Sorting Things Out Geoffrey C. Bowker, Susan Leigh Star, 2000-08-25 A revealing and surprising look at how classification systems can shape both worldviews and social interactions. What do a seventeenth-century mortality table (whose causes of death include fainted in a bath, frightened, and itch); the identification of South Africans during apartheid as European, Asian, colored, or black; and the separation of machine- from hand-washables have in common? All are examples of classification—the scaffolding of information infrastructures. In *Sorting Things Out*, Geoffrey C. Bowker and Susan Leigh Star explore the role of categories and standards in shaping the modern world. In a clear and lively style, they investigate a variety of classification systems, including the International Classification of Diseases, the Nursing Interventions Classification, race classification under apartheid in South Africa, and the classification of viruses and of tuberculosis. The authors emphasize the role of invisibility in the process by which classification orders human interaction. They examine how categories are made and kept invisible, and how people can change this invisibility when necessary. They also explore systems of classification as part of the built information environment. Much as an urban historian would review highway permits and zoning decisions to tell a city's story, the authors review archives of classification design to understand how decisions have been made. *Sorting Things Out* has a moral agenda, for each standard and category valorizes some point of view and silences another. Standards and classifications produce advantage or suffering. Jobs are made and lost; some regions benefit at the expense of others. How these choices are made and how we think about that process are at the moral and political core of this work. The book is an important empirical source for understanding the building of information infrastructures.

Quarterlife Crisis Alexandra Robbins, Abby Wilner, 2001-05-21 While the midlife crisis has been thoroughly explored by experts, there is another landmine period in our adult development, called the quarterlife crisis, which can be just as devastating. When young adults emerge at graduation from almost two decades of schooling, during which each step to take is clearly marked, they encounter an overwhelming number of choices regarding their careers, finances, homes, and social networks. Confronted by an often shattering whirlwind of new responsibilities, new liberties, and new options, they feel helpless, panicked, indecisive, and apprehensive. *Quarterlife Crisis* is the first book to document this phenomenon and offer insightful advice on smoothly navigating the challenging transition from childhood to adulthood, from school to the world beyond. It includes the personal stories of more than one hundred twentysomethings who describe their struggles to carve out personal identities; to cope with their fears of failure; to face making choices rather than avoiding them; and to balance all the demanding aspects of personal and professional life. From What do all my doubts mean? to How do I know if the decisions I'm making are right? this book compellingly addresses the hardest questions facing young adults today.

Games, Diversions & Perl Culture Jon Orwant, 2003-05-22 The Perl Journal (TPJ) did something most print journals aspire to, but few succeed. Within a remarkable short time, TPJ acquired a cult-following and became the voice of the Perl community. Every serious Perl programmer subscribed to it, and every notable Perl guru jumped at the opportunity to write for it. Back issues were swapped like trading cards. No longer in print format, TPJ remains the quintessential spirit of Perl—a publication for and by Perl programmers who see fun and beauty in an admittedly quirky little language. *Games, Diversions, and Perl Culture* is the third volume of *The Best of the Perl Journal*, compiled and re-edited by the original editor and publisher of *The Perl Journal*, Jon Orwant. In this series, we've taken the very best (and still relevant) articles published in TPJ over its 5 years of publication and immortalized them into three volumes. The 47 articles included in this volume are simply some of the best Perl articles ever written on the subjects of games, diversions, and the unique culture of this close-knit community, by some of the best Perl authors and coders. *Games, Diversions & Perl Culture* focuses on entertaining topics that make Perl users such fanatics about the language. You'll find all of the playful features TPJ offered over the years, including the Obfuscated Perl Contests, Perl Quiz Shows, humor articles, and renowned one-line recipes. The book also contains a panoply of quirky applications of Perl, including genetic algorithms, home automation, music programming, and an entire section on natural language processing. This anthology is an unmatched compendium of Perl lore.

I Thought I Heard You Speak Audrey Golden, 2023-05-04 Factory Records has become the stuff of legend. The histories of the label have been told from many perspectives, from visual catalogues and memoirs to exhibitions. Yet no in-depth history has ever been told from the perspectives of the women who were integral to Factory's cultural significance. The untold history of Factory Records is one of women's work at nearly every turn: recording music, playing live gigs, running the label behind the scenes, managing and promoting bands, designing record sleeves, making films and music videos, pioneering sound technology, DJing, and running one of the most chaotic clubs on the planet, The Hacienda. Told entirely in their voices and featuring contributions from Gillian Gilbert, Gina Birch, Cath Carroll, Penny Henry and over fifty more interviewees, *I THOUGHT I HEARD YOU SPEAK* is an oral history that reveals the true cultural reach of the label and its staying power in the twenty-first century.

Being Transgender Dana Jennett Bevan Ph.D., 2016-11-14 Written for general audiences, this unprecedented book comprehensively answers many questions about being transgender with current experiential and scientific information, including the evidence for a biological transgender predisposition. With transgender people visibly achieving fame in entertainment, the literary world,

and other arenas, increasing numbers of transgender people are choosing to publicly announce that they are transgender. All of this has brought transgender people and the associated issues of being transgender into mainstream discourse. The demand for fact-based, scientific information on being transgender has never been higher. Written by a transgender person who is also a physiological psychologist, this book is the first for general readers that explains what is known about transgender causation, what life as a transgendered individual is like, and the science involved in living a transgender life. This book serves to improve understanding of being transgender among general audiences—including transgender readers—by describing the science and experience of being transgender. It supplies an enlightening understanding of what it feels like to be transgender, when it starts, the many paths for living a transgender life, and methods to face challenges such as bullying and rejection. It provides a worldview that transgender people are neither broken nor diseased, but rather that they exhibit transgender behavior because of a biological predisposition for which there is solid scientific evidence.

Rincon Where Spirit Matters Jane Benson,2012-06 What are you doing? Well, I just brought a truckload of Goodwill furniture over to Rincon and I need someone to unload the truck. Why? What? Why all the furniture? We are making an alcohol rehab site, and will make a dormitory with the used furniture. The Rincon property was up on a hill. It had been home to a 1920s starlet, who created an

oasis amidst the orange groves and lemon orchards in the valley. The property was unique in that it was walled, secluded from the outside world; a world that over the many decades had deteriorated into crime, anger, and mania. A rehab joint here? Under the California sun? No being cooped up in a locked building. Speaking of coop, did you want me to take this chair out to the chicken coop? Yup, and sit on it when you get it out there. There are 2 signs on the wall out there I want you to read. It basically means we might be in for a surprise!
