I believe that their purpose is to transmit the knowledge and awareness they have about the topic of space science and technology to young children all across Bharath, inspiring them to dream big. They selected human spaceflight as the topic because, in their opinion, it is the most adventurous “sport” and not accessible to everyone, although all of us have reasons to dream of being one who will fly to space one day.

Spaceplane Fouad Sabry,2022-10-25 What Is Spaceplane A vehicle that is capable of flying and gliding like an airplane while in the atmosphere of Earth and maneuvering like a spacecraft while in space is referred to as a spaceplane. In order to do this, spaceplanes need to include aspects of both aviation and spacecraft into their design. Sub-orbital spaceplanes often resemble fixed-wing aircraft more than orbital spaceplanes do, whereas orbital spaceplanes tend to be more analogous to conventional spacecraft. 101 Drill Team Exercises for Horse and Rider Debbie Kay Sams,Debbie Kay,2009-01-01 Equitation drill teams provide thrilling entertainment at rodeos, horse fairs, and parades. They also participate in competitions that judge timing, originality, speed, uniformity, spacing, overall difficulty, and crowd appeal. Both entertainment and competition require disciplined practice and focused dedication from every member of the team - equine and human. 101 Drill Team Exercises gives riders more than 100 exercises that build the teamwork and good horsemanship skills necessary to every successful team. The exercises progress from basic skill-building drills to fun and challenging synchronized formations, with detailed chapters on circular shapes, linear drills, and daring weaves. Within each chapter the exercises range in difficulty from one diamond (good for beginners) to five diamonds (extremely challenging). Author Debbie Sams concludes the book with 10 complete drills that pull sequences of exercises together into performance routines. From Threads N' Pinwheels, a simple but impressive two-line mirror drill, to Good Vibrations, a sure crowd-pleaser choreographed to the catchy Beach Boys tune, these drills are a good measure of the team's skills, and they're great fun to perform. Following the format of four previous books in Storey's successful and practical Read & Ride series, the two-page full-arena diagrams are designed to be hung from a post and referred to from the saddle. Riders can study the clear step-by-step instructions and detailed diagrams, mount their horses, and perform

the exercise, always able to look back at the open diagram as necessary.
