**Turkish Made Easy - Lower Beginner - Part 1 of 2 - Series 1 of 3** Lingo Wave,2019-06-01 We broke our new series on learning Turkish down into different learning stages. Start with the “Lower Beginner” books followed by the “Beginner” and “Upper Beginner” books. Next, progress to the “Intermediate” series, then test and reinforce your knowledge with the “Conversations” series. Our experienced educators and speakers possess the linguistic

skills to help you understand and speak Turkish clearly. We are very proud to have developed a product that truly helps you learn Turkish quickly and easily, anytime and anywhere. This audiobook is divided into units. While it provides different learning patterns and accommodates various needs, this audiobook focuses on helping you improve your ability to understand, speak, and memorise Turkish. The sample will give you a taste of what you can look forward to. In Unit 1 you will hear Turkish decoded with each syllable spoken very slowly and clearly with repetition. Immediately before each sentence is spoken, you will hear the translation, so you will always understand what is being said. Unit 2 focuses solely on increasing your listening ability, which will improve your abilities to engage in dialogue with a native Turkish speaker. This chapter requires you to listen very carefully to nuances in the language. By Unit 3 you will already notice progress in your abilities to speak and understand Turkish. The spoken translation is followed by two repetitions in Turkish at a completely natural speed. While you are learning to process naturally spoken Turkish, Units 3 and 4 will help you memorise new vocabulary and full sentences. In Unit 5 you can test yourself on how much you have learned. If you are having difficulties, we suggest you revisit the listening, speaking, or memorisation section of Units 1, 2, 3 or 4, according to what you need more help with. We developed our audiobooks to enable you to learn without an eBook. This gives you the opportunity to advance your Turkish language skills anywhere whether you're on the go or waiting around. As the audiobook is neatly arranged into many sub-units, it is also very practical for educators to navigate and use in classrooms or any time sensitive learning environment. Listen and Learn Parallel audio is the key to Lingo Jump's language-learning methodology. Through repetition of clearly pronounced words and phrases at a tempo that's easy to follow, you'll not only find it easier to understand and speak Turkish, you'll also improve your memory, boost your listening skills, and pick up the correct accent. Our speakers follow a specific speech pattern throughout the audiobook, making phrases predictable, and helping you understand words and phrases through context. We keep you solely focused on the language, without any distracting background music. Talk Like a Local We know that not everyone speaks in the same way. Dialects, tempos, and accents can vary among a country's regions, and even among quarters within a city. So when you start, you'll hear our audiobook narrators using different intonations of repeated phrases, slowing them down, speeding them up, and placing emphasis on different parts of the phrases. This helps accelerate your ability to understand and speak the language naturally. Fast, Effortless, and Fun! Lingo Jump's unique parallel audio language learning system combines repetition, different speeds, and predictable speech patterns. Simply listening to the repeated phrases helps you pick up languages by instinct, preparing your brain for a

language's repeated patterns. It's like we're throwing a ball to you in the same way over and over so that soon you can catch it without thinking about it. Perfect for All Levels Lingo Jump is ideal to get beginners speaking a Turkish almost immediately. The parallel audio system also helps intermediate and advanced speakers achieve fluency in a new language. As you progress, the parallel audio system has you repeat phrases at their natural tempo, removing the slower versions. You can put your newly acquired listening and comprehension skills to the test in the final chapters, where you'll listen to the phrases without any parallel audio. This motivating feature helps you track your improvement, and gets you speaking Turkish with confidence. Swift Self-improvement We've designed the first two chapters so that they offer easy immersion. Our speakers break down each word into their distinct syllables and speak slowly. This helps you catch every nuance of the language, making it easier for you to improve your listening and speaking skills all by yourself. Learn Anywhere We've specifically developed our language courses for audio learning, so you can complete other tasks while learning Turkish. You can learn while you are running, working out, walking, driving, or even when you are doing chores. Our parallel audio learning system teaches you wherever you are, without requiring a reference manual.
