If I Were an Astronaut Eric Braun,2010 Discusses activities astronauts do while they're in space.

Black in White Space Elijah Anderson,2023-04-05 From the vital voice of Elijah Anderson, *Black in White Space* sheds fresh light on the dire persistence of racial discrimination in our country. A birder strolling in Central Park. A college student lounging on a university quad. Two men sitting in a coffee shop. Perfectly ordinary actions in ordinary settings—and yet, they sparked jarring and inflammatory responses that involved the police and attracted national media coverage. Why? In essence, Elijah Anderson would argue, because these were Black people existing in white spaces. In *Black in White Space*, Anderson brings his immense knowledge and ethnography to bear in this timely study of the racial barriers that are still firmly entrenched in our society at every class level. He focuses in on symbolic racism, a new form of racism in America caused by the stubbornly powerful stereotype of the ghetto embedded in the white imagination, which subconsciously connects all Black people with crime and poverty regardless of their social or economic position. White people typically avoid Black space, but Black people are required to navigate the “white space” as a condition of their existence. From Philadelphia street-corner conversations to Anderson’s own morning jogs through a Cape Cod vacation town, he probes a wealth of experiences to shed new light on how symbolic racism makes all Black people uniquely vulnerable to implicit bias in police stops and racial discrimination in our country. An unwavering truth-teller in our national conversation on race, Anderson has shared intimate and sharp insights into Black life for decades. Vital and eye-opening, *Black in White Space* will be a must-read for anyone hoping to understand the lived realities of Black people and the structural underpinnings of racism in America.

Taking Up Space Alyson Gerber,2021-05-18 From beloved author Alyson Gerber comes another

realistic contemporary novel perfect for fans of Judy Blume. Sarah loves basketball more than anything. Crushing it on the court makes her feel like she matters. And it's the only thing that helps her ignore how much it hurts when her mom forgets to feed her. But lately Sarah can't even play basketball right. She's slower now and missing shots she should be able to make. Her body doesn't feel like it's her own anymore. She's worried that changing herself back to how she used to be is the only way she can take control over what's happening. When Sarah's crush asks her to be partners in a cooking competition, she feels pulled in a million directions. She'll have to dig deep to stand up for what she needs at home, be honest with her best friends, and accept that she doesn't need to change to feel good about herself. Booklist described Gerber's novels in starred reviews as both highly empathetic and truly inspiring. Taking Up Space promises to be a realistic and compelling story about struggling with body image and learning that true self-esteem comes from within.

Lowriders in Space Cathy Camper, 2014-11-01 Lupe Impala, El Chavo Flapjack, and Elirio Malaria love working with cars. You name it, they can fix it. But the team's favorite cars of all are lowriders—cars that hip and hop, dip and drop, go low and slow, bajito y suavequito. The stars align when a contest for the best car around offers a prize of a trunkful of cash—just what the team needs to open their own shop! ¡Ay chihuahua! What will it take to transform a junker into the best car in the universe? Striking, unparalleled art from debut illustrator Raul the Third recalls ballpoint-pen-and-Sharpie desk-drawn doodles, while the story is sketched with Spanish, inked with science facts, and colored with true friendship. With a glossary at the back to provide definitions for Spanish and science terms, this delightful book will educate and entertain in equal measure.

Personal Space Camp Julia Cook, 2007-03-01 Teaching children the concepts of personal space. Louis is back! And this time, he's learning all about personal space. When Louis, the world's self-proclaimed space expert, is invited to Personal Space Camp by the school principal, he soon learns that personal space really isn't about lunar landings, Saturn's rings, or space ice cream. Written with style, wit, and rhythm, Personal Space Camp addresses the complex issue of respect for another person's physical boundaries. Told from Louis' perspective, this story is a must have resource for parents, teachers, and counselors who want to communicate the idea of personal space in a manner that connects with kids.

The Invention of Public Space Mariana Mogilevich, 2020-08-04 The interplay of psychology, design, and politics in experiments with urban open space As suburbanization, racial conflict, and the consequences of urban renewal threatened New York City with “urban crisis,” the administration of Mayor John V. Lindsay (1966–1973) experimented with a broad array of projects in open spaces to affirm the value of city life. Mariana Mogilevich provides a fascinating history of a watershed moment when designers, government administrators, and residents sought to remake the city in the image of a diverse, free, and democratic society. New pedestrian malls, residential plazas, playgrounds in vacant lots, and parks on postindustrial waterfronts promised everyday spaces for play, social interaction, and participation in the life of the city. Whereas designers had long created

urban spaces for a broad amorphous public, Mogilevich demonstrates how political pressures and the influence of the psychological sciences led them to a new conception of public space that included diverse publics and encouraged individual flourishing. Drawing on extensive archival research, site work, interviews, and the analysis of film and photographs, *The Invention of Public Space* considers familiar figures, such as William H. Whyte and Jane Jacobs, in a new light and foregrounds the important work of landscape architects Paul Friedberg and Lawrence Halprin and the architects of New York City's Urban Design Group. *The Invention of Public Space* brings together psychology, politics, and design to uncover a critical moment of transformation in our understanding of city life and reveals the emergence of a concept of public space that remains today a powerful, if unrealized, aspiration.

Negative Space B R Yeager, 2020-03 Like smoke off a collision between Dennis Cooper's *George Miles Cycle* and *Beyond The Black Rainbow*, absorbing the energy of mind control, reincarnation, parallel universes, altered states, school shootings, obsession, suicidal ideation, and so much else, B.R. Yeager's multi-valent voicing of drugged up, occult youth reveals fresh tunnels into the gray space between the body and the spirit, the living and the dead, providing a well-aimed shot in the arm for the world of conceptual contemporary horror. -Blake Butler, author of *Three Hundred Million Ever wonder where teenage children go at night?* Perhaps it's best not knowing the answer. There's something amiss in Kinsfield, a drab, boring city much like your own, except for the teenage suicide epidemic, stagnant, ineffectual parents, cultish behavior that borders on psychosis, and strings, strings everywhere. B.R. Yeager's *Negative Space* is a hypnotic collage of message boards, memes, and ruined bodies twisting at the end of a rope. Most modern novels have lost all concept of magic. B.R. Yeager's *Negative Space* is a stunning refutation of the quotidian. -James Nulick, author of *Haunted Girlfriend & Valencia*
