No Fear for Freedom Kimberly P. Johnson,2014 Story about the historic struggle of the Civil Rights Movement in the 1960s during the time of segregation at Rock Hill, S.C. Ten young Black men peaceably entered McCrory's Variety Store and asked to be served at the lunch counter with equal service as Whites. They were arrested in spite of their non-violent protest and sent to prison. Charles Taylor returned to College shortly afterward, and worked to support the efforts of equality. The men who remained and served a longer prison sentence became known as the Friendship 9. They became an inspiration to other Civil Rights advocates and their historic sit-in protest sit-in inspired the Jail, No Bail movement. The Frienship 9 were Robert McCullough, John Gaines, Thomas Gaither, Clarence Graham, S.T. Dub Massey, Willie McCleod, James Wells, David Williamson, Jr., and Mark Workman.

The Day the World Stops Shopping J.B. MacKinnon,2021-05-25 Consuming less is our best strategy for saving the planet—but can we do it? In this thoughtful and surprisingly optimistic book, journalist J. B. MacKinnon investigates how we may achieve a world without shopping. We can't stop shopping. And yet we must. This is the consumer dilemma. The economy says we must always consume more: even the slightest drop in spending leads to widespread unemployment, bankruptcy, and home foreclosure. The planet says we consume too much: in America, we burn the earth's resources at a rate five times faster than it can regenerate. And despite efforts to "green" our consumption—by recycling, increasing energy efficiency, or using solar power—we have yet to see a decline in global carbon emissions. Addressing this paradox head-on, acclaimed journalist J. B. MacKinnon asks, What would really happen if we simply stopped shopping? Is there a way to reduce our consumption to earth-saving levels without triggering economic collapse? At first this question took him around the world, seeking answers from America's big-box stores to the hunter-gatherer cultures of Namibia to communities in Ecuador that consume at an exactly sustainable rate. Then the thought experiment came shockingly true: the coronavirus brought shopping to a halt, and MacKinnon's ideas were tested in real time. Drawing from experts in fields ranging from climate change to economics, MacKinnon investigates how living with less would change our planet, our society, and ourselves. Along the way, he reveals just how much we stand to gain: An investment in our physical and emotional wellness. The pleasure of caring for our possessions. Closer relationships with our natural world and one another. Imaginative and inspiring, *The Day the World Stops Shopping* will embolden you to envision another way.

Shopping with Ding-A-Ling Jewell Ethridge,2011 This book contains a collection of incidents involving shopping with Ding-A-Ling, my mother-in-law. It is not meant to ridicule her, but simply is a recounting of her ways of twisting words and thoughts. She was born with an obvious learning disability. It is difficult for her to find appropriate words and to pronounce them correctly. As a person who was blessed at birth with the ability to manipulate words, I think the good Lord put me with Ding-A-Ling on purpose. My job has been to straighten out the grammatical mistakes she has made; she, however, has viewed this in a different light. I am sure she has always felt that I have been making fun of her. Nothing could be further from the truth; I have only wanted to keep others from ridiculing her. Many people think Ding-A-Ling's mistakes are due to senility. At her age, this could be partially true. I have concluded, however, that deep inside her brain is more intelligence than people give her credit for. Her ability to analyze numbers is phenomenal. It is simply a case of an area of her brain not operating correctly when the manipulation of words is required.

Time Use Research in the Social Sciences Wendy E. Pentland,M. Powell Lawton,Andrew S. Harvey,Mary Ann McColl,1999-05-31 This collection demonstrates the use and variety of applications of time use methodology from multidisciplinary, multinational, and multicultural perspectives. A distinguished roster of contributors from such fields as psychology, occupational therapy, sociology, economics, and architecture examines the complex relationship between human time utilization and health and well-being and evaluates the future of time use analysis as a research tool in the social sciences.

On Manners Karen Stohr,2012-05-22 Many otherwise enlightened people often dismiss etiquette as a trivial subject or—worse yet—as nothing but a disguise for moral hypocrisy or unjust social hierarchies. Such sentiments either mistakenly assume that most manners merely frame the “real issues” of any interpersonal exchange or are the ugly vestiges of outdated, unfair social arrangements. But in *On Manners*, Karen Stohr turns the tables on these easy prejudices, demonstrating that the scope of manners is much broader than most people realize and that manners lead directly to the roots of enduring ethical questions. Stohr suggests that though manners are mostly conventional, they are nevertheless authoritative insofar as they are a primary means by which we express moral attitudes and commitments and carry out important moral goals. Drawing primarily on Aristotle and Kant and with references to a wide range of cultural examples—from Jane Austen's *Pride and Prejudice* to Larry David's *Curb Your Enthusiasm*—the author ultimately concludes that good manners are essential to moral character.

Swipe, Scan, Shop Kate Schaefer,2021-03-11 Successful fashion merchandising, branding and communication start with satisfyingly sensory and interactive shopping experiences. With Kate Schaefer's beautifully illustrated and practical book, learn how retailers create these experiences to connect with shoppers, enhance the retail experience, and achieve brand loyalty. With company highlights from brands such as Amazon Go, FIT:MATCH and Sephora, *Swipe, Scan, Shop* shows how fashion retailers are embracing the omnichannel retail experience, by using virtual and augmented reality, beacon technologies and facial recognition, among others. As shoppers become more dependent on digital devices as part of their shopping experience, visual merchandisers are adapting by incorporating mobile tech to tell a story, alert shoppers of product locations and inventory levels, and allow for the customization of products and sharing with friends. With a companion website that includes resources and links to further information and videos discussed in the book, this practical guide shows how to inform, entice, and engage customers by incorporating social technology throughout the shopping experience.
