of repurposing management research for improving public good. Co-edited by R. H. Tiell and S. C. Malka, the title of the book says it all - Amplifying management research for the common good: Lessons for curious individuals and organizations - Insights from practitioners in the field. In this book, we sought to bridge the chasm that separates the non-academic audience from the typically less-accessible scientific journals. We attempted to make empirical evidence more inclusive, impactful and public good relevant for the non-academic stakeholders that live and work in the broader community. For that purpose, we made available to the reader and to our chapter contributors a collection of published papers, some authored by the editors of this book, and others co-authored with other researchers. The papers cover a diverse set of business topics all of which we believe hold much relevance for management today. Providing the reader with their insights on subject matter along with lessons and practical recommendations, we sought experts in the field that can build on empirical research in various areas of management and then synthesize and broaden it through their expertise and work experience. As a trigger, we aligned each contributor with one or

two empirical papers based on their background, interests, and professional experience. Using the assigned papers as a springboard, we asked each author to identify emerging themes around which they can build their chapter. We wanted them to think of the book audience: non-academicians comprised of interested and curious individuals, managers, and their organizations. And, we wanted our authors to elaborate on practical lessons, suggestions, and recommendations that can make a difference in the lives of the book audience. Our effort resulted in a collection of chapters covering a wide range of topics from supply chain challenges in Central America, to life changing long-term effects of the pandemic, from delivery of services for mental health and suicide, to logistics capabilities pre-post Ivan in the Cayman Islands, from the new workplace, to labor market shortages, and from new workforce service pathways, and the optimization of talent, to the impact of recent recessions on the youth and the unemployed, and the assessment of C-suit level leaders. We would like to believe that the breadth of the topics covered and the amount of information being disseminated through the book chapters are meaningful, practical, and relevant to a wide audience of curious readers. ENDORSEMENTS I highly

recommend “Amplifying Management Research for the Common Good” to anyone interested in shaping the workplace of the future. Written by a team of experts, this book provides a compelling argument for why free and open access to research is essential for improving workforce outcomes. The authors explore how the current paywall system limits the dissemination of critical research findings and prevents practitioners and policymakers from accessing the latest insights and innovations. As we exit a global pandemic and enter a re-shaping of the world of work the nation’s talent development ecosystem must innovate and scale to the need. By advocating for open access to research, the authors advance the forming of a more effective and equitable workforce development system. This book is a must-read for anyone looking to contribute to that cause. — Rick Maher, Adaptive Human Capital

Someone once observed that a crisis is a horrible thing to waste. The essence of this advice is that a crisis will always have the potential for the wise and curious to draw lessons and extract prescriptions. Tiell and Malka have produced a book reflecting not only their curiosity and wisdom, but also their desire to help all who follow their prescriptions. The Covid-19 pandemic was a life altering crisis. We should be thankful that they have not “wasted”

the crisis, thus helping us improve our personal and professional lives. — Lyle Sussman, University of Louisville

Employers and employees have experienced an amazing number of challenges and new opportunities during the past 3 years. Pre-Pandemic employers' challenges were primarily focused on low unemployment, managing wages and uncertainty for their future workforce. Employees were primarily working 9 to 5, in an office building or manufacturing facility and possibly thinking about their futures. As our society moves toward a Post-Pandemic work environment, employers have the same Pre-Pandemic challenges, but with a workforce that has shrunk faster than anticipated and have adjusted their priorities of work/life balance and workplace preferences. Whether your responsibilities involve Supply Chain, Production, Logistics, Accounting, Finance, Training/Education, Hiring/Retaining/Firing personnel or you simply are seeking to pursue career and professional growth. Everyone has likely experienced some amount of workplace change during the past several years. The insights and perspectives shared by each author in this book are reminders of the complex business challenges employers face today and will continue to face in the foreseeable future. Thank you for compiling and sharing these

insights and perspectives! — Michael Wolf, PrideStaff Louisville

Alternative Fashion Capitals Liberty Gaither, 2021-11-04 If you are even mildly curious about the fashion industry and its inner workings, then you've heard of the concept of "fashion capitals". You've probably heard that there are four of them: New York, London, Milan, and Paris. These cities are supposedly the ultimate authority of everything fashion-related. But isn't it unreasonable to consider, on a planet of almost 8 billion people, that only four large cities hold the keys to an entire industry in which everyone has to take part at some level? Yes, it is. This is part of the underpinning of what inspired Manic Metallic to create an entire series on what we call "alternative fashion capitals". We define alternative fashion capitals as "any major city across the world with an infrastructure that actively supports those in the fashion industry"; we included twenty cities that we believe have strong foundations for those wishing to enter fashion. We count the following as necessary components that make up a fashion infrastructure: Shopping Districts: Neighborhoods and/or major streets that house a critical mass of entities such as boutiques, concept stores, fashion ateliers, etc. Specific Places To Shop: Boutiques, concept stores, malls, and outdoor markets housed within a given alternative

fashion capital that are both unique and relevant to that specific city

Brands: Fashion designers and/or brands that exist within a given alternative fashion capital and specifically contribute to the betterment of that city's fashion scene

Events: Gatherings such as fashion weeks, festivals, and other similar events that operate specifically for the advancement of that city's fashion industry

Fashion Organizations: Organizations existing in a city that operate with the goal of furthering the development and advancement of that city's fashion industry

Fashion Publications: Media publications - primarily magazines, but not necessarily - that exist inside of an alternative fashion capital and have the purpose of disseminating fashion ideas, news, editorials, etc.

Universities and Colleges: Institutions of higher learning that grant fashion-related degrees to students interested in fashion industry careers.

Inside each of the twenty chapters - with one dedicated to each of the twenty alternative fashion capitals - we outline the offerings that these cities have within each of the aforementioned sections, while leading each chapter off with a brief comment on what the fashion capital is known for within the scope of the industry.

Abraham and Straus Michael J. Lisicky, 2017-11-06 Along with the Dodgers and Prospect Park, the Abraham & Straus department

store was a legendary piece of Brooklyn's history and identity. From Abraham Abraham's modest store of 1865, A&S developed into one of America's largest department stores, eventually becoming a charter member of the powerful Federated Department Stores Corporation in 1929. Known for unparalleled customer and employee loyalty, the stores rode a wave of demographic and economic changes. Today, the former Fulton Street Abraham & Straus operates as a Macy's and remains one of America's last downtown department stores. Author, historian and lecturer Michael J. Lisicky chronicles the rise and fall of Brooklyn's iconic store.

Stalked K. M. Winthrop, 2018-09-26 A Menacing Specter in the Night Temporally confined to a wheelchair, Charlotte Manchester was looking forward to trading New York's ice and snow for a relaxing vacation in sunny Florida. Mark Winsted, her brother's charismatic young assistant, was all she needed to make her holiday complete. But her plans didn't include the deranged intruder, who is terrorizing her brother's family with threats and violence—violence that leads to gruesome ritual murder. Despite her disability, Charlotte searches for clues to the stalkers identity. Her efforts become crucial when she realizes the stalker has chosen her to be his next victim.

Ecotourism Economics and Environment Biju Abraham, K

Nagarajan, Alex K Thottunkel, 2016-11-13 In recent years, there is an increasing awareness on the need to sustain the environment and to protect it from the various damages caused by human activities including tourism. Ecotourism is viewed as a panacea to protect the environment from the negative impact of mass tourism and is considered as a sustainable option to bring employment, income and livelihood opportunities for host communities. This book *Ecotourism, Economics and Environment* is a compilation of research papers analyzing the economic, social, cultural and environmental impact of tourism in India. The papers focus on the positive effect ecotourism can bring about in making tourism development environmental friendly and sustainable. In general the essays included in this book covers the theoretical aspects related to ecotourism, with a stress on practical issues from a developing countries standpoint and case studies that highlight the stumbling blocks for migration from mass tourism to ecotourism in a developing nation.

Lead Us Into Temptation James B. Twitchell, 1999-05-06 Coke adds life. Just do it. Yo quiero Taco Bell. We live in a commercial age, awash in a sea of brand names, logos, and advertising jingles—not to mention commodities themselves. Are shoppers merely the unwitting stooges of the greedy producers who will stop at nothing to sell their wares? Are the producers' powers of persuasion so great that resistance is futile? James Twitchell counters this assumption of the used and abused consumer with a witty and unflinching look at commercial culture, starting from the simple observation that we are powerfully attracted to the world of goods (after all, we don't call them 'bads'). He contends that far from being forced upon us against our better judgment, consumerism is our better judgment. Why? Because increasingly, store-bought objects are what hold us together as a society, doing the work of birth, patina, pews, coats of arms, house, and social rank—previously done by religion and bloodline. We immediately understand the connotations of status and identity exemplified by

the Nike swoosh, the Polo pony, the Guess? label, the DKNY logo. The commodity alone is not what we are after; rather, we actively and creatively want that logo and its signification—the social identity it bestows upon us. As Twitchell summarizes, Tell me what you buy, and I will tell what you are and who you want to be. Using elements as disparate as the film *The Jerk*, French theorists, popular bumper stickers, and *Money* magazine to explore the nature and importance of advertising lingo, packaging, fashion, and *The Meaning of Self*, Twitchell overturns one stodgy social myth after another. In the process he reveals the purchase and possession of things to be the self-identifying acts of modern life. Not only does the car you drive tell others who you are, it lets you know as well. The consumption of goods, according to Twitchell, provides us with tangible everyday comforts and with crucial inner security in a seemingly faithless age. That we may find our sense of self through buying material objects is among the chief indictments of contemporary culture. Twitchell, however, sees the significance of shopping. There are no false needs. We buy more than objects, we buy meaning. For many of us, especially in our youth, Things R Us.
