Regulated Chemicals Directory 1994 ChemADVISOR
Inc. Staff, 2012-12-06 The Regulated Chemicals
Directory is meant to be a convenient source of
information for everyone who needs to keep up-to-
date regarding the regulations and recommendations
that pertain to chemical substances. The RCDTM is
designed to be the first reference book to consult
when beginning compliance efforts. Every
regulatory or advisory list used in the RCDTM is
keyed to its source, to help readers who need more
detailed information on regulations,
recommendations, or guidelines readily locate
source documents. Some organizations now center
their compliance efforts on computerized
information stored in cross-referenced databases.
A unique feature of the RCDTM is the availability

of an electronic version suitable for use on IBM-compatible personal computers, download onto mainframes and CD-ROM players. Both the print and electronic versions are updated with the same timeliness. For more information on the electronic versions of the Regulated Chemicals DirectoryTM, contact Chapman & Hall directly (One Penn Plaza, New York, NY 10119, fax-212-564-1505). Many companies working on product development need information on what may be regulated in the future. The RCDTM provides selected information on pending regulations and in-progress testing lists, which can provide a starting place for tracking future regulatory considerations. Information for the RCDTM is continually gathered and updated. Suggestions from readers for information that should be added to the RCDTM or for other ways to improve the book are welcomed by Chapman & Hall. - Patricia L. Dsida, Pres. ChemADVISOR[®] , Inc. ix
